# THE CALIFORNIA ALLIANCE & SPECIAL EDUCATION

***Helping support schools with educational and behavioral health options for students with exceptional needs***

California Alliance member agencies support educators in creating learning environments that promote students' academic success so that students with special needs can learn and thrive in California schools.

Not only do Alliance member agencies provide non-public school programs for residential and day students whose needs cannot be met on a public school campus and who require small, highly specialized educational settings, they also offer school-based behavioral health services customized for individual schools to help realize the vision of multi-tiered systems of support.

California Alliance member agencies exist to help the students you serve gain the academic and interpersonal skills they need to succeed on a public school campus or to successfully return to a public school campus from a nonpublic school. They are focused on providing high-quality instruction and behavioral health interventions matched to each student's needs.

The Alliance can connect you to vetted, accredited nonprofit organizations providing nonpublic schools and school-based behavioral health services: in-state solutions that can save you time and provide high quality special education and behavioral health services to California's students.

Turn to the California Alliance and our member agencies for:

- Accredited nonprofit nonpublic schools for day and residential students.
- High quality behavioral health services and supports for students on campus, in the classroom and in the community.
- Information on the school-related needs of foster youth.
- Knowledge of the wide range of behavioral health services available for students in California.
- Assistance with Local Control Accountability Plans (LCAPs).

Finding accredited, evidence-driven programs and services for students – right here in California – doesn't have to be a guessing game. Turn to the California Alliance and our member agencies for vetted, high-caliber support. Call us at 916/449-2273, ext. 206 to get connected.

California Alliance

Empowering lives. Enriching futures.

# ABOUT THE ALLIANCE

## Who We Are

The California Alliance of Child and Family Services is a **statewide association** of over 130 private, accredited, non-profit child and family agencies committed to providing the highest quality human services in the most effective and caring manner possible.

Formed Jan. 1, 2000, through the merger of the California Association of Services for Children and the California Association of Children's Homes, the Alliance and its parent associations have a combined history of more than 60 years of advocacy on behalf of Californian's most vulnerable children and families, and the organizations that serve them.

## What We Do

The California Alliance of Child and Family Services provides budgetary, legislative and regulatory **advocacy** influencing a wide range of key policy issues on behalf of our member agencies and the children and families they serve. Committed to improving outcomes for children in the public human services systems, the Alliance also provides members with a wide range of practice improvement tools and opportunities.

## About Our Members

The California Alliance is composed of a **diverse** group of member organizations located throughout California providing a wide range of services and support to tens of thousands of children and their families each year.

All members share a **commitment** to **excellence** and continuously strive to improve the quality of care and services they provide to high-risk children and families. As an indication of that commitment, all member agencies must meet rigorous **national accreditation** standards.

Member agencies participate in the Alliance's **practice improvement** initiatives including provision of evidence-based practices, utilization of common elements with demonstrated efficacy, development of practice-based evidence, and national and state benchmarking.

- Adoptions
- Foster family-based care and treatment
- Day treatment and specialty mental health services

Through our partnership with Alameda County Behavioral Health and the Alameda and Oakland Unified School Districts, we provide school based services to children and youth grades K-8. We provide prevention services and early intervention mental health treatment services in selected school sites as determined by Alameda County Behavioral Health.

Prevention services include trainings for school personnel and parents and student group workshops. Early intervention services include assessments, skill based groups and classroom consultation. In collaboration with the school team and the family, clinicians determined the level need and design treatment services to meet these. This includes group therapy, individual rehab services, individual therapy and intensive case coordination services as needed.

A Better Way partners with Solano County Behavioral Health and the school districts in Solano County to provide school based services to children and youth grades K-12. We provide prevention services and early intervention mental health treatment services in selected school sites across Solano County as determined by school districts. Prevention services include trainings for school personnel and parents and student group workshops. Early intervention services include assessments, classroom consultation, and brief mental health treatment, 3-5 months. All referred students are assessed to determine appropriate level of care and if the student requires a higher level of care, we work with the family in order to ensure appropriate services are obtained.

