|--|---|

**LCAP Action Detailed Summary:**

**Athletics**

In 2016-17 we look to continue to build and implement our district wide building blocks towards athletic success. We have made great strides increasing the number of opportunities with our MULES (Madera Unified League of Elementary Schools) athletic programs as well as adding additional boys and girls soccer teams at each middle school. This upcoming school year we look to ramp up our competitive levels in some of our Elementary Programs providing a more competitive environment. We are also exploring the possibilities of adding 'B' teams at some of our Elementary sites so more students have the opportunity to participate as we try to eliminate cutting students from teams. Staff hopes to provide District Championships similar to wrestling and track where we are acknowledging outstanding performances of our student athletes with organized and well run tournaments. Staff would like to utilize our High School coaches expertise by allowing them to provide Professional Development to our MULES coaches in many of our sports as we create an articulation process so our students can compete in comprehensive 3rd - 12th athletic programs.

Athletic improvement projects and additions. We have added a boys and girls soccer team at each Middle School as well as Elementary Track and Field this past year. Next year we look to put in a long jump pit at each of our 17 Elementary Schools as well as resurface the tennis courts at both of our High School Sites. We are also adding a new Maintenance Building at Madera South which will include a large weight room for athletics as well as Physical Education.

**Madera Unified Athletic Offerings:**
