**How does this  
Benefit ME?**

Potential \$\$ savings for credits at UCONN, or transfer to another college, subject to their review

Your college application is enhanced by an AP or ECE course!  
You may list them as *college courses* on your CommonApp **ONLY** if you enroll as an ECE student!

## Compare the costs and evaluate the benefits!

UConn tuition for one semester is approximately:

**\$10,000!**

1 semester = 15-18 credits

ECE credits awarded for  
a final grade of C or better  
\*as calculated by UCONN standards

3 credits cost \$145\*\*

4 credits cost \$180\*\*

\*\* includes \$20 program fee

**versus**

AP credits are *different*  
for each college  
and are *generally* awarded  
for scores of 4 or 5 only,  
based on the AP exam

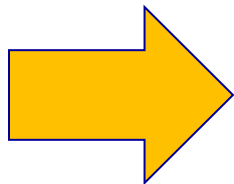

Test cost: \$91

**Why might you take an ECE course if you are already enrolled in an AP course  
and must take the AP exam?**

**If you are not a strong test taker and are a stronger classroom performer,  
the ECE class may be a better option. *Ask your teacher or counselor!***
