President and Members of the Board of Education Evanston Township High School District No. 202 1600 Dodge Avenue Evanston, Illinois 60204

The Comprehensive Annual Financial Report of Evanston Township High School District No. 202 (District) for the fiscal year ended June 30, 2009 is submitted herewith. The District's Business Services Department prepared this report. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation including all disclosures rests with the District. The District believes that the data as presented is accurate in all material aspects; that it is presented in a manner designed to fairly set forth the financial position and results of operations of the District as measured by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain understanding of the District's financial affairs have been included.

The Comprehensive Annual Financial Report is presented in three sections: introductory, financial, and statistical. The introductory section includes this transmittal letter, the District's organizational chart, and a list of principal officials. The financial section includes the general-purpose financial statements and the combining, individual fund, and account group financial statements and schedules, as well as the independent auditors' report on the financial statements and schedules. The financial section also includes Management's Discussion and Analysis (MD&A), a narrative introduction and an overview and analysis of the basic financial statements. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis.

HISTORY

The voters of Evanston Township approved the establishment of the Evanston Township High School District on April 4, 1882. The vote was 611 to 147. In 1883, Henry Boltwood became the first principal of the newly incorporated Evanston Township High School. The two-story school went up on Dempster and Elmwood and was dedicated on August 31, 1883. ETHS opened with 4 teachers, 107 students, 5 of who graduated in June 1884. Curriculum was classical and college prep, but also included daily calisthenics, typing, shorthand, astronomy, dramatics, manual training, and encouraged boys' sports teams. In 1904, one-third of all students completed the 50 credits needed to graduate and 45% of all graduates went to college.

From 1911 on, annual enrollment grew by 10% and there was little expansion room. For most of his tenure, the school's second principal, Wilfred F. Beardsley, worked to convince Evanston of the need for a new school on a new site. From 1912 to 1921, six referenda were held to approve the site (55 marshy acres at Church and Dodge) and raise the money to build a new school. The building, which opened in 1924 with 1,600 students, was capable of housing 4,500.

In the 1930s and 1940s, curriculum innovations under Superintendent/Principal Francis Bacon included "team teaching," gender-specific commercial courses, vocational courses, courses for students taking College Board exams, a revamped social studies, driver education, and guidance counseling. World War II added health/physical education, home nursing/first aid, current events, navigation, gunnery, aeronautics, cooperative work experience, and accelerated courses for early graduation. In 1937, a cooperative program with Northwestern University called "New School" began with 130 students (it ended in 1952).

World War I's "baby boom" swelled enrollment, so the "164" or "northwest" wing was added. Post-depression additions included 10 acres north of Church for sports and prefab housing for faculty. Post-World War II building added more gyms and shop space, the greenhouse, the field house, and football stands. A two-year Community College ran for 6 years at ETHS to respond to college overcrowding caused by extensive veterans' use of the GI Bill.

Between 1948 and 1968, there was significant growth in curriculum and innovative programs under Superintendent/Principal Lloyd Michael, including Combined Studies (combined English and history, started with New School), salesmanship, merchandising, expanded speech arts and home economics, diversified occupations, vocational experience, child development, Russian, Japanese, Chinese, computer programming, geology, political philosophy, cultural anthropology, closed-circuit TV, advance-placement courses and composers-in-residence (all pilots funded by the Ford Foundation), team teaching, expanded intramural sports, expansion of handicapped services, and gifted student programs. Modular scheduling was instituted to provide free time for independent study and allow teachers time for small-group discussions. This period culminated in 1968 when the *Ladies Home Journal* ranked ETHS #1 among U.S. high schools. ETHS also won the state basketball title that year. ETHS reached its peak enrollment in 1969-70 at 5,157.

Significant physical expansion also took place during this time. A new library, auditorium, music facilities, and a pool were approved in 1952. Then the post-WWII baby boom hit ETHS in 1956. Fifteen new classrooms went up over the tech arts wing in 1962. A 1963 study predicted ETHS would have 6,000 students by the mid-'70s. The \$8.2 million bond issue to build four wings onto the school drew 13,031 voters in 1963. Ground was broken in 1966, but rising construction costs forced another \$5.9 bond issue in 1966 to build the fourth wing. Three of the four schools-within-a-school opened in 1967, each with its own faculty, library, science labs, and cafeteria. The wings would be named after the first four superintendents (Boltwood, Beardsley, Bacon, and Michael).

In 1983 ETHS celebrated its Centennial with a year-long party, culminating in the World's Largest Class Reunion, which drew 1,200 alums back to ETHS. Since then, the high school has continued to offer a comprehensive curriculum of around 275 courses to meet the needs of the college-bound and the vocationally inclined. ETHS annually sends at least 80% of its graduates to colleges, educates nearly 15% of the students in advance placement courses, and produces a large number of nationally recognized scholars and winners of academic awards.

In 2009-10, enrollment stood at 2,891, including a diverse mix of 45.8% white, 34.3% black, 12.8% Hispanic, 3.8% Asian, and 3.3% multiracial. Students continue to score above the national average on the ACT, and 18.1% of the student body took the Advanced Placement examinations, and 79% of those students scored a three or higher.

BOARD OF EDUCATION GOALS/MAJOR INITIATIVES

The following information provides a summary of the 2008-10 District 202 Goals. The Board of Education affirms the commitment to improve student achievement, with a particular emphasis on improving the achievement of students of color.

