2017-20 Plan Summary

The Story

Describe the students and community and how the LEA serves them.

Colton Joint Unified School District enjoys a diverse enrollment of over 22,500 students in a transitional kindergarten through 12th grade setting. Additional educational programs include preschool, Headstart, and Children's Center pre-kindergarten programs, as well as continuing educational opportunities beyond the 12th grade for qualified special education students and students approved for fifth year of high school attendance. The district continues to offer Adult Education classes which have been grant funded using AB 86.

The District serves a broad geographic area which includes the cities of Colton, Bloomington and Grand Terrace, as well as portions of Fontana, Rialto, Loma Linda and San Bernardino. The district maintains 18 elementary schools (K-6), four middle schools (7-8), three comprehensive high schools (9-12), a continuation high school and an alternative high school.

The District consists of 82.63% unduplicated pupils, which is comprised of English Learners, Low Income and/or Foster Youth, as of the end of the reporting period. This includes 82.9% socioeconomically disadvantaged, 22.26% English language learner, and 0.73% foster youth.

LCAP Highlights

Identify and briefly summarize the key features of this year's LCAP.

Through collaboration with our various stakeholders, CJUSD has established eight goals that will provide direction for the next three years:

Goal #1 - Increase the percentage of students who graduate and are prepared for college and/or a career.

Goal #2 - Increase the percentage of ELL students who achieve English proficiency and are re-classified.

Goal #3 - Increase the reading proficiency and ELA/Math competency of all students.

Goal #4 - Increase student engagement and improve school climate.

Goal #5 - Ensure students have access to quality resources, teachers, and facilities.

Goal #6 - Implement all academic content and state adopted performance standards.

Goal #7 - Promote parental participation, providing opportunities for parental input in decision making processes.

Goal #8 - Support the mental and physical health needs of students.

Additional actions and services that are being presented in this year's LCAP will support the mental and physical health needs of students by hiring additional elementary counselors and a nurse. We are going to support middle school special education students by hiring two additional teachers which allows one teacher to teach one grade level at each middle school. We will also hire an additional elementary band teacher and provide increased funds to our elementary band program. Eighth grade students will have their PSAT testing paid by LCAP funds, and supplementary materials for science and secondary social studies will be purchased. In addition, on-line staff development will be funded and new employees will attend a new employee orientation prior to the beginning of the school year.

Review of Performance

Based on a review of performance on the state indicators and local performance indicators included in the LCFF Evaluation Rubrics, progress toward LCAP goals, local self-assessment tools, stakeholder input, or other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying any specific examples of how past increases or improvements in services for low-income students, English learners, and foster youth have led to improved performance for these students.

Greatest Progress

Of particular note, is the district's green level graduation rate which increased by 3.7% to a high status of 90.2%. In addition, English Learners are at the green level (85.6%) with a 10.6% increase, Hispanics are at the green level (90%) with a 3.8% increase, and African American students achieved the blue level (95.1%) with a 10.5% increase over the previous year.

In addition, the district achieved green status in the English Learner Progress indicator. Part of this can be attributed to the district-wide reclassification rate which has increased each year since 2014-15, and currently stands at 17.75%.

The district attendance rate as of May 2018, is 95.69%. And, according to our LCAP survey, district

attendance expectations are ranked high in terms of student/parent awareness.

In terms of college/career readiness, the district's A-G completion rate has increased the past three years from 28.2% to 33.2%. Also, we have increased student enrollment in Linked Learning career pathways from 369 students in 2014-15, to 1144 students as of May 2018.

Third grade reading fluency, as measured by the DIBELS instrument, increased by 9% to 58% as of May 2018.

Other notable commendations as a result of the district's LCAP survey and William's audits are teacher qualifications, technology accessibility (approaching 1:1 student device ratio), textbooks and curriculum materials (new adoptions in math and English), and the implementation of common core standards. We have also met each of the local indicator State Dashboard requirements.

The district will continue to partner with the Principal's Exchange group to address needs in English Language Arts and Math within our "Colton Cluster", which includes Colton Middle School and six elementary feeder schools.

The district is also expanding the LETRS literacy training to include an additional forty elementary teachers. Our "LCAP" Teachers on Assignment continue to facilitate intervention support for struggling students. Continued effort and improvement has been made to align common ELA assessments with curriculum guides and CASSPP expectations.

Our Language Support Services department has worked closely with each school site to strengthen administrator and teacher capacity to address the needs of English language learners. Instructional Leadership Teams (ILT's) have been established to implement instructional approaches that will help all teachers integrate instruction that is discourse centered and utilizes effective formative assessment processes.

Referring to the LCFF Evaluation Rubrics, identify any state indicator or local performance indicator for which overall performance was in the "Red" or "Orange" performance category or where the LEA received a "Not Met" or "Not Met for Two or More Years" rating. Additionally, identify any areas that the LEA has determined need significant improvement based on review of local performance indicators or other local indicators. What steps is the LEA planning to take to address these areas with the greatest need for improvement?

Greatest Needs

The district achieved an "Orange" performance level in English Language Arts and in the suspension rate on the California School Dashboard All Students Performance State Indicators.

Steps to Address ELA Performance in Grades 3-8:

In 2017-2018, CJUSD adopted new ELA/ELD curriculum for all grade levels. For grades K-6 the adopted curriculum was Wonders. Teachers received two days of training on how to utilize the curriculum to deliver lessons that are more tightly aligned to the Common Core State Standards (CCSS). The staff development also focused on designated and integrated ELD instruction. In addition, teachers were

trained on how to use the technology platform to enhance student learning.

In the current school year, teachers began using curriculum embedded assessments to monitor student progress. At the district level, these assessments were reviewed and fine-tuned to meet the needs of our students and to properly identify the areas of weakness. Starting in 2018-2019, teachers will begin using the modified assessments results for data analysis and to consistently monitor student progress.

Teachers on Assignment (TOA) who help struggling students received extensive training on how to provide intervention for students struggling with reading. In 2018-2019, they will receive additional training to enhance their skill and also to support teachers who need assistance with reading instruction. The TOAs will continue providing support to the students.

Also, in 2018-2019, the District will provide professional development on writing for K-6 teachers. we will also be piloting an online Professional development that will allow to teachers to engage students in collaborative conversation and writing.

Steps to address ELA performance in grades 7 - 12:

In 2018-19, grades 7-8 will continue implementation of the newly adopted Study Sync ELA/ELD curriculum. Instructional coaching that began in 2017-18 will continue on sites through Instructional Leadership Teams, ELA site-leaders, educational technology specialists' support for integrating technology, and the content specific district Curriculum Program Specialists (CPS). The Secondary Educational Services Department will offer additional days of training to provide ongoing support to improve instructional practices. In addition, we have upgraded to Read 180 Universal which will provide stronger intervention and support for students struggling with reading and literacy.

The District ELA CPS will begin work with an assessment mapping team to review and revise the current assessments and improve teachers understanding of Illuminate item banks and the State digital library. A content team will also begin work on in-depth study of the ELA framework and standards to build knowledge, develop vertical connections, and calibrate instructional practices.

Our District CPS's and TOA's are also working on a grade 7-12 plan to improve writing across the grade levels. Research into best practices and development of a long-term improvement plan will be the focus.

To address the suspension rate increase, CJUSD is implementing PBIS to improve school culture and climate and to decrease suspensions. Staff completed Tier 3 PBIS training in 17/18 and will be addressing students' intensive/individual needs regarding behavior/social emotional concerns. We have also trained school site staff in various classroom and school site interventions (Tier 2 PBIS) and also on what Education Code states and considers "other means of correction" specifically targeting teacher suspensions and in-school suspensions. We have also presented PBIS and Education Code information to site and District parent groups including DELAC and the District Parent Advisory Committee. Positive outreach has been done regarding promoting kindness and inclusion in order to decrease both suspensions and instances of bullying. The "Kindness Campaign" has been implemented for the last 2 years including a District Wide Unity Day in October, 2017. Also, every outside suspension is reviewed by the Director of Student Services to ensure that the code listed is actually suspendable (some are suspendable on the first offense, but most require other means of correction prior to suspension). Suspensions for African American students are closely monitored because we are disproportionate in AA

suspensions. There were no outside suspension for 48900k this year for AA students. Most suspensions were for fights, drugs, and/or weapons (for both AA and all other students). The Student Services Department is working with the district Family Engagement Manager to plan parent outreach and focus groups specifically to address bullying concerns and a focus group with AA parents in 18/19. In the focus groups we will be discussing next steps based on the data for AA suspensions in 17/18. (Ex. We need to know if this is a student issue or if it's an adult issue. If AA kids have drugs/are in physical fights, etc that is a student issue that we need to address and brainstorm ideas with parents. If the suspensions are for THREATENING to fight, disruption etc- that may be an adult issue that we need to address perhaps cultural awareness etc.).

Referring to the LCFF Evaluation Rubrics, identify any state indicator for which performance for any student group was two or more performance levels below the "all student" performance. What steps is the LEA planning to take to address these performance gaps?

Performance Gaps

The only state indicator where any student group was two or more performance levels below the "all student" performance are our graduation rates for Filipino and white students, as well as students with disabilities. Filipino students achieved a 93.8% graduation rate (-6.3% decline), while white students achieved an 86.5% graduation rate (-2.1 decline) and students with disabilities achieved a 71.7% (+.7% maintained) graduation rate compared to a 90.2% graduation rate (3.7% increase) for all students.

To address the needs of our students with disabilities, we are beginning the development of a five year plan to evaluate the viability and structure of our special education programs. The Educational Services and Student Services Divisions will initiate this process by conducting "empathy interviews" with special education staff as a way of gaining a deeper understanding of the issues facing our special educators.

Colton Joint Unified is also currently participating with four other local districts in the "Inland Empire Core Initiative" to specifically discuss methods for addressing the continued poor performance of students with disabilities throughout the region.

The data regarding Filipino and white students' graduation rates will be shared at secondary principal meetings and with secondary counselors to raise the level of awareness of these populations. No specific plans have been developed, but discussions regarding the data will occur during the 2018-19 school year.

If not previously addressed, identify the two to three most significant ways that the LEA will increase or improve services for low-income students, English learners, and foster youth.

Increased or Improved Services

See the four sections above.

Budget Summary

Complete the table below. LEAs may include additional information or more detail, including graphics.

