Four Year College
or University (Four-
Year, Bachelor's
Degree)

Four-Year College or University

- Bachelor of Arts
 - Normally awarded in such areas as the languages, literature, other humanities and history
- Bachelor of Science
 - Typically involves technical fields
 - Normally awarded in such majors as the physical and biological sciences, engineering and agriculture
- Both degrees are equivalent academically

General differences between a BA and a BS

Bachelor of Arts (BA)	Bachelor of Science (BS)
✓ More electives	✓ More likely to offer a specialization, concentration, or emphasis
✓ Easier to double major	✓ Could look better on a resume
✓ Broader education in your field	✓ More likely to have a rigid course schedule
✓ Includes humanities courses	✓ Usually in a more technical field

Most Popular Bachelor Degrees

1. Business

- Median Annual Salary (May 2020): \$72,250

2. Health Professions

- Median Annual Salary (May 2020): \$69,870

3. Social Sciences and History

- Median Annual Salary (May 2020): \$69,760 (all life, physical, and social sciences)

Master's Degree

- Allows you to move into a management-level career in a specialized field
- Requires at least two years of study beyond a Bachelor's degree

Master's Degree

Doctorate Degree

Doctorate Degree

- Examples:
 - Doctor of Philosophy (Ph.D.)
 - Medical Doctor (M.D.)
 - Juris Doctor (lawyer, or J.D.)
 - Doctor of Education (Ed.D)
- Requires at least three years of school after college and sometimes many more.
- Allows the holder to practice a highly skilled profession

Military

Military

- Can join after obtaining a high school diploma
 - Immediately after high school or
 - Join ROTC while in college and then be commissioned as an officer after college graduation
- Offers many career and training opportunities
- Need to take the ASVAB during 11th or 12th grade year
 - ASVAB stands for the Armed Services Vocational Aptitude Battery, which is a multiple-choice test that helps you identify which Army jobs (Military Occupational Specialties) would be best for you.

Careers

- Now is the time to start thinking about careers and college majors
 - Things for students to think about:
 - What am I interested in?
 - What am I passionate about?
 - What am I good at?
 - What am I not good at?
 - What's the industry outlook?
 - Where do I want to live?
 - What kind of salary do I want to have?
 - What kind of education level am I willing to obtain?

Computer and Mathematical

Analyze, test, troubleshoot, and evaluate existing network systems, such as local area network (LAN), wide area network (WAN), and Internet systems or a segment of a network. Perform network maintenance to ensure networks operate correctly with minimal interruption.

- Keep computer systems running properly.
- Test systems to see if there are any problems that need to be fixed.
- Observe computer systems at work and reduce interruptions and downtime before they occur.
- Note how much computer systems are being used.
- Check to see how much disk space is available.
- Develop guidelines for installing and testing new hardware.
- Make sure that networks provide fast access and speed.