						·				
Timeline	2008-2010	2008-2010	2008-2010	2008-2010	2008-2009	2008-2010	2008-2010	2008-2010	2008-2010	2008-2010

Strategies	Test PrepEmbed test prep in reading in all classes throughout the year.	 Continue the semester Test Prep class for identified juniors. 	 Continue a mandatory week of intensive test prep instruction for all juniors immediately prior to the PSAE and IAA. 	Achievement Now/Reading in the Content Area • Engage students with essential questions and provide explicit reading instruction in all content areas. Plans should be common for each grade	 ever or course. Develop departmental plans for reading in the content area. 	 Provide professional development to support teachers in engaging students in reading and explicitly teaching reading in content areas. 	 Access to a Rigorous Curriculum Revise the curriculum in grade 9 mixed level classes to provide more students access to an honors level curriculum 	 Expand the number of coteaching teams. 	 Monitor incoming freshman placement to ensure that students are appropriately challenged and successful. 	 PLCs Monitor student achievement in content mastery and overall reading over the course of the year and make appropriate changes to instruction.
Objectives	Meet the NCLB "Safe Harbor" provision by decreasing by 10% the percentage of students who do not	meet standards in reading on the PSAE and IAA in each of the subgroups Black, Latino, low —	income, English Language Learners (ELLS), and Special Education.	Increase the gain in reading over the previous year for subgroups from EXPLORE to PLAN to ACT.			Reduce by 10% the percentage of Ds and Fs in semester grades.		Increase by 10% the percentage of 9th grade African American and Latino students enrolled in honors level classes.	
Goal	LITERACY Achieve measurable academic gains in reading across the	curriculum.					Improve student reading in academic

Responsible Parties	CFO/Business Office	CFO	CFO	Business Office Operations	CFO	CFO 2	
Strategies	 Continue values-based budgeting. 	 Continue mid-year budget review. 	 Use the five-year forecasting model to provide long-term policy guidance for operating and capital budgeting objectives. 	 Implement five-year capital improvement plan. 	 Work with the ETHS Foundation to increase financial resources for capital improvements. 	 Work with community organizations such as the City, social service agencies, the hospitals, Northwestern University, and Oakton Community 	College to continue and expand programmatic and financial partnership.
Objectives	Develop a Values-based budget	support student achievement	Use a financial planning model and financial policies related to those to address long-term	to improve student achievement.	Constant monitoring of both the budget and best financial practices to improve efficient use	of District financial resources. Coordinate and increase	resources in support of the District's goals and objectives.
Goal	BUDGET & FINANCE	Assure that the District remains	financially solvent and that financial decisions consider ended achievement	and performance.			

SCHOOL DISTRICT FINANCIAL PROFILE

Since the spring of 2003, the Illinois State Board of Education ("ISBE") has utilized a new system for assessing a school district's financial health. The new financial assessment system is referred to as the "School District Financial Profile", which replaces the Financial Watch List and Financial Assurance and Accountability System (FAAS). The new system identifies those school districts which are moving into financial distress.

The new system uses five indicators, which are individually scored and weighted, in order to arrive at a composite district financial profile. The indicators are as follows: fund balance to revenue ratio; expenditures to revenue ratio; days cash on hand; percent of short-term borrowing ability remaining; and percent of long-term debt margin remaining.

Each indicator is calculated and the result is placed into a category of a four, three, two, or one, with four being the highest and best category possible. Each indicator is weighted as follows:

Fund balance to revenue ratio	35%
Expenditures to revenue ratio	35%
Days cash on hand	10%
Percent of short-term borrowing ability remaining	10%
Percent of long-term debt margin remaining	1 0%

The scores of the weighted indicators are totaled to obtain a district's overall score. The highest score is 4.0 and the lowest score is 1.0. A district is then placed in one of four categories as follows:

- Financial Recognition. A school district with a score of 3.54 to 4.00 is assigned to this category, which is the best category of financial strength. These districts require minimal or no active monitoring by ISBE unless requested by the district.
- Financial Review. A school district with a score of 3.08 to 3.53 is assigned to this category, the next highest financial strength category. These districts receive a limited review by ISBE, but are monitored for potential downward trends. ISBE staff also reviews the next year's school budget for further negative trends.
- Financial Early Warning. A school district with a score of 2.62 to 3.07 is placed in this category. ISBE monitors these districts closely and offers proactive technical assistance, such as financial projections and cash flow analysis. These districts also are reviewed to determine whether they meet the criteria set forth in Article 1A-8 of the School Code to be certified in financial difficulty and possibly qualify for a Financial Oversight Panel.
- Financial Watch. A school district with a score of 1.00 to 2.61 is in this category, the highest risk category. ISBE monitors these districts very closely and offers technical assistance with, but not limited to, financial projections, cash flow analysis, budgeting, personnel inventories, and enrollment projections. These districts are also assessed to determine if they qualify for a Financial Oversight Panel.

The District's overall score for Fiscal Year 2008 (the most recent available and based on District data for its fiscal year ended June 30, 2007) was 3.65, thus placing the District in the Financial Recognition category. The District's overall scores in Fiscal Years 2007, 2006, and 2005 were 3.90, 3.90, and 3.90, respectively.

