Research Tools

NoodleTools- GHS provides a NoodleTools account for you. There are several ways to sign up. If you have an account already, log in.

http://www.noodletools.com/   OR

http://library.griswold.k12.ct.us/ Choose Griswold High School/SHU from there choose the NoodleTools link

When prompted, choose the "account linked to a school/library…"

See the librarian or your teacher for password information.

When creating your password, **it is highly recommended that you use your normal computer log in and password**. If you forget your password, see the librarian.

Find the "Create a New Project" tab in the upper right hand corner. Click that tab, and begin filling in the appropriate information. In most instances, MLA format will be the choice.
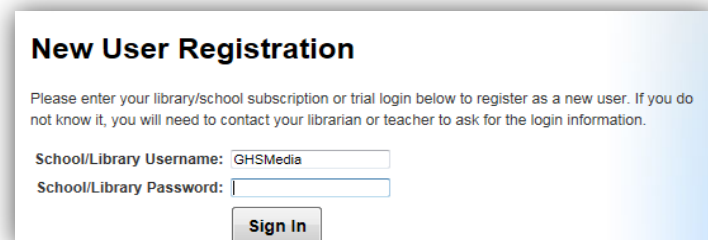

Ask if there are questions. This site can be accessed from home or school.

Easybib – Bibliography Generator - This app can be used to help with creating citations and Works Cited pages. There are multiple features which will make citing more accurate and easier.