Founded in 1975, Aspiranet is dedicated to offering outstanding services that impact more than 35,000 children, youth and parents annually at 33 community-based sites statewide. Our Vision: We envision a world in which all children and youth are loved and cared for and families have the resources to thrive.

Aspiranet Residential Services (ARS) has operated in the Central Valley of California since 1987 serving thousands of youth from across California. ARS serves 52 boys and young adults in its Short-term Residential Therapeutic Program. Stanislaus Academy and Fusion Charter are certified by the California Department of Education.

Boys Republic's primary purpose is to collaborate effectively with its partners in the education and juvenile justice system to create the opportunity and environment for change such that the youth in our care return to their families and the community as positive and productive citizens. The overall goal of the Boys Republic residential program it to provide a 24-hour residential therapeutic milieu aimed at treating diagnosed emotional, behavioral, psychological and educational problems of adolescents, and at orienting these youths toward their attachments to conventional institutions within society.

Casa Pacifica Centers for Children and Families provides a safe, relationship-based, therapeutic and academically enriching environment with a focus on personalized academic interventions that fill gaps in critical academic areas. In addition to clinical services, Casa Pacifica uses Collaborative Problem Solving©, Life Space Crisis Intervention (LSCI)©, and SAFE Environments© to build relationships and help children reach their goals. We use evidence based practices to teach skills and equip students with self-confidence, build positive character traits, and provide problem solving strategies so that the student can successfully transition to a less restrictive setting as quickly as appropriate.

Chamberlain's Youth Services provides residential treatment for children who have been victims of child abuse. Chamberlain's currently operates three family-style homes serving not more than six children per home, up to 18 children. The Division of Community Care Licensing of the California State Department of Social Services licenses the Residential Treatment Program. Behavioral health services are provided on-site by Chamberlain's clinical team. We are able to supervise visits between our residents and their family members when court stipulates that their visits must be supervised.

Chamberlain's Youth Services operates a two-classroom non-public school known as Keith Thompson Non-Public School. Certified by the State Department of Education, the school provides highly specialized, developmentally appropriate education for the children of the Residential Treatment Program.

Charis Youth Center provides residential, mental health, educational and vocational services to Severely Emotionally Disturbed adolescent boys and girls, ages 13-21. This special-needs population includes adolescents and their families and adolescents in transition to home or independence. Our programs provide individualized services emphasizing mental health, physical health, competence and relationships.

We ensure that our students have a broad range of experience within the community. We believe that with individual planning with goals of permanency or transition planning our youth can return home or set out on their own as young adults. Our focus is to help students have the confidence and skills to function independently. As a team, we believe that we can and we will make a positive difference in our community and the lives of those we are committed to serve. Our work will be performed in such a way that each of our students will be able to give of themselves to contribute to their community because they know that others value them. Students will be able to give and receive with Grace which is the meaning of Charis.

Children's Home of Stockton offers residential and educational services for youth with emotional and behavioral issues, many of whom have a history of significant trauma. The Education Program offers placement in a state-certified Non-Public School for students with special education needs, as well as One-Vision Program, an on-site alternative education program operated by the San Joaquin County Office of Education. The Residential Program provides comprehensive mental health services and social skills to a total of 52 students in seven "cottages," where they participate in individual, group and family counseling, as well as a variety of recreational activities.

Sprouts Preschool provides a warm and playful atmosphere with a variety of therapeutic services to young children with a history of trauma. Our program is designed to treat children with intensive behavioral and emotional challenges to best prepare them for the transition to public TK/Kindergarten. Sprouts operates 8:30am-1pm Monday through Friday. We are located on the campus of Children's Receiving Home and work closely with Placer County. Children typically attend 6-9 months then transition to their home school district or local preschools/day cares.

Crittenton is a non-profit agency providing residential treatment, social services, and mental health programs throughout Southern California. We welcome referrals from education partners as well as placements in our residential treatment center. Crittenton serves 48 adolescent and non-minor dependent girls in our Short Term Residential Therapeutic Program (STRTP). Crittenton's mission is: "help heal the wounds of abuse and neglect; to strengthen families, whether birth, foster or adoptive; and to help troubled adolescents reach their full potential."