ECONOMIC CONDITION

Overall, school facilities are in good condition in spite of the overall economic downturn. District 202's major revenue source continues to be local property taxes. Although the 1994 Property Tax Extension Limitation Act impacts the District, it has been able to maintain favorable fund balances within all fund accounts. The Property Tax Extension Limitation Act restricts the District's annual extended levy to the Consumer Price Index or five percent, whichever is lower. New property is exempted from the Cap and when tax increment financing (TIF) districts are retired, property will be returned to the tax rolls as if it were new construction. Currently, four TIF districts exist in the District boundaries. The oldest expired in January 2014. The newest expires in September 2017.

Excluding Working Cash, fund balances equaled \$25.6 million at the end of the fiscal year. The District has made significant reductions in the last several years and this has led to a reduction in the cost per student over the last two years and the stabilization of the finances. To facilitate this process, the District has refined its projection model with the help of PMA Financial Advisors. For fiscal year 2009, the District passed its second straight balanced budget.

LOCAL DISTRICT ECONOMY

The City of Evanston has seen the economic recession affect its economy. However, because of the low level of dependency on any one source of revenue, the City is struggling but maintaining most of its services.

The City's downtown area has been undergoing major revitalization in recent years. The City's downtown now features 72 restaurants, 775 hotel rooms, 18 movie theater screens, seven theater companies, eleven used-book stores (emblematic of the City's university connection), and, according to the Convention and Visitors' Bureau, 186 shops.

The City estimates that over 1,400 additional jobs have been created in downtown Evanston in the past five years. The equalized assessed value of the downtown has grown from \$16.2 million to over \$100 million in that period. The District continues to benefit from new property, which has continued to expand and provide more property tax dollars.

REPORTING ENTITY

The governing body consists of a seven member Board of Education elected within the District's boundaries. Based on the legislative authority codified in The School Code of Illinois, the Board of Education has the following powers:

- a. The corporate power to sue and be sued in all courts;
- b. The power to levy and collect taxes and to issue bonds;
- c. The power to contract for appointed administrators, teachers, and other personnel as well as for goods and services.

The District defines its reporting entity by applying the criteria set forth in GASB 14 to potential component units. Briefly, a component unit is an organization for which the District is financially accountable, or other organizations that, because of the nature and significance of their relationship with the District, would cause the District's financial statements to be misleading or incomplete if they were omitted from the reporting entity. These criteria are discussed in more detail in Note A to the financial statements. Using these criteria, management has determined that the District has no component units, nor is it a component unit of any other organization.

FINANCIAL AND RISK MANAGEMENT INFORMATION

The statements and schedules included in the financial section of this report, demonstrate that the District continues to meets its responsibility for sound financial management.

Internal Controls. Management of the District is responsible for establishing and maintaining internal controls designed to ensure that the assets of the District are protected from loss, theft, or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: 1) the cost of a control should not exceed the benefits likely to be derived; and 2) the valuation of costs and benefits requires estimates and judgments by management.

Single Audit Controls: As a recipient of federal and state financial assistance, the District is also responsible for ensuring that adequate internal controls are in place to ensure compliance with applicable laws and regulations related to those programs. These internal controls are subject to periodic evaluation by management.

As a part of the District's single audit, described earlier, tests are made to determine the adequacy of the internal controls, including that portion related to federal financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations. The results of the District's single audit for the fiscal year ended June 30, 2009 provided no instances of material weaknesses in internal controls or violations of applicable laws and regulations.

Budgeting Controls: The District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget. Budgetary control is maintained at line-item levels and built up into program and/or cost centers before being combined to form totals by fund. All actual activity compared to budget is reported to the District's management on a monthly basis. This monthly report compares each line-item account balance to the annual budget with accumulation to the cost center, fund, and total District levels. The District also maintains an encumbrance accounting system as one technique in accomplishing budgetary control. Encumbered amounts lapse at year-end. The District's legal level of budgetary control is at the fund level.

Accounting System: The District's accounting records for all governmental fund types and expendable trust funds are maintained on a modified accrual basis, with revenues recorded when available and measurable and expenditures recorded when services or goods are received and liabilities are incurred. All District funds are included in the combined financial statements, which are included in the financial section of the report. The combined financial statements have been audited by Miller, Cooper & Co., Ltd., Certified Public Accountants.

The financial statements have been prepared in accordance with standards as set forth by the Government Accounting Standards Board (GASB). The Association of School Business Officials International has also adopted these standards. The presentation allows the reader to obtain an overview of the District's financial operations by viewing the combined statements in the front section of the report. Detailed presentations of these combined statements are available throughout the remainder of the report.

Cash Management: Investments in the form of certificates of deposit, treasury receipts, and highly rated commercial paper account for the District's investment portfolio. The District invests up to 100% of available cash, timing investment maturities to actual cash needs. Investment strategies are structured to obtain the best yield for all investments.

Risk Management: The District is a member of the Collective Liability Insurance Cooperative (CLIC). CLIC is a school insurance cooperative that provides a very comprehensive insurance contract combined with service and competitive pricing. Coverage includes property, casualty, general liability, excess liability, vehicle, and professional liability insurance. Gallagher Bassett provides individually tailored service to the cooperative.

