

Subtraction Fact Websites

www.aplusmath.com

This site contains several games that can be played using subtraction facts including matho, hidden pictures and planet blaster. To work on subtraction facts, set for easy version or set numbers on game as 0 to 18.

Matho can be purchased as an AP for Androids for I-phones/ I-touches.

www.mathplayground.com

This site contains several games that can be played in the "Stay Sharp! Arcade." In the "Just for Facts" section, children can challenge themselves against the clock to complete flashcards.

www.fun4thebrain.com/subtraction.html

This site contains many games that can be played to practice subtraction facts.

<http://illuminations.nctm.org/ActivityDetail.aspx?ID=198>

This interactive game called "How many under the shell?" allows children to practice subtraction by visually seeing a set and some taken away.

<http://www.funbrain.com/math/index.html>

This game allows you to practice subtraction facts as you play a game of baseball.

<http://www.funbrain.com/tictactoe/index.html>

In this game, you practice subtraction facts as you play a game of tic-tac-toe with the computer.