Certified through the California Department of Education as a Non-Public School. Edgewood's Non-Public School/Counseling Enriched Education Program provides specialized academic instruction with intensive behavioral and therapeutic support to students between the ages of 6 to 21 who have had difficulty with success in a public school setting due to emotional and behavioral challenges. Students make progress towards their academic and mental/behavioral health goals. Edgewood's School utilizes a strengths-based orientation to achieve academic success. Our team builds on each student's strengths to foster the emotional, social and academic skills necessary to transition to a less restrictive school placement.

# GOLD LEVEL SPONSOR

EDGEWOOD
*Transforming Lives. Restoring Hope.*

To promote the behavioral health of children, youth and families and support a positive transition to adulthood.

## NON-PUBLIC/COUNSELING ENRICHED EDUCATION PROGRAM

- Serves grades 1-12. Includes one elementary school classroom, one middle school classroom and two high school classrooms, each serving up to 12 students
- Curriculum and instruction are based on common core standards and are modified to meet each student's educational needs and Individual Education Plan (IEP) goals
- 1:4 staff to student ratio allows staff to provide individualized attention including direct teaching methods, modeling, coaching, support and role-playing
- Employs a strengths based approach to promote resilience in students
- Develops emotional regulation skills and healthy coping skills

## CLINICAL SERVICES

- Individual and Group Therapy
- Family Therapy and Parent Counseling
- Collateral/Case Management Services
- Crisis Intervention
- Psychiatric Services

**Edgewood also offers crisis stabilization, hospital diversion, and STRTP services.**

**Please contact us for more information:**

**844-EDGE411 (334-3411) • info@edgewood.org**

EDGEWOOD CENTER FOR CHILDREN AND FAMILIES provides behavioral health services to children, youth, and emerging adults aged 0 to 25. Each year, we touch the lives of thousands of families living in San Francisco and San Mateo counties who have experienced severe trauma, abuse, or neglect. Founded in 1851, Edgewood is the oldest children's charity west of the Mississippi and offers programs ranging from prevention and early intervention to community based treatment, day and after school programs, residential treatment, and crisis stabilization.

Five Acres recently celebrated 130 years of uninterrupted service to Southern California caring for vulnerable children and their families. Originally founded in downtown Los Angeles as an orphanage, our initial mission was simply to provide safety to children who had no home. In time, our mission expanded to also focus on the well-being of our clients and caring for the mental and emotional health of children who were increasingly coming to us as a result of abuse or neglect. Our residential program can serve up to 76 children in STRTP and we also provide the following services: Community Based Services including Wraparound, Therapeutic Behavioral Services and Deaf Services.

The Avalon STRTP serves youth 12-18 who are dually diagnosed with both intellectual/ developmental disability and/or autism as well as significant mental health challenges. Youth admitted also display a wide range of behavioral challenges. The program provides a safe, stable, and highly structured therapeutic milieu including mental health treatment and positive behavioral interventions. The non-public school serves both residential based youth and community students who are dually diagnosed. It offers both functional/certificate of completion track or high school diploma, depending on IEP and individualized student needs. FFYC's school-based services provide county contract school based behavioral health services in Alameda and Contra Costa Counties.

### Resident Life
Located in the San Fernando Valley, Project Six/The Commons offers a dorm-like setting.

### Independent Living Skills
Provides residents with the opportunity to learn the life skills they need to function independently.

### Clinical Groups and Social Skills
Tailored to meet the resident's specific needs and current challenges. Building and strengthening social skills is a core focus.

### Academic Program
Residents are assessed to determine which of The Help Group's non-public schools will best meet their unique needs. For college bound students, the schools offer a preparatory program.

### Family Involvement
There are a broad range of services, programs and events,including family and group therapy, parent education, support and gatherings.

Lincoln's EXCEL program provides social, emotional, and behavioral services for students, families and schools throughout Alameda County and Contra Costa County, to develop tools and learning environments for academic success through Counseling Enriched Classrooms and Mobile Special Education Teams. Our team of professionals trained in assessment, special education, intensive mental health services and applied behavior analysis, work to remove the roadblocks that impede access to mainstream learning. Lincoln understands how racial disparities and systems involvement can impact learning and are committed to creating trauma informed and culturally responsive services that effectively collaborate with each school.