The District is also a member of the Collective Liability Insurance Cooperative (CLIC), worker's compensation insurance pool. The same Board of Directors controls both the CLIC pools, which are composed of representatives designated by the member school districts.

Capital Assets: The capital assets of the District are those assets used in the performance of general governmental functions. As of June 30, 2009, the capital assets of the District amounted to \$75,204,152. This amount represents the actual and historical original cost of the assets and is considerably less than their present replacement value. The District utilizes the services of an outside industrial appraisal company for the appraisal, control, and inventory of fixed assets. Annual appraisals are used for updating replacement values for insurance purposes, with the District providing historical cost information. The District maintains outside third-party insurance coverage to protect the District from fire, theft, and severe financial losses.

Independent Audit. The School Code of Illinois and the District's adopted policy require an annual audit of the books of accounts, financial records, and transactions of all funds of the District. The audit is performed by independent certified public accountants that are selected by the District's Board of Education. This requirement has been complied with and the accountants' report has been included in this report.

CLOSING STATEMENT

We believe that this Comprehensive Annual Financial Report will provide the Evanston/Skokie community, the District's management, and outside investors with an accessible financial presentation. We hope that all readers of this Report will obtain a clear and concise understanding of the District's financial condition as of June 30, 2009.

ACKNOWLEDGMENT

Without the leadership of the President and Board of Education, preparation of this report would not have been possible.

This report could not be prepared without the efficient and dedicated services of all the members of the Business Office who assisted in the closing of the District's financial records and the preparation of this report. Special recognition goes to Mary Rodino, Deputy CFO/Treasurer, and the Business Office staff for their invaluable assistance in preparing the financial statements.

Respectfully submitted,

Chief Financial Officer

SCHOOL BUSINESS OF THE INTERNATIONAL INTERNATIONAL SCOOL PARTITUTE OF THE STATE OF

This Certificate of Excellence in Financial Reporting is presented to

INDEPENDENT AUDITORS' REPORT

The Members of the Board of Education Evanston Township High School District No. 202 Evanston, Illinois

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Evanston Township High School District No. 202, as of and for the year ended June 30, 2009, which collectively comprise Evanston Township High School District No. 202's basic financial statements, as listed in the table of contents. These financial statements are the responsibility of Evanston Township High School District No. 202's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States*, *Local Governments, and Non-Profit Organizations*. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Evanston Township High School District No. 202 as of June 30, 2009, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have issued our report, dated December 8, 2009, on our consideration of Evanston Township High School District No. 202's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

(Continued)

The management's discussion and analysis on pages 3 through 11, the Illinois Municipal Retirement Fund historical data on page 48, other postemployment benefits data on page 49, and the budgetary comparison schedules and notes to required supplementary information on pages 50 through 74 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Evanston Township High School District No. 202's basic financial statements. The other schedules, listed in the table of contents as supplementary financial information, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The accompanying introductory and statistical sections, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. This information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

Deerfield, Illinois December 8, 2009

The discussion and analysis of Evanston Township School District No. 202's (the District) financial performance provides an overall review of the District's financial activities for the year ended June 30, 2009. The management of the District encourages readers to consider the information presented herein in conjunction with the basic financial statements to enhance their understanding of the District's financial performance. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

The words listed below are used throughout this section of the financial statements. The accompanying definitions should enhance the reader's understanding.

- **Fiscal Year** The period July 1, 2008 through June 30, 2009.
- **Assets** What the District owns.
- **Liabilities** Obligations for which repayment is expected to occur.
- Net Assets The amount that remains after the liabilities have been paid or are otherwise satisfied.
- **Revenues** The funding or creation of additions to the assets.
- **Program Revenues** Revenues, primarily in the form of charges for services and restricted state and federal aid that fund related programs.
- **General Revenues** Revenues, primarily in the form of property taxes and unrestricted state and federal aid, used to finance the services not funded by program revenues.
- Expenses The costs of services provided, including payments to employees and vendors.
- **Funds** An accounting method that tracks the finances of a particular activity or group of activities with separate statements.
- **Fiduciary Funds** Account for resources held for the benefit of parties outside the District.
- **Governmental Funds** Major operating funds of the District.

Financial Highlights

- The District's financial status has maintained itself due to the cost containment measures that were imposed in the last three years. Total assets of governmental activities decreased by \$ 1,776,519, which represents a 4.96% decrease from fiscal year 2008. This is mainly a temporary decrease due to the fact that most of these dollars are late state payments to the Education and Transportation funds.
- The District received general revenue totaling \$58.1 million that constituted 84.4 % of all revenues for fiscal year 2009. Revenue generated from charges for services and operating grants and contributions accounted for \$11.7 million, or 15.6 %, of total revenues of \$69.9 million.
- Expenses related to governmental activities totaled \$71.6 million. Of these expenses, \$11.7 million was offset by charges for services or grants and contributions. General revenues of \$58.1 million caused a shortage of expenditures over revenues of \$1,776,519.
- The Educational Fund had \$57.1 million in revenue and \$58.8 million in expenses in fiscal year 2009. The fund balance in the Educational Fund decreased \$1,697,184 to \$13.9 million during fiscal year 2009. The Board of Education also authorized the transfer of interest from the Working Cash Fund totaling \$39,473 to support Educational Fund expenses.