DESCRIPTION**AMOUNT**

Total General Fund Budget Expenditures for LCAP Year

\$ 278,434,007

Total Funds Budgeted for Planned Actions/Services to Meet the Goals in the LCAP for LCAP Year

\$ 34,682,736

The LCAP is intended to be a comprehensive planning tool but may not describe all General Fund Budget Expenditures. Briefly describe any of the General Fund Budget Expenditures specified above for the LCAP year not included in the LCAP.

Total Projected LCFF Revenues for LCAP Year

\$ 233,726,404

Annual Update

LCAP Year Reviewed: 2017-18

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed.

Goal 1

Increase the percentage of students who graduate and are prepared for college and/or a career.

State and/or Local Priorities addressed by this goal:

State Priorities: 4, 5, 7

Local Priorities: Board Value 2: Student Opportunities, Board Value 4: Equal Access, Community Cabinet 3: Literacy, Community Cabinet 4: Academic and Career Readiness

Annual Measurable Outcomes

Expected

90%
Graduation rate

Actual

Fall 2017 Dashboard shows the district in green with 90.2% graduation rate. This represents a 3.75% increase from 2014/15.

Expected

38%
Advanced Placement examinations with a pass rate of 3+

31%
Percentage of pupils completing UC/CSU a-g requirements.

English-Language Arts: 47%
Math: 18%
Share of pupils determined prepared for college by the Early Assessment Program

18.1%
College and Career Ready

Percentage of Seniors who complete a career Pathway.

Actual

In 2016/17, the district had 34% passing rate of Advanced Placement examinations with a score of 3 or higher.

The preliminary data for 2016/17 shows the percentage of pupils completing UC/CSU "a-g" requirements is 19.90%.

The 2016/17 percentage of students determined ready or conditionally ready based on performance on the Early Assessment Program in English language arts is 44.9% and math is 15.10%.

For the class of 2016, the district has a low percentage of students, 25.2%, who are are "Prepared" for College or a Career. The Dashboard also shows another 21.1% who are categorized as "Approaching Prepared". The district anticipates a dramatic increase in our College/Career Indicator as we add capstone courses and graduating classes include higher percentages of Pathway students. Additionally, CJUSD had 161 seniors complete the two-year Career Technical Education sequence and another 181 seniors who completed the four-year Linked Learning pathway.

Since 2017/18 is the first year CJUSD has had seniors graduating the pathways programs, there isn't sufficient data at this time.

Actions/Services

Duplicate the Actions/Services from the prior year LCAP and complete a copy of the following table for each. Duplicate the table as needed.

Action 1

Planned Actions/Services

Maintain work based learning continuum opportunities.
 Continuing cost of Linked Learning Program Specialist.
 Certificated Program Specialist Associated Benefits Costs
 Work based learning continuum opportunities
 Pathways support, including instructional materials, technology and supplies

Actual Actions/Services

The Linked Learning CPS oversees all Pathways programs to ensure they meet state and Career Technical Education (CTE) sequences and alignment to the College & Career Indicator (CCI) and CAL-PADS.

Seven additional CTE courses received UC approval for implementation in 2018/19. This brings the district total to 40 CTE courses with UC approval. Thirty of which are articulated with at least one community college.

Work based learning projects and job shadowing through CJUSD’s Work Experience courses has begun. During the summer of 2017, eight students participated in Medical Leaders

Transfers (7200)

Action 3

Planned Actions/Services

Actual Actions/Services

Budgeted Expenditures

Estimated Actual Expenditures

Implement Project Lead the Way (PLTW) to integrate rigorous science, math, and engineering curriculum in high school courses.

The Project Lead The Way (PLTW) pathway is in its 4th year at GTHS and BHS. Since GTHS teachers are CTE credentialed the 4-year course sequence has been split into 2 CTE pathways. Introduction to Engineering & Design (9th grade) and Engineering Design & Development (12 grade) make up the Engineering Design pathway. Principles of Engineering (10th grade) and Digital Electronics (11th grade) make up the Engineering Technology pathway. At BHS the same courses are taught by Science teachers. All courses received UC approval under "g", Elective Interdisciplinary approval. Course outlines are currently in development to make Digital Electronics and Engineering Design & Development Honors courses in 2018-19.

No additional budgeted expenditures

No additional budgeted expenditures

Action 4

Planned Actions/Services

Provide equal access to students with disabilities and provide support through the Specialized Academic Instruction Support model. Provide additional instructional support through the use of six-hour special education instructional assistants to support core academic content knowledge acquisition. Continue implementation of Specialized Academic Instruction support model as an instructional strategy for students with disabilities as part of their classroom instruction. Increase the amount of support available to students by increasing the number of hours worked by the special education instructional assistants to six hours per day.

Provide additional instructional support for students with disabilities by increasing special education instructional assistant hours to six hours per day.

Actual Actions/Services

The increase in hours for the special education instructional assistants has allowed staff to better serve the students on IEPs during the school day. All but two instructional assistants work six hours per days. These two instructional assistants have split jobs within the district. This has helped with providing services to students during the entire instructional day.

Budgeted Expenditures

\$259,086
LCFF
No additional budgeted expenditures for Specialized Academic Instruction Support Model.
Classified Salaries (2100):
Benefits (3000):

Estimated Actual Expenditures

\$252,559
LCFF
No additional budgeted expenditures for Specialized Academic Instruction Support Model.
Classified Salaries (2100)

Maintain the summer school program to allow students to remediate classes and to take classes to gain schedule flexibility to enroll in and complete career education pathways and UC/CSU course requirements.

Continue the middle school and high school summer school programs to encourage higher student participation and increased course offerings. Certificated summer school salaries. Classified summer school salaries. Associated benefits costs.

The Middle School program allowed 510 incoming 7th and 8th grade students an opportunity for remediation on ELA and math.

At the High School level, 3,246 students were able to take courses to recoup credits in core subject areas, participate in career pathway courses, and complete courses for UC/CSU requirements.

Students were also afforded the opportunity to complete graduation requirements at one of our alternative locations, Washington High School, Slover Mountain High School, or Adult Education. The number of graduates who availed themselves of this opportunity isn't available at this time.

Continue a double block math support class at the high school level to provide intervention and support for students. Staffing necessary to implement a double block of math support classes is an existing cost and is incorporated into the school site master schedule. No additional FTE added.

Establish a class size enrollment maximum for English and math classes designed to support students who are below grade level expectancies. Three FTE high school Math teachers on assignment to provide targeted support to students in math.

LCAP funding was used to provide the staffing necessary at the secondary sites to support class size maximums for double block or two-period classes in Math. To accomplish this, each Secondary site was provided an extra FTE in 2015-16 in math to hire teachers to support the necessary additional Math support sections and lower the student to teacher ratio to 25:1. Class size maximums for 2017/18 Math support classes averaged 20 students in middle school and 21 students in high school.

The math TOAs support students with small group and one-on-one intervention. Additionally, they collected and disaggregated data on common formative and summative assessments for Algebra I and Geometry.

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

Implementation of actions and services continued to move forward and show growth. The continued focus on college and career readiness resulted in continuing to offer opportunities for students to take AP Exams, enroll in an increased number of UC a-g coursework, and areas of improved EAP results. CJUSD AVID programs continue to thrive and expand with more opportunities and experiences provided for students at the middle school level. Opportunities continued to increase for students involved in CTE courses through expanded pathway options and enrollment, increased CTE courses receiving UC a-g approval, and greater numbers of work-based learning opportunities available. CTE and elective courses continue to expand at the middle school level to prepare students to enter the high school pathways. Increased teachers, counseling, and academic support for Special Education and English Learners provide access to the curriculum and increase support for success. Greater support to school libraries with staffing, digital access to resources, and physical upgrades continue to enhance the educational program for students, teachers, and families. Additionally, curriculum updates and staff development offerings emphasizing State Standards has increase support for teachers to deliver quality initial instruction.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

Effectiveness of the actions/services to achieve CJUSD LCAP goals show in the results of our data used to measure stated goals. Enrollment numbers and completers of CTE pathways continue to increase including the numbers of Linked Learning Pathway graduates. The number of CTE courses meeting UC a-g requirements and number of pathways offered to students increased. Overall advanced placement and EAP results show small percentage decreases but remain fairly stable over a 3 year period. All LCAP staffing positions and components to provide equal access to English Learner students were in place during the school year. Summer school provided opportunities for 3,246 high school students and 510 middle school students to complete credits. Support classes for ELA and Math were in place at all secondary sites. All K-12 teachers were trained in NGSS Standards and the Science Leadership Team participated in Lesson Studies. Finally, increasing access to school libraries to reinforce literacy has resulted in providing students 24/7 access to a digital library and improved collection development with resources to support and further their education.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

In order to have a clear picture of results of actions/services and their corresponding funding, funding for EL Counselors (1.5) has been moved to Goal 2 Action 3. Funding for math class size maximum (1.5) has also been moved to Goal 1 Action 8. In 2018/19, funding for math TOAs will also be separated out. Slight material differences can be attributed to change in personnel, annual step/column, and increases to both PERS and STRS. Additional funding support for programs was spent on books, materials and supplies, and services/outside expenditures.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

All Goal 1 actions/services continue to be updated as they evolve and student needs shift. The 2018/19 LCAP will include Action 19 "Continue use of READ 180" which was formerly under Goal 2.4. Additionally, funding for the EL Counselors has been moved from Goal 1.5 to 2.3. Both the READ 180 and changes to 1.5 were made to clarify the actions/services as directed toward all unduplicated pupils and transparency for our stakeholders. These changes were brought about while re-evaluating CA Dashboard information and students' needs. Since 2017/18 is the first year the district's pathways programs will have graduating seniors, there isn't sufficient data for percentages of seniors completing the program.

Actions and Services added beginning 2018/19:

PSAT-type testing for Grade 8 students. (1.11)

READ 180 (1.19 formerly 2.4)

Two middle school Special Education teachers. (1.20)

Goal 2

Increase the percentage of English language learner students who achieve English proficiency and are reclassified.

State and/or Local Priorities addressed by this goal:

State Priorities: 4

Local Priorities: Board Value 2: Student Opportunities, Community Cabinet 3: Literacy

Annual Measurable Outcomes

Expected

68.3%

English learners that become English proficient

16.5%

English learner reclassification rate

Actual

In 2016-17, the district had 76.6% of our English learners make progress toward English proficiency. Additionally, we are currently green on the Fall 2017 Dashboard for English learner progress.

The District reclassification rate for English learners was 17.36% in 2016-17.

Actions/Services

Duplicate the Actions/Services from the prior year LCAP and complete a copy of the following table for each. Duplicate the table as needed.