McKinley Children's Center (McKinley) is a leader in compassionately transforming the lives of youth and families through innovative education, counseling and social services; Inspiring hope to achieve success. McKinley is a nonprofit human services organization that began serving their communities in 1900. McKinley offers services at their main campus in San Dimas, and locations in Palmdale, Riverside and Hesperia. McKinley offers an RCL 12 (soon to be STRTP) residential program for males, special education via their Canyon View and Desert View Schools, behavioral health and foster care/adoptions.

McKinley currently contracts with Los Angeles, San Bernardino, Riverside and Orange counties to provide a multitude of services. In addition, the school programs contract with over 30 school districts. McKinley also offers Training Services through their M-Certified Training Center. Professionals are able to obtain needed continuing education units and hone their professional skills through courses featuring an impressive group of trainers.

**Boys Program, Nevada City** – Mountain Valley Academy offers an educational residential experience for boys in the serene setting of the Sierra Nevada foothills. Located in Nevada City, California, Mountain Valley Academy serves boys between the ages of 10 and 20, offering WASC accredited elementary, middle and high school classes which include academic classes, online credit recovery, and Career Technical Education classes with a Technology and Career Exploration emphasis. Teachers hold special education credentials and academic work is supplemented with outdoor education experiences and mental health support through licensed clinicians.

**Girls Program, Sacramento** –- Mountain Valley Child and Family Services offers Non Public Schools and Residential Treatment serving girls ages 10 to 20 with mental health and social/emotion, behavioral needs. These WASC accredited schools offer small classes, special education certified teachers, and low student to adult ratios to ensure individualized attention and support. Classes include academics, online credit recovery and Career Technical Education electives with a Technology and Career Exploration emphasis. Mental health support is an important part of the program with licensed clinicians offering group and individual therapy to students and family therapy to support positive transitions back to families and school districts.

Oak Grove Center is a nonprofit residential, educational and treatment center (with multiple campuses) for children throughout California with psychological, emotional and behavioral problems and special needs. Oak Grove Center's mission is to rebuild the lives of at-risk children and their families through education, healing, restoring relationships, building character and instilling hope. Oak Grove Center serves 76 children in the STRTP and additionally provides the following Services:

- Non-Public School (2 campuses)
- Partial Hospitalization Program
- Wraparound Services
- Autism Program

Oak Grove Center is accredited by the Joint Commission and Western Association of Schools and Colleges (WASC).

Empowering Success and Transforming Lives

# Oak Grove Center

has **two Non-Public Schools* with WASC accreditation** that offer a rigorous academic program for students in K-12th grade. We offer Diploma and Certificate of Completion Tracks with talented, creative educators who are certified to serve students with:

- Autism
- Deaf-Blindness
- Emotional Disturbance
- Intellectual Disability
- Multiple Disabilities
- Other Health Impairment
- Specific Learning Disability

Students have opportunities for project based learning, access to hands-on materials **(mobile science lab, school garden, library, sensory room)** and other resources. All classes have access to a wide range of technology **(interactive boards, computers, laptops, electronic readers, IPADs, document cameras and a wide range of software, apps and electronic books)**. Lexia Reading Program and IXL Math are available for those students requiring extra support in these areas.

Oak Grove Center also has five specialized classrooms for more impacted students. These classes offer functional academic curriculum with focus on **building communication skills, social skills, self-help skills, mobility, safety awareness, work habits, and sensory integration and regulation.** Oak Grove Center offers access to a wide range of Educational Electives and Extracurricular Activities including **WorkAbility, College/Career Readiness, Sports, Arts, Health/Fitness, Culinary, Leadership (ASB and Interact), STEAM Education, and evidince-based practices.** Oak Grove implements Growth Mindset Activities designed to improve student functioning, independence and overall growth.

All school activities are designed to promote student connectedness and create a strong, positive school culture focused on success.

**Main campus is licensed as a **Short term Residential Therapeutic Program.** (STRTP)*

Phoenix Non Public School offers highly individualized instruction that is guided by each student's IEP, state standard curriculum guidelines and individual assessments. We provide a safe, nurturing and structured environment with academic and therapeutic supports. Our school, staff and curriculum are certified by the Department of Education to provide instruction for children grades 7-12.