The reduction in fund balance in the Educational Fund was a result of the following:

- o Delayed state revenues of over \$500,000.
- o Lower than anticipated property tax collections of approximately \$656,000.
- o Special Education costs exceeding budget approximately \$500,000.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The basic financial statements are organized as follows:

- 1. Management's Discussion and Analysis.
- 2. Basic Financial Statements.
 - a. Government-wide financial statements (general).
 - b. Governmental fund financial statements (specific).
 - c. Notes to the financial statements.
- 3. Required supplementary information.

Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the District's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets provide one useful indicator of the financial position or financial health of the District. Other nonfinancial factors, such as changes in the District's property tax base and condition of school buildings and other facilities, must be examined to assess the District's overall financial health.

The statement of activities presents information showing how the government's net assets changed during the fiscal year being reported. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods.

The government-wide financial statements present the functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities). The District has no business-type activities; that is, functions that are intended to recover all or a significant portion of their costs through user fees and charges. The District's governmental activities include instructional services (regular education, special education, and other), supporting services, operations and maintenance of facilities, and transportation services.

Governmental fund financial statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and fiduciary funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a school district's near-term financing requirements.

Because the focus of governmental fund financial statements is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains seven individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the Educational Fund, Operations and Maintenance Fund, Transportation Fund, Illinois Municipal Retirement/Social Security Fund, Debt Service Fund, Working Cash Fund, and Fire Prevention and Safety Fund, all of which are considered to be major funds.

The District adopts an annual budget for each of the funds listed above. A budgetary comparison statement has been provided for each fund to demonstrate compliance with this budget.

Fiduciary funds are used to account for resources held for the benefit of parties outside the school district. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The accounting used for fiduciary funds is much like that for the government-wide financial statements.

Notes to the financial statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's progress in funding its obligation to provide pension benefits to its non-certificated employees.

District-Wide Financial Analysis

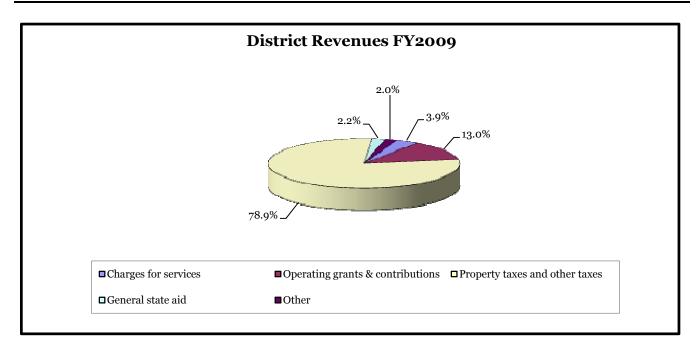

Net Assets – Table 1: the District currently has total assets of \$87.6 million including \$25.4 million in capital or fixed assets including land, buildings, machinery, furniture, and equipment, net of depreciation. The District's total liabilities are \$53.8 million including a relatively low long-term debt level of \$23.3 million. The District's total net assets are \$33.8 million.

	Condensed Statement (In thousa	Table 1 t of Net Assets nds of dollars)

Unrestricted	23,438	23,462
Total net assets	<u>\$33,833</u>	<u>\$35,609</u>

Changes in net assets – Table 2: Total revenues for the District are \$69.8 million. The primary revenue source is property taxes, accounting for approximately 78.9% of total revenues. Expenditures totaled \$71.7 million. The District's expenses are predominantly related to instructing, caring for, and transporting students totaling \$45.8 million, or 64% of total expenditures. Administrative and business activities accounted for 12.3% of total costs. The combined net assets of the District on June 30, 2009 are 4.9% lower than they were the year before, decreasing to \$33.8 million as described in Table 1. The District's financial position is stable at this time based on a multi-year expenditure reduction/revenue enhancement plan adopted by the Board.

Financial Analysis of the District's Funds

Revenues for the District's governmental activities during the year totaled \$69,891,572. Expenditures for the same period were \$73,296,166.

- The fund balance in the Educational Fund was decreased by \$1,697,184 during the year based on the cumulative effects of property tax and interest earnings collections. At year end, the fund balance stood at \$13,972,827.
- The fund balance in Operations and Maintenance increased by \$892,807 to \$4,562,676 during the year, due mainly to construction costs from FY 2008 that were reimbursed in FY 2009.
- The fund balance in the Transportation Fund decreased by \$60,054, decreasing the fund balance to \$353,619 due to delayed state revenues.
- The fund balance in the Municipal Retirement/Social Security Fund dropped by \$115,747 to \$618,749 resulting from increased contributions due to pension fund losses related to the market.
- The total fund balance in Working Cash decreased due to the transfer of Series 2008 bonds to the Capital Projects Fund, and ended the year with a balance of \$6,127,198.
- The Debt Service Fund experienced a decrease of \$275,001, lowering the fund balance to \$1,650,290 as part of a planned use of fund balance to alter the District's debt structure.
- The fund balance in Fire Prevention and Safety decreased to \$1,384,884, as the bond funds were used to pay capital improvements.
- The Capital Projects Fund increased to \$3,047,645, as bond funds were used to pay capital improvements.

Governmental Funds Budgetary Highlights

Over the course of the year, the District did not revise the annual operating budget. The District's governmental funds include the General (Educational) Fund, the Operations and Maintenance Fund, the Transportation Fund, the Illinois Municipal Retirement\Social Security Fund, the Working Cash Fund, Debt Service Fund, and the Fire Prevention and Safety Fund. These funds have a combined fund balance of \$28,725,199.