Action 1

Planned Actions/Services

Continue funding of Language Assessment Center to provide initial testing for incoming students, and annual testing for continuing students, which ensures proper educational program placement and measure progress towards goal.

Continue additional Language Support Specialist to facilitate the testing administration and data analysis for English learner students.

Continue funding Language Support Services staff to provide program oversight, staff development and clerical for district-wide English learner program. Language Support Services and Language Assessment Center staff salaries and benefits.

Actual Actions/Services

The Language Support Specialists, who staff the Language Assessment Center, assessed over 500 students on the initial CELDT this year and anticipate assessing another 500+ new students on the new ELPAC initial assessment. Additionally, the team provided ten days of training to over 350 site staff district-wide on administering the new ELPAC summative assessment.

The Language Assessment and Data Specialist provided monthly site data on EL changes and facilitated ten days of training for all new ELP assessments, as well as maintaining the Title III data for progress monitoring.

Our Language Support Services director and support staff provided professional learning,

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

Various actions were implemented to increase the number of students who achieve English proficiency and reclassify in higher numbers than the county and state rates. The staff at the Language Assessment Center assesses all initial CELDT (California English Language Development Test) assessments so that consistency across the district is maintained. This year, the English Language Assessment for California (ELPAC) was implemented as part of the statewide transition to a new assessment of English proficiency. The ELPAC summative assessment was administered with consistency across the District in the early Spring. Next year, the ELPAC initial will be implemented. This year, Parents continued to receive initial scores. Continual monitoring of EL progress and RFEP monitoring remains our priority, Next year a new monitoring system, ELLEVATION, will be implemented. The ELLEVATON system maintains an exclusive data management system that is accessible to administrators, teachers and district staff to closely monitor progress of ELs. English learner counselors monitor English Learner progress and reclassification monitoring so that appropriate interventions are provided to the students. Students are continually monitored during intervention time by the teacher, school and EL counselors.

A dual immersion program continues to be offered at one elementary school for both English learner students and English only students. This program allows for English learners to maintain their primary language while at the same time learn academic English. These students continue their trajectory and potentially attain the Seal of Biliteracy.

Staff development for teachers of English learners was provided on supplemental EL instructional strategies through the use of three program specialists. This year, we continued offering professional development using a job- embedded pedagogy by using the Instructional Leadership Teams (ILTs) model. ILTs were developed to support each Elementary, Middle and High school with an emphasis on authentic discourse, formative assessment and culturally and linguistically relevant instruction. This is a push-in model where the three English learner Curriculum Project Specialists provided customized professional learning for each site that augments our newly adopted ELA/ELD curriculum. English learner site leads were identified and assigned site leader tasks which include documentation of school site implementation of English learner program, monitoring of EL and RFEP students as well as EL support to their sites. Under the direction of the Director of Language Support Services, English learner Teacher on

Assignments (TOAs) support staff training for improved student performance, facilitate program and school improvement and assist with coordinated compliance at sites. They also assist with the development of instruction focusing on the English Language Development standards and the planning of linguistically appropriate lessons in accordance with the District's English learner curriculum and adopted materials. Language Support Services continues to provide English learner students with supplemental instructional support materials designed to accelerate the acquisition of English, at the emerging, expanding and bridging levels and to encourage literacy in the primary language.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

The percentage of English learner students meeting reclassification criteria is 17.36% which is 1.8% above the county rate of 13% and 1.5% state rate of 13.3%. 26% of our Long-Term English learners (LTELs) that are enrolled in this double block class grew from Intermediate (3) to Early Advanced (4) and Advanced (5). High school programs for English learners are focused on attaining high graduation rates, of 81% of English learners. Expected outcomes for 2018-19 have been clarified slightly to differentiate between students reclassified and progress of students towards reclassification. Action 3 now includes funding for the EL counselors (formerly included in Goal 1 Action 5). This allows for better overview of these positions. Action 4 & 5, READ 180 and Lexia, are both cross referenced in other goals. Since both actions service all students and in order to provide better clarity, funding and update information have been moved to Action 1 Goal 19 and Goal 3 Action 1, respectively.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Funding for the EL Counselors, formerly 1.5, has been moved to Goal 2 Action 3. Slight material differences can be attributed to change in personnel, annual step/column, and increases to both PERS and STRS. Additional funding support for programs was spent on books, materials and supplies, and services/outside expenditures. The bilingual stipend increase, Action 12, is over the budgeted estimated due to the delay in implementation.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

Funding for Action 4 has been moved to Goal 1.19, READ 180, and Action 5 has been moved to Goal 3.1. It was felt these changes better represented implementation of the programs. English 3D became obsolete with our recent English Language adoption and is no longer being used, Action 6. The metric for "English learners that become English proficient" will undergo a slight revamping in 2018/19 to become "Percentage of English learners who have made progress toward English proficiency".

Funding changes:

Stipend/benefit allocation to EL site leads. (2.9)

Five percent of the English language CPSs salaries/benefits. (2.8)

Goal 3

Increase the reading proficiency and English Language Arts/Math competency of all students.

State and/or Local Priorities addressed by this goal:

State Priorities: 4, 8

Local Priorities: Board Value 2: Student Opportunity, Community Cabinet 3: Literacy

Annual Measurable Outcomes

Expected

37%
ELA performance on CAASPP: grades 3-8

24%
Mathematics performance on CAASPP: grades 3-8

Actual

The percentage of pupils' ELA performance on the 2016/17 CAASPP is 37%. This appears as orange, low, on the Fall 2017 Dashboard, although scores decreased by 1.5 points. CJUSD's status continues to reflect "Maintained".

On the Fall 2017 Dashboard, 3-8 grades increased by 4.5 points in math. This change elevated CJUSD's student performance in math from orange to yellow. This growth is reflected in the change of status to "Increased" and reflects a district percentage of 23% for grades 3-8 on the 2016/17 CAASPP.

Expected

55%
Percentage of K-3 students performing at or above grade level by the end of the third grade

Actual

Using Dynamic Indicators of Basic Early Literacy Skills (DIBELS), the percentage of students reading at grade level are: K - 46%; 1st - 50%; 2nd - 62%; 3rd - 58% for 2017/18.

Actions/Services

Duplicate the Actions/Services from the prior year LCAP and complete a copy of the following table for each. Duplicate the table as needed.

Action 1

Planned Actions/Services

Provide intensive, individualized reading support to students reading below grade level, including students with disabilities, and/or English learner students with the use of Lexia as an intensive reading intervention program.

Lexia reading intervention program. 3-year agreement renewal date, July 1, 2017.

Actual Actions/Services

Teachers are using Lexia to provide intervention for students who need additional support. The program also provides support for English learner students and students with disabilities. Approximately 6,500 elementary students use Lexia regularly. About 2,000 more students use it sporadically. DIBELS data demonstrate that primary students are making some progress in reading fluency.

Budgeted Expenditures

Actual Actions/Services

Budgeted Expenditures

Estimated Actual Expenditures

Implement Illuminate as the online assessment and reporting system which allows teachers to effectively use assessment data and modify instruction for students.

Annual funding for Illuminate

The Illuminate online assessment and reporting system serves multiple functions including data analysis by hosting student assessment data for district benchmarks, DIBELS, and CAASPP and providing a venue for the development of district benchmarks through their Item Bank which houses over 26,000 standards based items. This allows for the development of standards aligned benchmarks which match the rigor and complexity of questions on the CAASPP assessments. At the elementary level, Illuminate is also used for the development of the standards aligned elementary report card and gradebook.

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

In 2017-2018 school year, district started the implementation of new ELA/ELD curriculum, Wonders in grades TK-6. Teachers received two days of training on different aspects of the curriculum including the use of technology platform and integration of ELD instruction. Teachers are utilizing the new curriculum including the curriculum-embedded assessments to monitor student progress. Teachers on Assignment (TOAs) have received extensive training on teaching reading and they are employing those strategies in their work with students who need intervention. Teachers are using the DIBELS Amplify platform to monitor student progress in reading.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

According to the fall 2017 CA Dashboard data, CJUSD scores decreased (-1.5) in CAASPP ELA assessments. Implementation of the new ELA/ELD curriculum is likely to help teachers deliver more rigorous standard-aligned curriculum. Students have demonstrated some progress in the curriculum embedded assessments. Students are also demonstrating growth in the DIBELS fluency assessments. CAASPP math scores grew +4.5 points. Teachers continue to use the Go Math curriculum to deliver more robust instruction.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Since Lexia is widely used by teachers for reading intervention, funding was moved to Action 1 from Goal 2 Action 5. Funding for high school Advanced Placement tests was paid out of the College and Career Readiness Grant during 2017/18. Slight material differences can be attributed to change in personnel, annual step/column, and increases to both PERS and STRS.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

As the District begins to incorporate CAASPP scores into the LCAP, previously CJUSD used benchmark assessments as a measure of student progress, we will continue to align the metrics to the Dashboard.

Moving forward Lexia funding will continue to fall under Action 1.

Goal 4

Increase student engagement and improve school climate.

State and/or Local Priorities addressed by this goal:

State Priorities: 5, 6

Local Priorities: Board Value 2: Student Opportunities, Community Cabinet 2: Mental and Physical Health and Awareness

Annual Measurable Outcomes

Expected

96.5%
School attendance rates

90%
High school graduation rates

<3.0%
Pupil suspension rates

Actual

Attendance rates for year-to-date at the comprehensive sites is 95.69%.

Fall 2017 Dashboard shows the district in green with 90.2% graduation rate. This represents a 3.75% increase from 2014/15.

The Fall 2017 Dashboard reports the district suspension status as orange, 4.5%. However, preliminary year-to date data shows a decrease in these rates.

Expected

<0.75%
Pupil expulsion rates

Pending state dashboard implementation
Chronic absenteeism

Maintain <3%
District wide adjusted drop-out rate

Actual

The district-wide expulsion rate for 2016/17 was 0.11%.

The district-wide goal for Chronic Absenteeism is at or below 11% of the school population with the implementation of this priority into the Dashboard. Of our 27 schools, nine schools currently meet the Chronic Absentee rate of at or below 11%.

The 2016/17 district-wide adjusted drop out rate for high schools was 2.1%.

Expected

District score: 3
School Climate Survey

Actual

CJUSD administers the PBIS School Climate Survey to students in grades 3-12. The survey is part of PBIS Assessment, which is part of the SWIS Suite. The survey measures student perception of school climate. Examples of questions include, but are not limited to: I like school, Teachers treat me with respect, I feel safe at school, Students treat each other well, There is an adult at my school who will help me if I need it, Students are frequently recognized for good behavior. The mean scores are from 1 (lowest) to 4 (highest).

