Knowledge Development Over the Year

See below the chart for color explanations.

This is in no way an exhaustive tracing of all the connections between units. For one, units may connect to several other units but are shaded with only a dominant color. This document serves to position every domain or unit within a knowledge-building progression rather than to illustrate all possible pathways.

In Grades 3–5 CKLA is organized around integrated units of instruction. Many units have a single key literary or informational text, while others offer a collection of key texts connected by a domain or genre. These continue to build knowledge and skills from the K–2 curriculum, with integrated instruction. *from 3-5 Program Guide*
 Note: Unit 11, Ecology, was eliminated for this school year to ensure time for learning acceleration.