The General Fund (Education Fund) had expenditures exceeding revenues primarily because of the increased cost of special education, lower than expected interest income earnings, delayed state revenues, and lower property tax collections. The Operations and Maintenance Fund had revenues exceeding expenditures mainly due to capital improvement expenditures from FY 2008 and FY 2009 that were reimbursed to the Fund in FY 2009. The Transportation Fund expenditures exceeded revenues due to delayed state revenues. The Working Cash Fund decreased due to the transfer of Series 2008 bonds to the Capital Projects Fund.

Capital Asset and Debt Administration

Capital assets – Table 3

As of the end of FY 2009, the District has net capital assets of \$25.4 million in a broad range of resources including the school building and power plant, building improvements, vehicles, library books, textbooks, computers and the infrastructure to support them, and other equipment. This amount represents a net increase of \$4.6 million or a 22.0 % increase from last year. This is due to construction that has taken place over the last year. More detailed information about capital assets can be found in Note E to the financial statements. Total depreciation expense for the year exceeded \$2.7 million.

Table 3 Capital Assets (net of depreciation (In thousands of dollars)	on)	
Land	<u>2009</u> \$375	<u>2008</u> \$375
Buildings and equipment	<u>24,983</u>	20,379
Total	<u>\$25,358</u>	<u>\$20,754</u>

Long-term debt - Table 4

At year-end, the District has \$22.082 million in general obligation bonds, capital appreciation bonds, and other long-term debt, net of deferred charges. The District continued to pay down its debt, retiring \$2.2 million worth of outstanding bonds in fiscal 2009. The District will continue its five-year Capital Improvements Plan. The existing bonds have short repayment schedules. More detailed information about long-term debt can be found in Note F to the financial statements.

	<u>2009</u>	<u>2008</u>
General obligation bonds	22,082	\$23,789
Other Total	1,230 \$23,312	1,058 \$24,847

Factors Bearing on the District's Future

The District is aware of the following factors that may affect its future financial health:

- The economic downturn that exposes the District to state revenue reductions and increased pension costs.
- Property tax appeals leading to assessment reductions, and causing the District to issue refunds.
- Tax caps that restrict the allowable increase in property taxes to the Consumer Price Index (CPI).
- State and federal funding remaining flat, with no increase expected for the foreseeable future.
- Employment contracts with mandatory financial obligations.
- The planned retirement of the Downtown II Tax Increment Financing District in Evanston in 2010 which will add to the District's property tax base.

Requests for Information

This financial report is designed to provide the District's citizens, taxpayers, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report, or need additional financial information, contact the Business Office: Evanston Township High School District 202, 1600 Dodge Avenue, Evanston, Illinois 60204.

NOTES TO THE FINANCIAL STATEMENTS

June 30, 2009

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Evanston Township High School District 202 (the District) have been prepared in conformity with accounting principles generally accepted in the United States of America, as applied to government units (hereinafter referred to as generally accepted accounting principles (GAAP)). The Governmental Accounting Standards Board (GASB) is the standard-setting body for establishing governmental accounting and financial reporting principles.

The more significant of the District's accounting policies are described below.

1. Reporting Entity

The District is located in Cook County, Illinois. The District is governed by an elected Board of Education. The Board of Education maintains final responsibility for all personnel, budgetary, taxing, and debt matters.

The District includes all funds of its operations that are controlled by or dependent upon the District as determined on a basis of financial accountability. Financial accountability includes appointment of the organization's governing body, imposition of will, and fiscal dependency. The accompanying financial statements include only those funds of the District, as there are no organizations for which it has financial accountability.

Also, the District is not included as a component unit in any other governmental reporting entity, as defined by GASB pronouncements.

2. Fund Accounting

The accounts of the District are organized on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance-related and contractual provisions. The minimum number of funds is maintained consistent with legal and managerial requirements.

Funds are classified into the following categories: governmental and fiduciary.

Governmental funds are used to account for all or most of the District's general activities, including the collection and disbursement of earmarked monies (special revenue funds), the servicing of general long-term debt (debt service funds), and the acquisition or construction of major capital facilities (capital projects fund). The General Fund is used to account for all activities of the general government not accounted for in some other fund.

NOTES TO THE FINANCIAL STATEMENTS

<u>June 30, 2009</u>

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

2. Fund Accounting (Continued)

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the District.

3. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all the nonfiduciary activities of the District. The effect of interfund activity has been eliminated from these statements. Governmental activities normally are supported by taxes and intergovernmental revenues.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported as general revenues instead.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

a. General Fund

The General Fund is the District's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. The General Fund includes the Educational Fund.

b. Special Revenue Funds

The special revenue funds are used to account for the proceeds of specific revenue sources (other than those accounted for in the Debt Service, Capital Projects, or Fiduciary Funds) that are legally restricted to expenditures for specified purposes.

