

Lego Engineering Club

Dear PCS families;

We are excited to offer Lego Engineering Club! Students who join the Lego Engineering Club will learn to use Lego Kits to build machines, bridges, etc. using pulleys and other engineering principles. Students will learn strategies, build their ability to follow detailed instructions, work as a team, and build social skills.

The Lego Engineering will be run by Ms. Mastrangelo and is for 2nd graders only. There will be 6 sessions. Due to the limited materials and space available, the Lego Engineering Club will be limited to 10 students. If more than 10 students are interested, participants will be selected through a random lottery. *ONLY participants who have been chosen from the lottery will be able to participate in the Lego Engineering Club.* If your child's name was drawn from the raffle, you will be notified of their enrollment by April 6th via email. **Only students who have been selected from the raffle will be notified with an email of their selection in The Lego Engineering Club.**

Lego Engineering Club will meet each Monday and Thursday after school until 4:30 PM. Parents will be responsible for transportation. All participants must commit to attending all 6 weeks of the session. The club will not run on half days.

Week 1	April 17th and April 20th
Week 2	April 24th and April 27th
Week 3	May 1st and May 4th

Please feel free to contact Ms. Mastrangelo (mastrangeloc@plymouth.k12.ct.us) with any questions. If your child is interested in being a participant, and you are able to commit to the dates and times of the session, complete and return the permission slip to their classroom teacher by Friday, March 31st.

Lego Engineering Club

I give permission for my son/daughter to participate in the six day session of The Lego Engineering Club. My child will be in attendance every day of the session and I will provide transportation for my child to be picked up at 4:30.