Elementary Schools: Overall mean score = 3.09 Overall for Hispanic Students =3.11, Black/African American Students =2.98, White Students=3.04.

Middle Schools: : Overall mean score = 2.77 Overall for Hispanic Students =2.79, Black/African American Students=2.64, White Students=2.84.

Comprehensive High Schools: : Overall mean score = 2.74 Overall for Hispanic Students =2.74, Black/African American Students=2.71, White Students=2.79.

Alt Ed Schools: : Overall mean score = 2.82 Overall for Hispanic Students =2.91, Black/African American Students= None self-identified as Black/African American, White Students=None self-identified as white.

Actions/Services

Duplicate the Actions/Services from the prior year LCAP and complete a copy of the following table for each. Duplicate the table as needed.

Action 1

Planned Actions/Services

Continue use of Saturday School program through contracted services to enable students to make-up absences, address truancies, and provide students an opportunity to engage in additional instructional time outside of the regular school day.

Saturday school program costs are anticipated to total \$120,000, however, this is offset by revenue generated under the program.

Actual Actions/Services

As of March 31, 2018, there have been 276 Saturday School Sessions held with 19,563 students that have attended with the opportunity to engage in additional instructional time.

Half of the net revenue is provided to school sites on a prorated basis to support school site activities.

Budgeted Expenditures

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

All actions and services as described in Goal 4 have been ongoing during the 2017/18 school year. All school sites have Comprehensive Safe School Plans and are continuing to implement PBIS. The district continues to maintain the Saturday School Program to increase attendance percentages. SARB, the CJUSD Truancy Intervention Program, continues and expands services to support Foster and Homeless Youth.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

The district graduated an addition 56 students in 2016/17 who were able to complete courses in summer school using the Odyssey credit recovery program. PBIS efforts, clear expectations of students and clarity/consistency with staff is still a work in progress. Due to declining enrollment, there is a strong focus on students being in school every day and on time. All sites continue efforts in this regard and incentive were provided. The mental and behavioral health department has grown with the twelve interns under the Mental Health Manager's supervision and work closely with our elementary counselors who provide a growing number of students and families services.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Slight material differences can attributed to change in personnel, annual step/column, and increases to both PERS and STRS. Additional funding support for programs was spent on books, materials and supplies, and services/outside expenditures.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

Changes in the Chronic Absenteeism metric will be made to coincide with the Dashboard's release of information.

Goal 5

Ensure students have access to quality resources, teachers, and facilities.

State and/or Local Priorities addressed by this goal:

State Priorities: 1

Local Priorities: Board Value 1: Safe and Positive Environments, Board Value 8: Quality Resources

Annual Measurable Outcomes

Expected

Maintain Zero Williams findings: Pupils have access to standards-aligned instructional materials.

Maintain Zero audit findings: Degree to which teachers are appropriately assigned and fully credentialed in the subject areas and for the pupils they are teaching.

Actual

The annual Williams visits and Resolution of Sufficiency showed 100% of pupils had access to standards-aligned textbooks and instructional materials during the 2017/18 school year.

The Assignment Monitor and Review Report submitted to San Bernardino County Superintendent of schools, 12/2017 verifies all teachers are appropriately assigned and credentialed for their assignment.

Expected

Maintain Zero Williams findings: School facilities are maintained in good repair.

Maintain Zero findings: Annual assignment monitoring by SBCSS verifying compliance with credential authorizations.

Actual

School facilities were maintained in good repair and the district received zero Williams facilities findings.

San Bernardino County Superintendent of Schools is currently auditing CJUSD Assignment Monitor and Review Report. Thus far, the district is in compliance with no findings.

Actions/Services

Duplicate the Actions/Services from the prior year LCAP and complete a copy of the following table for each. Duplicate the table as needed.

Action 1

Planned Actions/Services

Replacement textbooks and consumables are ordered annually as needed to replenish inventories.

Replacement books and consumables are ordered as needed to replenish stock.

Actual Actions/Services

Annual replacement/replenishing of instructional needs is identified on a site-by-site bases. Instructional material orders are coordinated through the district office and the Asset Manager to insure sufficient materials are provided to the sites for the upcoming school year.

Books & Supplies (4000)

Action 2

Planned Actions/Services

The district will continue its practice of hiring teachers who possess a full credential in the appropriate subject area, including an authorization to provide instruction to English learner students for all vacant teaching positions. All vacant teaching positions will be filled within the first 30 days of the school year and/or semester.

Hiring practices and credential reviews are conducted by existing staff on an on-going basis. The district will continue to participate in an induction program to assist new teachers in obtaining support in their first years of teaching

Actual Actions/Services

The district continues to require all teachers to complete training to receive an authorization to teach English learner students and for all new teachers to possess the authorization within their first two years of employment. The Human Resources Department conducts new employment application evaluations to ensure that all applicants are appropriately credentialed prior to being interviewed for any new positions. These efforts have ensured that all teachers are appropriately assigned for their teaching positions and students are receiving instruction from teachers with subject matter knowledge. Cost of the Induction Program is dependent on the number of new teachers participating.

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

The district continues to update instructional materials and ensure curriculum is reviewed and updated on a regular basis. Sufficiency of instructional materials is monitored by our Asset Manager. Teacher trainings on new ELA adoptions for both elementary and secondary sites took place in 2017/18. Through the continued efforts of the Human Resources department, all teachers are appropriately assigned for their teaching positions ensuring students are receiving instruction from teachers with subject matter knowledge. Maintenance and operations staff continue to strive to eliminate vacancies as quickly as possible as staff promote or leave the district. Each school site was provided with an allocation of funding to enhance the learning environment. Site allocations were administered based on the number of unduplicated pupil count and were managed by site administration. Each site was allocated additional funding equal to the number of teachers and itinerant staff. This funding was available for use on augmenting classroom instructional supplies at the teacher's discretion.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

During the 2017-18 school year, 82 candidates participated in the Center for Teacher Innovation (CTI) Teacher Induction Program, a 2-year program operated through the Riverside County Office of Education. All teachers participating in the Teacher Induction Program are supported by a Reflective Coach, either face-to-face with District Coaches or online. The Colloquium, the end-of-the-year celebration, was held on May 22, 2018, and 53 Year 2 candidates successfully completed their Induction Program and are now eligible to apply for their clear credential. Additionally, district staff and outside consultants offered multiple teacher trainings in elementary and secondary ELA and Next Generation Science Standards, as well as secondary math and foreign language. Continuing staff development ensures the district provides students with quality educators who are able to successfully engage them.

Maintenance and Operations staff continue to ensure students and staff are provided with a clean, safe environment both inside and outside the classroom. At sites' request, maintenance workers continue to provide various services including routine maintenance. Grounds workers and custodial staff maintain a clean and inviting atmosphere throughout the district.

Through the school site allocation of funding, each site is able to target resources to their unique student needs. Site administration often provided assemblies, field trips, or additional technology to engage and enhance students' learning. Funding at the teacher level was used for classroom specific needs based on grade level and subject material.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Any unused funding at the end of the year will be used to offset unanticipated expenses for instructional materials and supplies. As well as, increases to salaries and benefits.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

The district continues to maintain all actions and services incompased in Goal 5 and will augment in the new year with additional instructional materials for students and employee training (see below).

Actions/services added for 2018/19:

Supplementary instructional materials for Social Studies (grades 7-12) and NGSS (K-12). 5.8

New Employee Orientation, full day. (5.9)

Classified staff development. (5.10)

Goal 6

Implement all academic content and state adopted performance standards.

State and/or Local Priorities addressed by this goal:

State Priorities: 2, 4

Local Priorities: Board Value 3: Quality Staff Development

Annual Measurable Outcomes

Expected

Use 2017/18 mid-year survey as base.

Implementation of academic content and performance standards and English language development standards adopted by the state for all pupils, including English learners, will be supported by site principal/administrator via observation protocol walkthroughs.

100%
85% of teachers will attend staff development on the state frameworks, when offered.

Actual

Principals have developed and are implementing various walkthrough tools to focus on targeted instructional shifts, allowing for rich discussions. Principal's are sharing successes and things to change with their peers during principal meetings and collaborations. Walkthrough procedures are in their initial development and implementation stages and will continue to evolve through next school year.

More than 95% of the teachers have attended trainings offered by the District. Elementary trainings focused on the newly adopted ELA/ELD curriculum, Wonders

ELA: 37%
Math: 24%

Students' mastery will be assessed on the CAASPP (Grades 3-8).

The 2016/17 CAASPP performance on ELA was 37% and 23% for math. This is reported on the Fall 2017 Dashboard for Grades 3-8 as:

- The district is orange or low in English Language Arts, although the status continues to reflect maintained.
- Math scores increased by 4.5 points this change elevated CJUSD's student performance in math from orange to yellow.

Pacing Guides (K-6): 100%
Course Descriptions
Middle School: 40%
High School: 65%

Pacing guides and course descriptions current within the last 5 years.

Pacing guides and course descriptions current within the last five years.

Pacing Guides (K-6): 100%
Middle School Course Descriptions: 63%
High School Course Descriptions: 65%

Actions/Services

Duplicate the Actions/Services from the prior year LCAP and complete a copy of the following table for each. Duplicate the table as needed.

Action 1

Planned Actions/Services

Actual Actions/Services

Budgeted Expenditures

Estimated Actual Expenditures

District provided staff development for teachers on the implementation of CCSS will be funded through Title I and Title II.

Title I CCSS staff development
 Title II CCSS staff development

Title funds provide a total of four Curriculum Program Specialists who continue to conduct staff development in all Common Core Content areas. The science specialist works closely with the WestEd consultants to ensure implementation of the Next Generation Science Standards. Substitutes were provided for teachers to attend conferences or district workshops. Teachers attended many out-of-district conferences. Consultants worked with selected schools to improve instruction of CCSS.

Action 2

Planned Actions/Services

Actual Actions/Services

Budgeted Expenditures

Estimated Actual Expenditures

Periodic benchmark assessments will be administered to students to measure mastery of the Common Core State Standards. Benchmark assessments will be developed utilizing Illuminate and the Assessment Studio/Amplify programs.