Each of the District's special revenue funds has been established as a separate fund in accordance with the fund structure required by the state of Illinois for local educational agencies. These funds account for local property taxes restricted to specific purposes. A brief description of the District's special revenue funds is as follows:

NOTES TO THE FINANCIAL STATEMENTS

June 30, 2009

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3. Government-Wide and Fund Financial Statements (Continued)

b. Special Revenue Funds (Continued)

Operations and Maintenance Fund - is used for expenditures made for operations, repair, and maintenance of the District's building and land. Revenue consists primarily of local property taxes.

Transportation Fund - accounts for all revenue and expenditures made for student transportation. Revenues are derived primarily from local property taxes and state reimbursement grants.

Municipal Retirement/Social Security Fund - accounts for the District's portion of pension contributions to the Illinois Municipal Retirement Fund, payments to Medicare, and payments to the Social Security System for noncertified employees. Revenue to finance contributions is derived primarily from local property taxes and personal property replacement taxes.

Working Cash Fund - accounts for financial resources held by the District to be used as temporary interfund loans for working capital requirements to the General Fund and the special revenue fund's Operations and Maintenance and Transportation Funds. Money loaned by the Working Cash Fund to other funds must be repaid within one year. As allowed by the School Code of Illinois, this Fund may be permanently abolished and become part of the General Fund or it may be partially abated to the General Fund, Special Revenue, Debt Service, or the Fire Prevention and Safety Funds.

Tort Immunity and Judgment Fund - is used for expenditures made for liability insurance. Revenues are derived primarily from local property taxes and state reimbursement grants.

c. Debt Service Fund

The Debt Service Fund - is used for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs. The primary revenue source is local property taxes levied specifically for debt service.

d. Capital Projects Fund

Capital Projects Fund - accounts for financial resources to be used for the acquisition or construction of major capital facilities. Revenues are derived from property taxes, bond proceeds, or transfers from other funds.

The Fire Prevention and Safety Fund - accounts for state-approved life safety projects financed through serial bond issues or local property taxes levied specifically for such purposes.

NOTES TO THE FINANCIAL STATEMENTS

<u>June 30, 2009</u>

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

3. Government-Wide and Fund Financial Statements (Continued)

e. Fiduciary Fund (Continued)

The Fiduciary Fund accounts for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governments, or other funds.

The *Private Purpose Trust Fund* - is accounted for on the flow of economic resources measurement focus and uses the accrual basis of accounting. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred. The Private Purpose Trust Fund accounts for scholarship and memorial trust funds, the principal of which may not be spent.

The Student Activity Funds - are custodial in nature (assets equal liabilities) and do not involve measurement of the results of operations. These Funds account for assets held by the District which are owned, operated, and managed generally by the student body, under the guidance and direction of adults or a staff member, for educational, recreational, or cultural purposes. They account for activities such as student yearbook, student clubs and council, and scholarships.

4. Measurement Focus, Basis of Accounting, and Basis of Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund statements. Revenues and additions are recorded when earned, and expenses and deductions are recorded when a liability is incurred. Property taxes are recognized as revenues in the year for which they are levied (i.e., intended to finance). Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are considered to be available when they are collectible within the current period and soon enough thereafter to pay liabilities of the current period. The District considers property tax revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a fund liability is incurred. However, debt service expenditures are recorded only when payment is due.

Property taxes, interest, and intergovernmental revenues associated with the current fiscal period are all considered to be susceptible to accrual and are recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

NOTES TO THE FINANCIAL STATEMENTS June 30, 2009

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

4. Measurement Focus, Basis of Accounting, and Basis of Presentation (Continued)

The District reports unearned revenue on its financial statements. Unearned revenue arises when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for unearned revenue is removed from the balance sheet and revenue is recognized.

5. Budgetary Data

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual budgets are adopted at the fund level for the governmental funds. The annual budget is legally enacted and provides for a legal level of control at the fund level. All annual budgets lapse at fiscal year-end.

6. Deposits and Investments

State statutes authorize the District to invest in obligations of the U.S. Treasury, certain highly rated commercial paper, corporate bonds, repurchase agreements, and the State Treasurer's Investment Pool. Investments are stated at fair value. Changes in the fair value of investments are included as investment income.

7. Personal Property Replacement Taxes

Personal property replacement tax revenues are first allocated to the Municipal Retirement/Social Security Fund, with the balance allocated at the discretion of the District.

8. Inventory

Inventories of governmental funds are recorded at cost on a first-in, first-out basis. In governmental funds, inventory consists of expendable supplies held for consumption. The cost of inventory items is recorded as an expenditure in the government funds when purchased,

Commodities inventory is recorded as inventory and unearned revenue at the time of donation, based upon the Commodity Price List disseminated semiannually by the Illinois State Board of Education. Revenue is recognized to the extent commodities are consumed.

NOTES TO THE FINANCIAL STATEMENTS

June 30, 2009

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

9. Capital Assets

Capital assets which include land, land improvements, buildings, and equipment are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual or group cost of more than \$500 and an estimated useful life of five years or more. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Depreciation of capital assets is provided over the estimated useful lives using the straight-line method over the following estimated useful lives:

<u>Assets</u>	Years
Buildings	20 - 108
Land improvements	20
Equipment	10 - 20

10. Compensated Absences

The District's personnel policies permit all employees to accumulate earned but unused vacation and sick pay benefits. Upon termination or retirement, teachers and support staff can use a portion of their unpaid sick time as service credit for TRS or IMRF, respectively. The liability for the remaining portion is calculated using a per diem rate agreed to in the employees' contract. Accrued vacation is calculated based on the pay or salary rates in effect at June 30, 2009, and includes estimated fringe benefits. There is no maximum on accrued vacation.

