## Honor Rolls

Student honor roll is based upon the student's numerical average. Grades for students in Honors or Advanced Placement Courses are weighted five points for Honor Roll computation purposes.

Dean's List - 89.50 or higher average (No grade below 85)

Honor Roll - 85.00 or higher average (No grade below 80)

## Dual Enrollment

Students may receive both high school and community college credit while enrolled in high school courses that are approved to offer dual enrollment credit. All courses are taught by PUHSD teachers who are community college certified. Some dual enrolled courses require that students take and pass a community college ACCUPLACER test prior to enrolling.

## Phoenix Union High School District

**Mission:** Preparing every student for success in college, career and life.

Phoenix Union High School District is one of the largest high school districts in the country, with 16 schools, over 27,000 students, and nearly 3,000 employees. Phoenix Union covers 220-square miles of Arizona's capital city. If the K-8 students in its 13 elementary partner schools were included, it would be among the 25 largest school districts in the United States, with over 110,000 students.

Academically, there are over 500 courses to choose from. Rigor continues to be the emphasis, as the District offers more Honors, AP and other high level courses than ever before, and student enrollment in those classes is the highest ever. Students are earning college credit and accelerating their academics through community college dual enrollment, and "Move On When Ready," an initiative that can earn students the Grand Canyon Diploma early, and move on to college. Diversity is a hallmark at The Phoenix Union--94% of its students are minority, including 80% Latino, and the students, including a large refugee population, represent over 60 languages. More than half of the students come from a home where English is not the primary language.

Instructional technology is one area where Phoenix Union sets itself apart from most districts. With significant funding from a supportive community and a commitment to the future, the district is leading the way in Arizona bringing technology into the classrooms and into the hands of its' teachers and students. Technology is changing the way teachers teach and students learn.
