

MATH

Grade Eight - CP Algebra IA – Unit 3

Essential Understandings

- Linear equations and inequalities in one variable, including literal equations
- Equations and inequalities in one variable
- Equations and inequalities in one variable to solve problems.
- Each step in solving an equation/inequality
- The solution method in linear equations/inequalities and literal equations
- A formula to isolate a designated variable.

Vocabulary

Solution
Equation
Equivalent equations
Inverse operations
Identity
No solution
Proportion
Cross product
Literal equation
Consecutive integers
Uniform motion
Absolute value
Inequality
Equivalent inequalities
Properties from Unit 2
