Frida Kahlo (1907–1954) is one of the best known Mexican painters. In spite of a childhood illness, a crippling traffic accident, and many hospital stays throughout her life, Kahlo was a successful painter and led a very active social life. She used her artwork as an outlet for her physical and emotional suffering.

Word order: Placement of adjectives

In Spanish, adjectives usually come after the noun they describe. Notice how *artística* follows *chica* in the Spanish sentence.

Margarita es una chica artística.

Margarita is an artistic girl.

In the English sentence the adjective comes before the noun. Here's a pattern you can follow when writing a sentence in Spanish:

Subject + Verb + Indefinite Article + Noun + Adjective

El Padre
El Papá

La Madre
La mamá

El hijo