Funding for Illuminate and Assessment Studio/Amplify

Illuminate serves multiple functions including data analysis by hosting student assessment data from district benchmarks, DIBELS, and CAASPP and providing a venue for the development of district benchmarks through their Item Bank which houses thousands of standards based items. This allows for the development of standards aligned benchmarks which match the rigor and complexity of questions on the CAASPP assessments.

Estimated Actual Expenditures

District provided staff development for teachers on the implementation of ELD state frameworks will be funded through Title III.

Title III ELD staff development

EL Curriculum Project Specialists provide customized trainings to our Language Support Services developed Instructional Leadership Teams (ILTs) for all K-12 sites (two-days per sites), as well as offer professional learning on various EL strategies that supplement and augment our core programs.

Cross Reference Goal 2I
No additional cost
Certificated Salaries (1900)
Benefits (3000)

Cross Reference Goal 2 Action 8

Action 4

Planned Actions/Services

Actual Actions/Services

Budgeted Expenditures

Estimated Actual Expenditures

Provide additional support on the implementation of the academic content and performance standards of the Common Core State Standards to students with disabilities by utilizing a curriculum designed for special education students and assessments designed to assess performance on areas addressed in the Individualized Education Plans.

Unique Learning Systems curriculum annual licenses.
 Student Annual Needs Determination Inventory (SANDI)
 Eight teacher laptops with interactive screens.

The district continues to use the Unique Learning Systems program for students with disabilities. This is a standards based curriculum to support increased reading comprehension , as well as vocabulary and recognition skills. Touch Math is used for students with disabilities to support proficiency in grade level math concepts. Additionally, Soliday Systems, a reading curriculum, has been added for our mild/moderate population and all teachers received NGSS training.

Analysis

Complete a copy of the following table for each of the LEA’s goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

The district continues to support implementation of the state frameworks with over 165 trainings on a variety of staff development. The district science leadership team continues to work with WestEd as they implement the CJUSD plan developed in 2016/17. WestEd has also facilitated grade specific science trainings for K-8 teachers, as well as subject specific training for 9-12 science teachers. Multi-day training in support of the new Wonders adoption was provided to all elementary teachers. Secondary trainings included ELA, ELD, foreign language, Healthy Youth, as well as multiple elective trainings. EL trainings included the next phase of ILTs. Additionally, the Ed Tech TOAs offered assistance ranging from one-on-one to site-wide. With an increase of over 100 participants, Camp Ed was attended by over 500 teachers this past summer.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

During 2017/18, staff development trainings continued in support of the CCSS. The district science leadership team is beginning to implement their plan for phasing in NGSS districtwide with a combination of grade/subject specific trainings for teachers and additional work towards a successful leadership team. Language Support Services continues to support the Instructional Leadership Teams (ILTs) push-in model emphasizing authentic discourse, formative assessment, and culturally/linguistically relevant instruction into its second year. A total of 60 secondary course descriptions were written or updated during 2017/18, 25 for the middle school and 35 for the high school. Student achievement data, feedback surveys, collaboration notes, and site walkthroughs are utilized to ensure implementation of instructional strategies, measure training effectiveness and guide future trainings

In addition to providing some of our trainings, District Curriculum Program Specialists (English Language Arts, Math, Link Crew, Technology, Science, and English Learner Programs) worked with teachers, students and administrators throughout the year to improve instructional practices and improve student achievement.

Teachers were surveyed last spring to determine professional development needs for 2018/19. Due to the survey, we are excited to pilot Colton Ignite,

online professional development. We are also continue to provide trainings and collaboration opportunities in Reading, Writing, Math, Science and Social Studies.

A total of 60 secondary course descriptions were written or updated during 2017/18, 25 for the middle school and 35 for the high school. Thus meeting the 2017/18 high school course description metric of 65% and exceeding the middle school metric for 2017/18 by 23%.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

For 2017/18, the summer certificated staff development opportunity was funded using the Educator Effectiveness Grant. This funding was used to offset increases to salaries and benefits due to advancement in step or column and mandatory increases to retirement benefits. Additionally, consultants and conferences increased the overall anticipated expenditures for Title I and II (6.1).

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

Since 25 middle school course descriptions were updated this year, the metric for the percentage of course descriptions current within the last five years will be re-evaluated and a new metric set for 2018/19 and 2019/20. Principals are implementing various walkthrough tools to focus on targeted instructional shifts which allows for rich discussions. Additionally, Principals are sharing their progress with their contemporaries during monthly Principal's meetings which allows for rich collaboration on successes and insight into the process. This is in its initial implementation stages with further development anticipated for next year.

Additionally, the district will be piloting an on-line staff development opportunity in 2018/19. It is anticipated that this will decrease the time teachers are required to be out of their classroom for staff development. With this in mind and the expectation that time outside the regular workday will be required, the district will be offering a stipend to participants. (6.7)

Goal 7

Promote parental participation, providing opportunities for parental input in decision making processes.

State and/or Local Priorities addressed by this goal:

State Priorities: 3

Local Priorities: Board Value 6: Parent and Community Involvement, Community Cabinet 2: Mental and Physical Health and Awareness

Annual Measurable Outcomes

Expected

Actual

47
Increase Parent Committee attendance

CJUSD has three district parent advisory committees: African American Parent Advisory Committee (AAPAC), District English Learner Advisory Committee (DELAC), and District Parent Advisory Committee (DPAC). DELAC is a well-established, compliance committee. Both AAPAC and DPAC are new committees which Language Support Services continues to strengthen. Due to the difference in committee ages and the varying number of meeting dates per committee each year, attendance has been provided for each.

Average parent committee attendance for 2017/18:

- AAPAC 18
- DELAC 64
- DPAC 20

31.7%
Parent survey

Parent survey responses fell to 14.9% in 2017/18. The decline in student and parent responses is being reviewed with the intention of reversing the trend in 2018-19.

2 Cohorts
Expand outreach to parent participation by increasing the number of Parent Cohorts.

In 2017/18, the district added its second Parent Cohort.

1813
Increase number of views on social media. (Facebook likes)

Facebook likes for the 2017/18 school year totaled 2,192.

Actions/Services

Duplicate the Actions/Services from the prior year LCAP and complete a copy of the following table for each. Duplicate the table as needed.

Action 1

Planned Actions/Services	Actual Actions/Services	Budgeted Expenditures	Estimated Actual Expenditures
---------------------------------	--------------------------------	------------------------------	--------------------------------------

Maintain community liaison positions (bilingual) to serve as an intermediary to parents and the schools.

Community Liaison positions
Associated benefits costs

The Community Liaisons continue to work to develop a positive working relationship between students, parents, and school personnel which encourages and enhances support for students as well as the district. They help to connect parents to necessary services in the community and serve as outreach to students through home visits and workshops. They conduct home visits, verify residency, provide/deliver resources to families in need, monitor SARB students, translate in due process and expulsion meetings, plan two community resource fairs per year (4/11/18 & 5/23/18), as well as book giveaways during winter and spring breaks.

Action 3

Planned Actions/Services

Actual Actions/Services

Budgeted Expenditures

Estimated Actual Expenditures

Continue parent involvement opportunities through district and site parent meetings such as (D)ELAC, SSC, PTA and booster organizations.

Parent engagement opportunities continue at both the site and district level. Sites offered a variety of workshops including Family Math Festivals, Parent Resource Night, STEAM nights, parent computer classes (10 week series), Parent Project. District level committees include AAPAC, DELAC, and DPAC. Under the direction of our Director of Language Support Services and through the continued work of our Parent Engagement Manager the Parent Leadership cohorts has grown in 2017/18 from one to two.

No additional budgeted expenditures.

No additional budgeted expenditures.

Action 4

Planned Actions/Services

Actual Actions/Services

Budgeted Expenditures

Estimated Actual Expenditures

Continue to provide parent involvement opportunities to parents of students with disabilities through the IEP process.

The Pupil Personnel Services Department continues to invite all parents to attend their student's IEP as required by law. A staff of dedicated personnel work with parents and site teams to establish a time for an IEP to ensure that all necessary team members are able to attend.

No additional budgeted expenditures.

No additional budgeted expenditures.

Action 5

Planned Actions/Services

Actual Actions/Services

Budgeted Expenditures

Estimated Actual Expenditures

Maintain the district communications specialist position to facilitate open communication with parents, through social media, web presence, community events, and at school events.

Communications Specialist position

Communication Specialist continues to provide an active social media presence for CJUSD through Twitter; Facebook; email; etc. She attends as many school events as possible and attends all major district events such as Groundbreaking ceremonies; awards nights; graduations; parent celebrations; community events etc.

All staff are encouraged to share events with the Specialist so that she is able to share events through social media. In 2017/18, the Communications Specialist was the driving force behind the Literacy Festival this past March where more than a thousand people participated in writing workshops, author talks, book giveaways, and character creation.

Books and Supplies (4000)

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

Following the guidelines of the California Parent Engagement framework, Language Support Services has made efforts to build parent capacity and leadership skills. We have designed and presented a series of leadership workshops which has been offered to three different parent cohorts during 2016-2017 and the current school year. The deliberate intention of the series is to facilitate knowledge acquisition regarding our education system and combine those notions with leadership capacity-building topics and activities. The result is empowered parents with the necessary background knowledge plus diverse relevant skills: emotional intelligence, public speaking, resiliency, communication strategies and skills, etc. Parents with the described capacities are parents who are able to support CJUSD in enhancing parent engagement within the education system to a meaningful degree. Our leadership parents support site parent committees and have become messengers of opportunities and resources available to our students and families. These are parents who come to meetings with knowledge and a spirit of collaboration which are instrumental as we, together make decisions which impact the future of our students.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

Language Support continues to collaborate with IT in the development of a system which allows us to correlate parent engagement with student achievement. The district's capacity building efforts include providing parent leaders with enriching experiences such as in-services, which are provided by school district staff, and participation at educational state conferences. This year's culmination of activities included Spanish speaking parents presenting to the Board of Education in English. In 2016/17, the district established its first Parent Cohort. This group of highly involved parents were trained and empowered to model effective interactions with principals, teachers, and peers. During 2017/18, this initial Cohort reached out and connected with their peers, encouraging those wanting to improve relationships with their student's school. This growth in Cohorts reinforces the districts approach to providing parents' resources and tools to effectively participate in their child's education.

School sites continue to have success by providing activities outside the school day allowing for family flexibility. Although these activities vary from site-to-site, they empower parents to provide comments specific to their student's school which are reviewed by School Site Council and the LCAP

Steering committee when evaluating actions and resources.