Our instruction includes the five core curriculum subjects (Language Arts, Math, Science, Social Studies and Physical Education) and also includes many electives including Culinary Careers, Vocational Education, Community Service, Gardening, etc. Each classroom contains a computer for each student as well as a Promethean Interactive Whiteboard.

Since 1867, the Sacramento Children's Home has been dedicated to caring for our community's most vulnerable children and families. We offer a comprehensive spectrum of prevention, early intervention and mental health treatment programs to strengthen families and stop the generational cycle of child abuse and neglect. We also work with local non-public schools to provide residential support services to students with IEPs who have demonstrated behavioral health issues that impact their ability to learn. From educating parents of infants and toddlers to providing a trauma informed short term residential treatment program that assists youth in transitioning to a community based home environment, to teaching independent living skills to young adults, we are able to help the widest range of clients and address the widest range of needs of any child and family service organization in the county.

San Diego Center for Children has been a strong partner with education to provide intensive residential treatment, education and related mental health services to children and teens, ages 6 to 18, who are struggling with mental, emotional and behavioral disorders. We provide a safe and inclusive environment on our main 12-acre campus in beautiful San Diego, including our WASC accredited K-12+ Non Public School (the Academy). Youth receive comprehensive services to support their IEP goals in partnership with family and Education teams. We are proud to be one of the only residential treatment programs in Southern California accredited by The Joint Commission for our excellence in safety and quality of care. Children and teens come into our 24/7 care from all over the state of California due to our quality programs, emphasizing individualized therapeutic and education services to help students successfully return to their home and school community.

Side by Side is a community-based, non-profit organization serving at-risk young people and their families. Side by Side operates in Marin, Alameda, Sonoma and Napa counties, reaching nearly 2,000 children, young adults, and family members per year with an array of critical services. Programs include:

- ReStart: Residential and after school substance abuse treatment programs for adolescents ages 13-17 that blends recovery, mental health, and daily coping skills through individual and group therapy, behavioral interventions, parent education, adventure therapy and recreation. (Funding through Drug-Medi-Cal OSD, Kaiser, some private insurance and private pay accepted.)
- Esser House: Group home providing short-term crisis intervention and treatment for especially vulnerable populations including commercially sexually exploited youth and LGBTQ identified youth, who are involved in the foster care or probation systems.
- Irene M. Hunt School: K-12 nonpublic day school for students with social, emotional and behavioral challenges that cannot be met in the public school system, providing a therapeutic environment that equips students to thrive academically and socially (accessible to Marin County and some East Bay communities.)

In Marin, Sonoma and Napa counties, we also provide school-based behavioral and mental health services, as well as YouThrive, a school-based early intervention program. For more information, visit: SidebySideYouth.org.

**Non-Public Schools**
Sierra Vista operates two Non-Public Schools to provide special education for children who diagnosed as ED, kindergarten through eighth grade. This specialized setting offers individualized education services, social skills development, behavior management, crisis intervention and family support. Our Turlock NPS serves students who have a dual diagnosis including ED and high functioning autism. Both schools are certified by the California Department of Education.

Mental Health Services are available to students enrolled in a Sierra Vista-Non Public Schools. Services include assessment and evaluation, individual, group and family counseling, case management and medication when necessary.

**Public School Based Services**
A collaborative between Modesto City Schools SELPA and the Stanislaus County Department of Education SELPA, Sierra Vista provides assessment and counseling services to over 240 students who are diagnosed as emotionally disturbed. Our masters-level clinicians are on the school campuses and available to students and their families as needed. The counseling program is designed to meet the needs of emotionally disturbed children in the least restrictive environment and provides three levels of intensive services.

**Short-Term Residential Therapeutic Program (STRTP)**
Sierra Vista provides a 24-hour therapeutic environment designed to treat children 6-13 years of age with mental health diagnosis. Children live in a community based Short-Term Residential Treatment Program in safe residential neighborhoods. Services include a planned activity program, social skills training, educational planning support and individual, group and family counseling. Each STRTP Home has a Licensed Social worker and Mental Health Services are provided in the STRTP setting. Sierra Vista offers a full continuum of services. Therapy is provided in the home setting during crisis or as children are processing their trauma or grief.

