HEXAGON SPIN & FILL

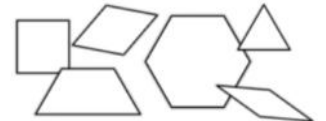

MATERIALS NEEDED

recording sheet

spinner

pattern blocks

DIRECTIONS

1. Player 1 spins the spinner and takes the pattern blocks to represent the fraction spun. They place the block or blocks on the first hexagon on the record sheet.
2. If they can, Player 1 trades pieces so they always have the fewest pattern blocks possible.
3. Players take turns and play continues until they fill up all 3 hexagons on their entire record sheet. They should always try to trade to have the fewest pattern blocks. Players should also fill the first hexagon before moving to the 2nd and then fill the 2nd before moving to the 3rd.
4. The player who fills the entire record sheet first wins.