Affording parents an opportunity to participate in their child's education by providing input is important to the district. In the continued effort to reach parents who are unable to attend activities/meetings at the site or district level, the Communications Specialist continues to grow the district social media presence as verified by the increase in views. Parent volunteers not only helped get the word out, but provided "boots on the ground" assistance with this year's College and Career Fair (3,000+ attendees) and Literacy Festival (1,000+ attendees). CJUSD Family Reading Con: A Community-Wide Effort to Improve Literacy in a Diverse Community received the Golden Achievement Award by the National School Public Relations Association (NSPRA). The Golden Achievement Award recognizes exemplary work in all aspects of school public relations, communication, marketing and engagement.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Additional funding support provided books, materials and supplies, outside services expenditures, as well as covering salary and statutory benefit changes.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

Metrics for Parent Survey Percentages will be re-evaluated and updated. The metric for "Increase Parent Committee attendance" will change slightly to reflect a more accurate portrayal of parent participation. The new metric will separate averages and projected attendance growth numbers are provided. DELAC holds significantly more meetings a year than the other two committees and is long established. This will allow for review and consideration of each committees growth on its own merits.

Goal 8

Support the mental and physical health needs of students.

State and/or Local Priorities addressed by this goal:

State Priorities: 6

Local Priorities: Community Cabinet 2: Mental and Physical Health and Awareness

Annual Measurable Outcomes

Expected

458

Increase participation in district LCAP survey

24

Number of mental health resources available

Actual

Participation in the 2017/18 LCAP Survey increased for a total of 469 respondents. Stakeholders determined that while the increase over 2016/17 responses was significant, the total surveys received did not warrant a change in metrics for 2018/19 or 2019/20.

Available mental health resources during the 2017/18 school was thirteen.

Maintain 100%

The total number of itinerate school nurses will remain at eight

The district maintained all eight school nurses during 2017/18. In order to increase availability of Registered Nurses and to meet the increased student population with health concerns, the district will be adding one additional nurse in 2018/19 .

Maintain minimum of 98%

Health assistants will be maintained at six hours per day.

The increased hours for health assistants continues to provide health services for our students with health needs, which is an increasing population in the district.

Actions/Services

Duplicate the Actions/Services from the prior year LCAP and complete a copy of the following table for each. Duplicate the table as needed.

Action 1

Planned Actions/Services

Continuation of three FTE school nurses to meet the health needs of students.

Continuation of three school nurses. Associated benefits costs

Actual Actions/Services

The district continues to provide these positions in an effort to provide sites with fuller access to a registered nurse. Registered nurses help meet the health needs of students, including preventive and responsive needs.

Budgeted Expenditures

\$255,393
LCFF
Certificated Salaries (1000)
Benefits (3000)

Estimated Actual Expenditures

\$258,892
LCFF
Certificated Salaries (1000)
Benefits (3000)

Action 2

Planned Actions/Services

Maintain district paid health assistant hours at six to provide on-site health support to students.

Increase the total district paid hours for health assistants to six. Associated benefits costs

Actual Actions/Services

The district continues to provide additional Health Assistant hours for increased student access during the school day. Health Assistant positions provide on-site support to nurses and students, as well as coordinate student medical information, medication administration, and assisting with ill/or injured students. The increased hours provide for a health professional during a students' school day. All Health Assistant positions were increased to six hours per day with the exception of two positions. These employees hold more than one position in the district and were unable to work the additional hours.

Budgeted Expenditures

\$537,664

Planned Actions/Services

Maintain the mental health support

Actual Actions/Services

A Behavioral and Mental Health

Budgeted Expenditures

\$139,329

Estimated Actual Expenditures

\$139,370

system for students through the addition of a licensed clinical supervisor position.

The position will be used to oversee internship students within the same field to expand the number of students receiving services. The positions will integrate with the Student Services and Pupil Personnel Services to provide support for students academically, socially, emotionally and mentally.

Manager was hired and was responsible for the training and supervision of a total of 12 Mental Health interns in an effort to provide Mental Health Services to our students and families. As a program they were able to address and service the needs of approximately 203 active cases this school year. The team received several additional referrals which, after the triage process, were referred to outside agencies for more intensive therapy. In addition, several presentations were given to school site staff on mental health in the classroom and suicide prevention strategies. The manager was also involved collaborating with the district Safety staff to revise school site active shooter training. Although several students and families were served this year, there is a need to expand the program in order to increase services in the near future.

Benefits (3000)

Analysis

Complete a copy of the following table for each of the LEA's goals from the prior year LCAP. Duplicate the table as needed. Use actual annual measurable outcome data, including performance data from the LCFF Evaluation Rubrics, as applicable.

Describe the overall implementation of the actions/services to achieve the articulated goal.

School sites continue to have regular access to Registered Nurses in order to meet the health needs of students, including preventative and responsive needs. The increased Health Assistant hours, a uniform six hours per day, continues to provide on-site support to students and staff. All nursing positions were filled and all but two of the sites have six hour Health Assistants. (The incumbents at two sites are unavailable to work the additional hours as they hold more than one position in the district.)

The Mental Health Manager oversaw between 12 and 14 Mental Health interns this year, depending on when they completed their hours. The Mental Health Manager along with the team of interns and district counselors form the basis of support for the tiered triage system designed and implemented in 2016/17.

Describe the overall effectiveness of the actions/services to achieve the articulated goal as measured by the LEA.

The Behavioral and Mental Health Manager expanded the district's services by overseeing twelve Mental Health interns from various colleges in the area, to provide mental health services to students and families. With this program in place, the program was able to service approximately 200 active cases. Additionally, the Mental Health Manager presented several talks to school site staff on mental health in the classroom and suicide prevention strategies. The district recognizes the value of this program and need for growth on this front.

Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures.

Unused funding from 8.2 was used to offset slight increases in actions 8.1 and 8.3. The unanticipated increases to statutory benefits.

Describe any changes made to this goal, expected outcomes, metrics, or actions and services to achieve this goal as a result of this analysis and analysis of the LCFF Evaluation Rubrics, as applicable. Identify where those changes can be found in the LCAP.

In order to better support the mental and physical health of our students, CJUSD will be adding the following actions/services:

Actions and Services added beginning 2018/19:

One new Registered Nurse (8.1)

Psychologist/Speech Therapist stipend/benefits (8.4)

Stakeholder Engagement

LCAP Year: 2018-19

Involvement Process for LCAP and Annual Update

How, when, and with whom did the LEA consult as part of the planning process for this LCAP/Annual Review and Analysis?

With a diverse student population, the district stakeholders include the District English Language Advisory Committee, African American Parent Advisory Committee, District Parent Advisory Committee, as well as the School Site Councils, which are in place at each school site in the district. Under the guidance of our Communications Specialist, the district continues to maintain a Community Cabinet, which acts as an advisory committee comprised of local business owners, community members, parents, emergency services and higher education. This organization has served to help establish the overall direction of the LCAP through its selection of four concentration areas.

Community Cabinet

- Priority 1: Early preparation for school
- Priority 2: Mental and physical health and awareness
- Priority 3: Literacy
- Priority 4: Academic and career readiness

The development of the LCAP was also guided by the Governing Board through the identification of eight values, which were shaped in a consensus building session with the Board and district administration. Those eight values align with the eight state priorities and serve as guiding principles throughout the LCAP development process.

- Board Value 1: Safe and positive environments lead to healthy climates.
- Board Value 2: All students must have the opportunity to learn and be successful.
- Board Value 3: Educators need quality staff development and collaboration for effective teaching.

- Board Value 4: Students need equal access to prepare for college and career pathways.
- Board Value 5: Staff must be caring, helpful, and qualified to encourage students.
- Board Value 6: Parent and community involvement is needed and important to the development of our students.
- Board Value 7: All students must have access to quality programs.
- Board Value 8: All students must have quality resources to excel.

The district maintains a Steering Committee that works collaboratively on identifying and reviewing actions and services that support students. The steering committee is comprised of certificated staff, including elementary and secondary teachers, special education teachers and counselors, certificated union representatives, classified staff, classified union representatives, the foster youth district liaison, principals (both elementary and secondary), district administrators, and parents representing English Learner and socio-economically disadvantaged students. Although attendance was inconsistent, foster youth parents were consistently invited to be part of the process. Parents on the Steering committee were envoys of the African American Parent Advisory Committee (AAPAC), District Parent Advisory Committee (DPAC), and/or District English Learner Advisory Committee (DELAC) in which many of our stakeholders participate.

The district continues to funnel information back to parents and requests feedback, at the site level, through regular ELAC and SSC meetings where both English learner and low-income parents are heavily represented. The work of the committee was shared regularly with the Board of Education during public board meetings, including the progress made on the 2017/18 LCAP and state dashboard, as well as plans for the upcoming year.

In our continued effort to engage a broader sampling of stakeholders in the LCAP development process, the district once again relied on a survey to gauge implementation of the 2017/18 LCAP actions and services which fueled discussions by the Steering Committee regarding changes for 2018/19. The survey opened January 26 and continue through March 1. Invitations to participate were sent to students and CJUSD staff via email. Blackboard messages went out to parents/guardians, as well as on social media. The importance of participating was reinforced during district parent meetings and by site principals during parent and staff meetings. Responses from parents and students reinforced the LCAP Goals, the progress towards them and areas of concern. Parents and students who responded to the survey identified as 59.72% low income, 39.86% English learners, and 7.63% foster youth.

Survey participation increased this year by 50 responses for 469. Stakeholders identified as Teachers (49.3%), Students (20.2%), Parents (14.9%), Administrators (3.4%), School Site Support Staff (11.9%), and Community Members (0.9%). While teacher responses showed a marked increase, student, parent, and community responses revealed a drop in participation. The decline in student and parent responses is being reviewed with the intention of reversing the trend in 2018-19.

After the initial Steering Committee meeting in November, the committee met on a monthly basis from December through April to discuss the effectiveness of the 2017/18 actions and services and consider possible changes for 2018/19. The dates were 11/16/2017, 12/7, 01/18/2018, 02/15, 3/15, and 4/26. A smaller sub-committee was established from the committee to develop the specific actions and services in the plan following the open discussions of the steering committee about our focus to improve services to students. The sub-committee met on 2/1 and 3/1. The committee's recommendations were upheld by the Steering Committee on 3/15 making the 4/5 Writing Committee meeting unnecessary. The sub-committee was comprised of volunteers from the larger Steering Committee including elementary and secondary teachers, certificated union representatives, site and district administrators, classified staff and a parent.