Stanford Youth Solutions offers a wide range of community-based mental and behavioral health programs that are focused on helping keep youth safe and at home, in school, and out of trouble. Stanford Youth Solutions' School Based Mental Health Services are specifically designed to improve student's learning and well-being. These specialty mental health services utilize an array of evidence-based practices and include:

- assessment;
- plan development;
- individual, group, and family therapy;
- teletherapy, crisis intervention; and
- skill building groups, classroom observation, as well as family advocacy and support services.

In providing these services, Stanford Youth Solutions' top priority is supporting youth and their families with individualized, strengths-based plans and partnering with teachers, counselors, families and other natural supports to ensure youth are prepared to succeed in school and in life.

Stars School Solutions (SSS) provides school-based services for children, adolescents and their families in Los Angeles, San Bernardino and Santa Clara counties. Services are also available in several other counties as well (see above list). For more than 15 years in Los Angeles County, SSS has been providing individual and family therapy, case management and psychiatry with medication management through the IEP for students in special education. SSS develops procedures with SELPAs, county offices of education, and/or school districts and individual schools to support coordination, using a flexible model of service delivery tailored to the needs of the school districts and their students. Stars School Solutions provides the following services:

- Individual and group counseling
- After-school group services
- In-home services and a Parent Partner program
- Collateral services
- Psychological testing
- Individual rehabilitation
- Behavior and crisis intervention
- Case management
- Therapeutic classroom(s)
- Intensive support services

Star View Adolescent Center is California's highest level residential treatment facility. The Center offers 60 locked beds to serve youth, ages 12-17, from across the state through contracts with multiple counties, SELPAs and districts. Star View offers a multilevel program combining high-quality residential care with psychiatric crisis intervention, medical, nursing and intensive inpatient services. It includes:

- A Psychiatric Health Facility (PHF);
- Community Treatment Facility (CTF) (one of only two locked residential facilities in the state);
- 7-Day Intensive Day Treatment (DTI);
- Non-Public School (NPS), South Bay High School.

The entire program is anchored in the Attachment, Self-Regulation, and Competency (ARC) trauma-informed care treatment model.

South Bay High School is a non-public school for grades 6-12 located within Star View Adolescent Center and exclusively used by its residents. Highly individualized, innovative and flexible instruction by credentialed instructors makes it possible for adolescents with severe emotional and behavioral health problems to succeed academically.

Summitview is a private nonprofit public benefit organization licensed by the state of California and the California Department of Education to provide a wide variety of educational and therapeutic services. All services include integrated mental health interventions by trained staff incorporating a "whatever it takes" approach to serving our students and families.

**The NPS:** Summitview Academy is overseen by Principal Dustin Bailey. Mr. Bailey has several years of service experience as a direct care provider, teacher, and administrator. His commitment to the overall wellbeing of our students is seen in the positive culture he maintains throughout the three co-ed classrooms. Each class maintains a 4:1 ratio with additional support as needed. To serve the unique needs of each placing school district and SELPA, Summitview Academy is certified as an NPS and NPA.

**The NPA**: Summitview also offers trauma informed Short Term Residential Therapeutic Programs, (STRTP) for students ages 8-21. There are seven homes with specialized programing for youth that have been commercially sexually exploited, students who are non-gender identity conforming, and those with serious mental health impairments.

In 2019, Summitview will be opening a new **Crisis Residential Program**. This program will offer, short term, (1-4 weeks), stabilization services to assist students transitioning out of psychiatric hospitals, avoid long term residential placement, and/or out of state placement.

# GOLD LEVEL SPONSOR

Vista Del Mar Child and Family Services is a nonprofit residential, educational and treatment center for youth whose emotional and behavioral difficulties are impeding upon their ability to function optimally within their communities. Vista Del Mar's 18 acre campus is located in West Los Angeles and has been serving at risk youth for over 100 years. We provide a highly individualized, holistic approach to treatment, where psychological, biological, cultural, spiritual, social and educational needs are continually assessed and revised throughout the treatment process.

