

# **Welcome to Your DJUSD Google Account and G-Suite (Used to be Google Apps for Education)!**

Staff will activate their DJUSD Google Account, and then log in with their district credentials. Your DJUSD Google Account IS then technically a gmail account, but it ends with djUSD.net and not gmail.com. If you go to any device anywhere, and go to Google.com and login, you can use your district login to get straight to your Google Account.

G-Suite is a suite of tools that enhances collaboration, communication, critical thinking, creativity and instruction/learning in general. The tools are available 24/7 with one login from any device anywhere

In DJUSD, students in grades 2-12 have Google Accounts and full access to G-Suite. Parents give permission for students to have Google Accounts in the online re-enrollment process.

Note: Some sites and classrooms do not introduce G-Suite until 3<sup>rd</sup> grade.

What Applications are included in the Core Services?

Please note that DJUSD staff does not use Gmail or Google Calendar, but continue to use Outlook and Office 365.

G-Suite applications and core services are managed by the DJUSD Google Admin Console. Please put in a [Technology Support Ticket](#) if you would like access to an application that is not available. The Core Services include:

- **Google Classroom:** is designed to help students and teachers communicate, collaborate, organize and manage assignments, grade and give feedback, go paperless, and much more!
- **Gmail:** Gmail is a free, web-based email platform that offers SPAM protection and is completely ad-free in G Suite for Education accounts. **STUDENTS ONLY**
- **Google Drive:** Google Drive allows you to store your files securely and access them from any device, as well as create, open and edit your files. You have UNLIMITED storage space with G Suite for Education.

- **Google Calendar:** Google Calendar is a free, web-based calendar platform that is completely ad-free in G Suite for Education accounts. *STUDENTS ONLY*
- **[Google Docs](#):** Google Docs is a web-based word processing tool that allows you to create and edit documents online and collaborate in real-time.
- **[Google Sheets](#):** Google Sheets is a web-based spreadsheet tool that allows you to create and edit spreadsheets online and collaborate in real-time. It is great for data analysis and organization.
- **[Google Forms](#):** Google Forms is a web-based form tool that allows you to create forms, surveys, and quizzes that collect response information in real-time.
- **[Google Slides](#):** Google Slides is a web-based presentation tool that allows you to create and edit presentations online.
- **Google Sites:** Google Sites is an easy way to create and share websites and web pages.
- **Google Hangouts:** Google Hangouts is a communication and collaboration tool for text chats, video calls, and screen sharing.