On April 18, 2018, the district presented the DAC/DELAC group with information about the LCAP including our progress, the services, technology and personnel added in prior years, and the proposed plan for the upcoming school year. The response from members was positive both for progress made on current actions and services that target English learners, as well as those services available school/district-wide. They feel supported by the district

The district continues to support our Parent Engagement Manager who continues to work toward a robust workshop program at the district level. These district-wide parent workshops augment site offerings for parent involvement and understanding of the educational process. This position continues to be instrumental in growing our district parent programs, as well as establishing a second cohort of parent leaders who work toward increasing parent engagement at the site level. An LCAP presentation was given by the district at the combination parent meeting on May 22, which included AAPAC, DPAC, and ELAC. Parents were supportive of the actions and services and appreciative of the district's efforts to seek their input.

During an Executive Cabinet Retreat on May 29, district administrators developed an aligned coherence approach to LCAP implementation. Divisions district-wide participated from Business to the Superintendent's office. This approach brings together the eight state priorities, Board values, Community Cabinet Priorities, and Future Ready all of which are incorporated into the LCAP through the development of the goals, actions and services.

The district continues to utilize social media to communicate information about the LCAP to the public. Through the district website, a copy of the approved plan is available for viewing, as well as general information about the development of an LCAP. In addition, the district utilized a company to develop an infographic, which is a pictorial representation of the plan, to communicate with parents. The publication is available in English and Spanish

and advertised through Facebook and Twitter.

The LCAP was presented for public hearing on June 7, 2018 and the LCAP approved by the Board of Education on June 21.

Impact on LCAP and Annual Update

How did these consultations impact the LCAP for the upcoming year?

After a review of dashboard data, stakeholder survey data, Community Cabinet input and consultation with the Board and parent groups, the LCAP Steering and Writing Committees have recommended the district maintain the current LCAP goals into 2018/19. Additional recommendations to improve and/or increase services, details below, for students during the 2018-19 school year were incorporated into the 2018/19 document.

To fortify the elementary counseling program, six additional elementary counselors will be hired to allow each elementary school to have a full time counselor. This will help address concerns about school bullying and support the continued implementation of the Positive Behavior Intervention and Support program.

Special education students need additional supports in many areas to be successful. To that end, we are hiring an additional special education teacher for two middle schools to provide an equity of services for our mild/moderate students. Currently, two middle schools have only one Special Day Class teacher who teaches a variety of subjects in both 7th and 8th grade. This has an adverse effect on student performance and needs to be mitigated. To address the increasing health needs of our students an additional nurse will be hired as well. To improve the recruitment and retention of school psychologists and speech pathologists to serve our special education population, a stipend has been negotiated for each job classification.

Stakeholders also recommended supporting our elementary fine arts programs. An additional elementary band teacher will be hired and money will be distributed throughout the district to provide music equipment and instruments for any student who wants to participate.

Continued support for the implementation of the Common Core standards requires funds to be allocated for instructional materials for science and social studies. These materials will supplement the district's base program.

The district is also facilitating a new employee orientation for both classified and certificate employees and will allocate additional funds to provide professional development opportunities for classified staff. We will also be piloting an on-line professional development opportunity focusing on project

based learning with teacher driven input and ideas.

Goals, Actions, & Services

Strategic Planning Details and Accountability

Complete a copy of the following table for each of the LEA's goals. Duplicate the table as needed.

(Select from New Goal, Modified Goal, or Unchanged Goal)

Modified

Goal 1

Increase the percentage of students who graduate and are prepared for college and/or a career.

State and/or Local Priorities addressed by this goal:

State Priorities: 4, 5, 7

Local Priorities: Board Value 2: Student Opportunities, Board Value 4: Equal Access, Community Cabinet 3: Literacy, Community Cabinet 4: Academic and Career Readiness

Identified Need:

Stakeholders identified the needs below after consideration of Dashboard information and stakeholder input. Due to subgroup status for graduation

rates and the high percentage of pupils “not prepared” on the Career and College Indicator.

- Increase/maintain graduation rates
- Increasing the percentage of pupils who complete a career pathway
- Increasing the percentage of pupils who complete UC/CSU compliant coursework
- Access to a comprehensive course of study

Expected Annual Measureable Outcomes

Metrics/Indicators	Baseline	2017-18	2018-19	2019-20
Graduation rate	Medium, Green, 87.9%	90%	Maintain 90%	Maintain 90%
Advanced Placement examinations with a pass rate of 3+	37%	38%	39%	40%
Percentage of pupils completing UC/CSU a-g requirements.	30.10%	31%	33%	35%

<p>Share of pupils determined prepared for college by the Early Assessment Program</p>	<p>English-Language Arts: 46% Math: 16%</p>	<p>English-Language Arts: 47% Math: 18%</p>	<p>English-Language Arts: 48% Math: 20%</p>	<p>English-Language Arts: 49% Math: 22%</p>
<p>College and Career Ready Indicator</p>	<p>16.1%</p>	<p>18.1%</p>	<p>20.1%</p>	<p>22.1%</p>
<p>Percentage of Senior who have completed a career Pathway.</p>	<p>N/A</p>	<p>N/A</p>	<p>N/A</p>	<p>N/A</p>
<p>Students have access to a comprehensive course of study as measured by the percentage of LCAP survey responses who Agree or Strongly Agree.</p>	<p>N/A</p>	<p>62.9% of survey respondents feel students have access to a comprehensive course of study.</p>	<p>80% of survey respondents feel students have access to a comprehensive course of study.</p>	<p>100% of survey respondents feel students have access to a comprehensive course of study.</p>

Goal 2

Increase the percentage of English language learner students who achieve English proficiency and are reclassified.

State and/or Local Priorities addressed by this goal:

State Priorities: 4

Local Priorities: Board Value2: Student Opportunities, Community Cabinet 3: Literacy

Identified Need:

Through the stakeholder process and Dashboard review it was felt continued support of the English learner population was necessary to increase and maintain student progress towards increasing academic proficiency, parent engagement and Career/College Indicator.

- Increase the percentage of English Learner students progressing towards English proficiency to meet or exceed the county percentage rate for these same students.
- Meet or exceed the state and/or county percentage of English learner students meeting reclassification criteria.

Expected Annual Measureable Outcomes

Metrics/Indicators	Baseline	2017-18	2018-19	2019-20
--------------------	----------	---------	---------	---------

Percentage of English learners who have made progress toward English proficiency	Medium, Yellow, 67.3%	68.3%	69.3%	70.3%
English learner reclassification rate	16%	16.5%	17%	17.5%
Academic Performance Index Score	N/A	Suspended	Suspended	Suspended

Goal 3

Increase the reading proficiency and English Language Arts/Math competency of all students.

State and/or Local Priorities addressed by this goal:

State Priorities: 4, 7, 8

Local Priorities: Board Value 2: Student Opportunity, Community Cabinet 3: Literacy

Identified Need:

Stakeholders expressed concerns for a strong foundation in both ELA and math. Dashboard data shows student performance in ELA declining and math only beginning to rise, stakeholders determined to continue working to increase academic performance.

- Increase the percentage of elementary students achieving reading proficiency by the end of the third grade.
- Increase the percentage of students achieving at or above proficiency level in ELA and math as measured by performance on CAASPP, grades 3-8.

Expected Annual Measureable Outcomes

Metrics/Indicators	Baseline	2017-18	2018-19	2019-20
--------------------	----------	---------	---------	---------

<p>ELA performance on CAASPP: grades 3-8</p>	<p>34.5% Percent of students scoring basic or higher</p>	<p>Percentage of students meeting or exceeding standards: 37%</p>	<p>Percentage of students meeting or exceeding standards: 39%</p>	<p>Percentage of students meeting or exceeding standards: 41%</p>

Goal 4

Increase student engagement and improve school climate.

State and/or Local Priorities addressed by this goal:

State Priorities: 5, 6

Local Priorities: Board Value 2: Student Opportunities, Community Cabinet 2: Mental and Physical Health and Awareness

Identified Need:

Stakeholder survey results strongly supported continuing efforts to increase student engagement and reduce absenteeism by:

- Increasing/maintain a positive attendance rate, at all comprehensive sites.
- Maintain the district-wide graduation (comprehensive sites).
- Decrease the district-wide adjusted drop-out rate.
- Reduce the district-wide suspension and expulsion rates.

Expected Annual Measureable Outcomes

Metrics/Indicators	Baseline	2017-18	2018-19	2019-20
--------------------	----------	---------	---------	---------

School attendance rates	Comprehensive sites will maintain an average of 96% positive attendance.	96.5%	97%	Maintain 97%
High school graduation rates	Medium, Green, 87.9%	90%	Maintain 90%	Maintain 90%
Pupil suspension rates	Medium, Green, 87.9% (<3.5%)	<3.0%	<2.5%	Maintain <2.5%
Pupil expulsion rates	<.1%	<0.075%	<0.05%	Maintain <0.05%
Chronic absenteeism	N/A	The district-wide goal for Chronic Absenteeism is at or below 11% of the school population.	Maintained the district-wide goal for Chronic Absenteeism is at or below 11% of the school population.	Maintained the district-wide goal for Chronic Absenteeism is at or below 11% of the school population.
District-wide drop-out rate	<3%	<ul style="list-style-type: none"> • High School Maintain <3% • Middle School Maintain 0% 	<ul style="list-style-type: none"> • High School Maintain <3% • Middle School Maintain 0% 	<ul style="list-style-type: none"> • High School Maintain <3% • Middle School Maintain 0%

Goal 5

Ensure students have access to quality resources, teachers, and facilities.

State and/or Local Priorities addressed by this goal:

State Priorities: 1

Local Priorities: Board Value 1: Safe and Positive Environments, Board Value 8: Quality Resources

Identified Need:

The district will continue to adhere to its established internal purchasing procedures to ensure that all students have access to standards aligned instructional materials, including textbooks, supplementary materials and supplies. (Education Code § 60119)

The district will continue to practice pre-employment screening and credentialing reviews to ensure staff is properly credentialed in the subject area assigned, including possession of the appropriate authorization to provide instruction to English learner students. (Education Code § 44258.9)

The district will continue to support the maintenance and upkeep of school facility buildings and grounds. (Education Code § 17002(d))

Expected Annual Measureable Outcomes

Goal 6

Implement all academic content and state adopted performance standards.

State and/or Local Priorities addressed by this goal:

State Priorities: 2, 4

Local Priorities: Board Value 3: Quality Staff Development

Identified Need:

Dashboard data review reinforces the stakeholders desire for continuing to support teachers on the state standards. This supports the district's continued effort to offer students a quality and equitable education.