Our treatment philosophy and milieu approach is relationship based, DBT focused and a trauma informed care model which promotes healing by teaching our youth how to develop age appropriate interpersonal skills. With clinical support, our programs strive to help youth transition successfully back to their family of origin or to resource families within their community.

Our program is designed to assist adolescents with recognizing, rewarding and building upon their strengths while helping them to control and diminish negative behaviors which interfere with leading healthy, productive and satisfying lives. Core services and interventions are tailored to meet the specific needs of the youth and are developed and provided with regard to their trauma history, life experiences, diagnoses, culture, and sexual orientation and gender identity and expression. Vista Del Mar serves 24 youth in our Short-Term Therapeutic Program (STRTP) and 24 youth in our locked Community Treatment Facility (CTF)

Formerly known as Junior Blind, Wayfinder Family Services is a nonprofit organization for children, youth and adults facing the greatest challenges. We have multiple locations and offer early intervention, special education, independence and employment programs, mental health, residential, and foster care and adoption services. At the heart of these services is the belief that everyone deserves a chance to thrive, a safe haven and a loving family.

About our Special Education School (California state-certified non-public school located on our main Los Angeles campus):

- Students are ages 5-21
- Moderate-to-severe disabilities and varying levels of medical, physical and behavioral challenges
- Diagnoses may include: autistic behaviors, seizure disorders, severe neurological problems, hyperactivity, chronic heart disorders, cerebral palsy or fetal alcohol syndrome. Visual impairment is not a prerequisite for enrollment.
- Compassionate teachers credentialed to work with children who have severe disabilities
- 1:2 staff-to-student ratio
- On-site nursing
- We serve children and youth from various school districts throughout Los Angeles and the surrounding areas. Students do not need to be a resident of Los Angeles County to attend.

MOUNTAIN VALLEY

CHILD & FAMILY SERVICES

*California*

Mountain Valley Child and Family Services offers Non Public Schools and Residential Treatment programs serving girls ages 10 to 20 with mental health and social/emotional, behavioral needs. These WASC accredited schools offer small classes, special education certified teachers, and low student to adult ratios to ensure individualized attention and support. Classes include academics, online credit recovery and Career Technical Education electives with a Technology and Career Exploration emphasis. Mental health support is an important part of the program with licensed clinicians offering group and individual therapy to students and family therapy to support positive transitions back to families and school districts.

*Mountain Valley Schools provide the following for our students:*

*Mild-Moderate Credentialed Teachers*

*Educational Approach: Direct Instruction with Individual and Small Group Support*

*Average Length of Stay: 6-9 months*

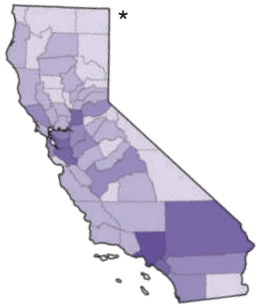
# CHAMPION. PARTNER. ADVOCATE.



*

For its member organizations, the California Alliance is the leading advocacy voice for policy and services that better the lives of vulnerable children, youth and families.

California Alliance
Empowering lives. Enriching futures.

## 130+ Member Organizations

The more than 130 private nonprofit organizations comprising the California Alliance are committed to successful child and youth outcomes through best practices, high standards, accreditation and continuing education.

Alliance members trust the California Alliance to provide legislative and regulatory advocacy to the administration, the legislature, as well as a host of state departments.

Our members say:

*"Membership in the Alliance has been instrumental in meeting our mission."*

*"Alliance members are committed to high standards, accreditation and best practices."*

## Members rise to every occasion

Our member organizations are diverse in size, location, makeup and breadth of services, yet they are singularly committed to the quality of care and services provided to California's vulnerable children, youth and families.

Collectively, our members serve over 350,000 children, youth and families each year in 672 locations across 40 California counties, employing approximately 25,000 individuals, and they benefit from the goodwill of over 18,000 volunteers.

The California Alliance's diverse member organizations provide services in the areas of child welfare, juvenile justice, behavioral health and education.

* Map reflects number of Alliance member agencies in each county with dark purple indicating the most.
