Video recording resources	17.68%	166
Audio recording resources	16.08%	151
Data Analysis probes	5.54%	52

Student Comments

It has been absolutely wonderful having these Chromebooks! My brother used to have to borrow one of our computers, but now that he has a Chromebook we can all use our devices when we need to! It has been a joy to share a device with the rest of the school. We all are connected from it!

Access to Chromebooks this year has been great. At first, I didn't like the idea of carrying around a Chromebook everyday, but over the past months, it's helped me become a more efficient person, getting homework done during my free period.

Although far too many people have whined and complained about these, I think every single one of them would immediately regret it if they were taken away. The Chromebooks help us easily complete assignments, research, and find information far more efficiently than before.

Student Comments

By using the Chromebooks, it has helped me get my assignments done for my classes faster and more effectively. Having less paper and going online to take notes and having google docs to automatically save all of my notes is very helpful.

I do all of my homework now because I do not lose sheets of paper and do not have to worry about not having a laptop with me. Classes are more interactive and I keep up with my Chromebook better than an agenda which lets me make sure I do all of my homework. I also have a tool to use at home and it works just as well if not better than my own laptop. I have relatively stopped using my desktop, laptop, and iPad because the chromebook is so universal.

We are able to have a computer at anytime of the day and then everyone having the same computer it makes it easier to communicate over the computer

Student Comments

We use this in a variety of classes and it really helps on group projects and peer-editing essays

We can collaborate easily using google docs for group projects, group study guides, etc. It is easy to get your work done more efficiently and very organized using folders in Google drive.

Chromebooks have benefitted me greatly. I am able to do my homework during my free period and get as much work done as possible before my after school activities. It makes it easier to work on papers and online assignments. Now that everyone has a Chromebook, they are allowed to be used during class, and it's not uncommon to take notes on a laptop like it was last year.