- The district will provide staff development to teachers on implementing state frameworks in their classroom and conduct periodic assessments of student mastery of the standards.

In an effort to reduce the amount of time teachers are out of the classroom for staff development, provide elementary teachers an opportunity to participate in online, project driven staff development. The District will pilot an online professional development opportunity during 2018/19. As it's anticipated that many of the assignments will be outside the establish workday, a stipend will be provided for participants.

Goal 7

Promote parental participation, providing opportunities for parental input in decision making processes.

State and/or Local Priorities addressed by this goal:

State Priorities: 3

Local Priorities: Board Value 6: Parent and Community Involvement, Community Cabinet 2: Mental and Physical Health and Awareness

Identified Need:

Through the PBIS family survey and district survey results, parents have reinforced their desire to be involved in their students' education.

- The district will support parents' efforts to be involved in their child's education by providing support and opportunities for involvement.

Expected Annual Measureable Outcomes

Goal 8

Support the mental and physical health needs of students.

State and/or Local Priorities addressed by this goal:

State Priorities: 6

Local Priorities: Community Cabinet 2: Mental and Physical Health and Awareness

Identified Need:

With the district's large number of socio-economically disadvantaged pupils, as well as increased numbers of students with significant health concerns, there is a continued need to expand physical and mental health services for our students.

- The district will support the health needs of students by providing staff to assist students with medical and mental health issues.

Expected Annual Measureable Outcomes

Demonstration of Increased or Improved Services for Unduplicated Pupils

LCAP Year: 2017-18

Estimated Supplemental and Concentration Grant Funds

Percentage to Increase or Improve Services

\$48,819,910

28.69%

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds.

The percentage by which services for unduplicated students must be increased or improved as compared to the services provided to all pupils in the LCAP year is calculated at 28.69%. Consistent with the requirements of 5 CCR 15496, the actions and services provided in the LCAP year demonstrate increased and improved services for the unduplicated pupils. Services implemented for the targeted students are being made available to all students based on the percentage of unduplicated students represented in our district.

Actions and services designated above include extensive efforts to increase student achievement and career education, particularly within our low income and English learner populations. At the high school level, providing interventions in math and English offers targeted support for students below grade level through the use of teachers on assignment, encouraging passage of math and English courses on the first attempt. Extensive data analysis conducted on the academic performance of English learner students has shown that those enrolled in career education courses are outperforming their English-only peers on report card grades and assessments. The same increased academic performance is seen with students

with disabilities as well. The support for students in career education courses will be continued including the partnership with ROP, the expansion of Linked Learning programs and courses and the continued work to develop articulation agreements with surrounding colleges. Currently 31 courses are articulated to community colleges where students can continue to pursue that course of study towards completion of a degree or certificate and be prepared for a career. The CTE courses also serve as a benefit to students pursuing post-secondary school acceptance. Thirty-two of the CTE courses are approved under “g” – college prep elective and one is approved under “f” visual and performing arts as a UC/CSU “a-g” acceptance requirement.

With a population of 23.4% English learner students, the need to provide bilingual staff at school sites to promote parental involvement is essential. Through the classified bargaining agreement, classified employees who have shown proficiency in a second language are eligible to receive a monthly stipend to provide translation services for parents. Increasing the stipend paid to eligible unit members will increase the pool of staff available to assist parents and open the lines of communication between the home and school.

Increasing access and familiarity with technology is expanding through the addition of more devices and instruction in the usage of the devices to support student learning. Across the district, additional devices will be purchased for each school site to establish equitable access for students. Students have access to additional educational opportunities with the integration of technology into the classroom through virtual field trips and multi-media guest speakers, thereby expanding instructional opportunities outside of the classroom, which is particularly beneficial to low-income students. The learning environment is expanded to connect to the home through the addition of learning management systems such as Haiku and Nearpod.

Efforts to remove barriers to students' success in the classroom continue under the implementation of the PBIS frameworks. The frameworks, which started implementation in 2014, expand to encompass all facets of a student's education, from the school office, to the playground, to the classroom. PBIS frameworks create a stable and predictable learning environment which is particularly beneficial to students of poverty and foster youth who oftentimes have an unpredictable home environment, including high mobility and a lack of structure. The implementation of the PBIS framework provides dedicated and coordinated behavior support which results in additional behavior tracking and coordination at each site. Each secondary site will select a certificated staff member to assist in the tracking and coordination for their site and will be provided a stipend (subject to negotiations) to support the operations of the PBIS frameworks. Increasing parent involvement starts with open communication. In an effort to build parent engagement, particularly with our non-English speaking parents, employees will be offered an additional stipend to provide translation services. School front offices prioritize staffing to include bilingual employees who can assist parents. Community meetings, board meetings and Community Cabinet meetings engage non-English speaking parents by providing translation services. In 2015-16, the district also created a position, Family Involvement Manager, funded through Title I to develop and maintain a parent involvement program. The position will provide trainings to school sites to encourage parent participation as well as serving as a resource to parents.

The district has a population of 82.5% students designated as low-income, 23.4% designated as English learner and 0.72% as foster youth resulting in a population of 82.63% of unduplicated pupils. The actions and services are designed to target those unduplicated pupils, although most are made available to all students based on the high percentage of unduplicated pupils district-wide. The proportionality percentage of 28.69% is met by providing targeted services to the unduplicated pupil population, which supplement the programs available to all students in the district, including the PBIS frameworks, the English learner support, career education, and increasing avenues of parent involvement.

LCAP Year: 2018-19

Estimated Supplemental and Concentration Grant Funds

Percentage to Increase or Improve Services

\$54,941,903

31.08%

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds.

Although available throughout the district, the actions and services that comprise the Supplemental and Concentration grant funds were influenced and are designed to target the needs of the unduplicated students.

Ongoing actions and services include extensive efforts to increase student achievement and career education, particularly within our low income and English learner populations. The high school teachers on assignment continue to provide students below grade level interventions in math (1.8) and English (1.5).The English learner counselors (2.3), also at the high school level, continue to support English learners by following progress made toward English proficiency, providing prompt intervention as needed, as well as guidance for reclassified students. READ180 (1.19 formerly 2.4) continues to provide students a means to improve in English. Extensive data analysis conducted on the academic performance of English learner students continues to show that those enrolled in career education courses are out performing their English-only peers on report card grades and assessments. Having taken the Future Ready Pledge in 2015, CJUSD continues towards providing students skills for the 21st century. The Linked Learning CPS continues to grow the pathway programs classes which increase program availability to our low income and English learner students.

Although summer school was initially offered for remediation, students now have the opportunity to free up their schedules by taking summer courses. This enables them to participate more fully in pathway programs. Support for students in career education courses continues including the partnership with ROP and the expansion of Linked Learning programs and courses. Currently 31 courses are articulated to community colleges where students can continue to pursue that course of study towards completion of a degree or certificate and be prepared for a career. CTE courses also serve as a benefit to students pursuing post-secondary school acceptance. Forty CTE courses are approved under “g” – college prep elective and one is approved under “f” visual and performing arts as a UC/CSU “a-g” acceptance requirement. Through the county’s Workforce Development Department and San Bernardino Valley College, students will be offered an opportunity to earn college credit and an internship position once classes are completed.

Services principally directed towards our English learner students include:

- 2.1 Maintaining the Language Assessment Center which place incoming and continuing students in the appropriate learning environment and the Language Support Services who maintains equity of English learner programs district-wide;
- 2.2 Communicating with English learner parents in their native language;
- 2.3 Counselors who provide oversight and support;
- 2.8 & 6.3 CPS’ provide high-quality professional development;
- 2.9 On-going monitoring and identifying intervention needs is maintained by the EL site leads;
- 2.10 Additional intervention for high school students;
- 2.11 Materials to enhance learning;

The need to provide bilingual staff at school sites (2.12) to connect with our English learners and promote parental involvement is essential with an English learner student population of 22.26%. Increasing parent involvement starts with open communication. In an effort to build parent involvement, particularly with our non-English speaking parents. Classified employees who have shown proficiency in a second language are eligible to receive a monthly stipend to provide translation services for parents. The increased stipend paid to these unit members will maintain and increase the pool of staff available to assist parents and open the lines of communication between home and school. School front offices prioritize staffing to include bilingual employees who can assist parents. Parent committees, Community meetings, board meetings and Community Cabinet meetings engage non-English speaking parents by providing translation services.

Other actions and services principally directed at our unduplicated pupils include:

- 1.19 READ 180;
- 3.1 Lexia as an intensive reading intervention program;

Site funding (5.6) is allocated to each school so they can target resources to their unique student needs. The bilingual Community Liaisons (7.1) provide a bridge between English learner, foster youth, and socioeconomically disadvantaged students and district/community resources.

Having achieved equity of student electronic devices across the district and effectively establishing a student to device ratio of 1:1, a replacement program for obsolete and damaged devices will be implemented. This will ensure student devices are able to sustain changes in technology and its increasingly integrated curricula and library materials. Use of technology in the classroom continues with updates in curriculum, virtual field trips, multi-media guest speakers, and library materials. Digital Equity, a component of the Future Ready Initiative, works towards removing barriers to the learning environment. Towards that end, the district will pilot a Chromebook take-home program in 2018/19. This program will take place at Birney and Crestmore elementary schools, selected for their high percentage of unduplicated students, and will feature internet “hotspots” allowing for access to instructional and library materials when away from campus.

District priorities and expenditures for 2018/19 identified by our stakeholders include:

- One elementary band teacher
- Elementary VAPA funding
- Two middle school special education teachers
- Six elementary counselors
- PSAT type testing for grade 8
- Retention stipends for Psychologists and Speech Therapists
- One school nurse
- Certificated online staff development
- Supplementary materials for social studies and science
- Classified staff development
- New employee orientation

The 2018/19 Demonstration of Increased or Improved Services for the Unduplicated Pupils (DIISUP) percentage is 31.08% which represents an increase in LCFF Supplemental and Concentration funds of \$6,121,993. Proportionality is met by providing targeted services to the unduplicated pupil populations while supplementing the programs available to all our students (5 CCR 15496) including PBIS frameworks, English learner support, career education, and increasing avenues of parent involvement. Funding remaining at the end of the fiscal year will be used to off-set transportation encroachment, class size reduction, dual immersion program, Language Support Services (department support), campus safety, and maintenance’s

mobile response team.
