

Spring Break Review Packet Menu

Each day choose an item from “Math and Language Arts” then go to the tab on my web site and print off the page that corresponds to the menu item. Do the assignment and then cross off the item on the menu; after you read, record the amount of reading that you did on the reading log. The person that records the most reading minutes will win a jumbo candy bar of their choosing. On the first day back to school bring me your menu and any pages that you do, in exchange for this you will give me your order for your favorite candy bar. On Friday, March 28th you will receive your ordered candy bar and you may eat it in class as well as a certificate for your accomplishments.

Language Arts
