

# 2014-15 Professional Learning Plan for School Improvement Planning

School Name: Sharon Elementary

Professional Learning Goal(s):	Connection to Continuous Improvement Goal(s):
Our school improvement goals and professional learning plans were developed after in-depth data analysis by each grade level. Research has shown that schools with the greatest gains in achievement engage in professional development and implement a process for monitoring implementation of the school improvement plan.	Our professional learning plan was designed to align with our school improvement plan. Our professional learning provided teachers with practical instructional strategies and interventions to impact student achievement for students of all ability levels.