Compensated absences expected to be liquidated with expendable available financial resources are reported as an expenditure and a fund liability of the governmental fund from which the employee who has accumulated the benefit is paid.

11. Comparative Total Data

Comparative total data for the prior year have been presented in the accompanying financial statements in order to provide an understanding of changes in the District's financial position and operations.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2009

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

12. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

13. Restricted Net Assets

For the government-wide financial statements, net assets are reported as restricted when constraints placed on net assets are either: (1) externally imposed by creditors (such as debt covenants), grantors, contributors, or laws or regulations of other governments, (2) imposed by law through constitutional provisions, or (3) imposed by enabling legislation. All of the District's restricted net assets were restricted as a result of enabling legislation.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, and then unrestricted resources, as they are needed.

14. Reserved Fund Balances

In the governmental funds financial statements, the District reserves those portions of fund balances which are legally segregated for a specific purpose or do not represent amounts available for other appropriations.

15. Use of Estimates

In preparing financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO THE FINANCIAL STATEMENTS

<u>June 30, 2009</u>

NOTE B - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

1. Explanation of Certain Differences Between the Governmental Funds Balance Sheet and the Government-wide Statement of Net Assets

The governmental funds balance sheet includes a reconciliation between total fund balances - governmental funds and net assets - governmental activities as reported in the government-wide statement of net assets. One element of that reconciliation explains that "Long-term liabilities included in the statement of net assets are not due and payable in the current period and, therefore, are not reported in the governmental funds balance sheet." The details of this difference are as follows:

General obligation bonds	\$	13,035,000
Capital appreciation bonds		9,047,352
Compensated absences		1,150,077
Other postemployment benefits	_	7 9, 433
Net adjustment to reduce fund balance - total governmental		
funds to arrive at net assets - governmental activities	\$_	23,311,862

2. <u>Explanation of Certain Differences Between the Governmental Funds Statement of Revenues, Expenditures,</u> and Changes in Fund Balances and the Government-wide Statement of Activities

The governmental funds statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net change in fund balances - total governmental funds and change in net assets - governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "The issuance of long-term debt (e.g. bonds, compensated absences, postemployment benefits) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt and increase in compensated absences consume the current financial resources of the government funds." The details of this difference are as follows:

Principal repayments	
General obligation and	\$ 690,000
Capital appreciation bonds	1,485,000
Interest payable	2,945
Deferred charges	(5,920)
Compensated absences	(91,674)
Other postemployment benefits	(79,433)
Accretion on capital appreciation bonds	(468,621)
Net adjustment to increase net change in fund balances - total	
governmental funds to arrive at change in net assets -	
governmental activities	\$ 1,532,297

NOTES TO THE FINANCIAL STATEMENTS

June 30, 2009

NOTE B - RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

2. Explanation of Certain Differences Between the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances and the Government-wide Statement of Activities (Continued)

The governmental funds statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net change in fund balances - total governmental funds and change in net assets - governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this difference are as follows:

Capital outlay Depreciation expense	\$ 	7,755,191 2,776,644
Net adjustment to increase net change in fund balances - total governmental funds to arrive at change in net assets - governmental activities	\$	4,978,547

NOTE C - DEPOSITS AND INVESTMENTS

At June 30, 2009, the District's cash and investments consisted of the following:

	-	Governmental	 Fiduciary	-	Total
Cash and investments	\$_	31,328,195	\$ 2,574,487	\$ _	33,902,682

For disclosure purposes, this amount is segregated into three components: 1) cash on hand; 2) deposits with financial institutions, which include amounts held in demand accounts, savings accounts, and nonnegotiable certificates of deposit; and 3) other investments, which consist of all investments other than certificates of deposit, as follows:

	_	Total
Cash on hand	\$	1,580
Deposits with financial institutions		25,673,225
Illinois Funds		4,662,228
Illinois School District Liquid Asset Fund Plus	_	3,565,649
	\$_	33,902,682

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2009

NOTE C - DEPOSITS AND INVESTMENTS (Continued)

1. Interest Rate Risk

The District's investment policy seeks to ensure preservation of capital in the District's overall portfolio. The highest return on investments is sought, consistent with the preservation of principal and prudent investment principles. The investment portfolio is required to provide sufficient liquidity to pay District obligations as they come due, considering maturity and marketability. The investment portfolio is also required to be diversified as to maturities and investments, as appropriate to the nature, purpose, and amount of funds. The District will also consider investments in local financial institutions, recognizing their contribution to the community's economic development.

2. Credit Risk

The Illinois School District Liquid Asset Fund Plus (ISDLAF+) is an unrated, not-for-profit investment trust formed pursuant to the Illinois Municipal Code and managed by a Board of Trustees elected from participating members. It is not registered with the SEC as an investment company, but operates in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments are valued at share price, which is the price for which the investment could be sold.

The Illinois Funds, a state investment pool, was rated AAAm by Standard & Poor's. The State Treasurer is the regulatory oversight agency for the pool and the State Treasurer is audited by the Illinois Auditor General to ensure that all state statutes are being followed. Each member owns a prorated share of each investment or deposit, which is held in the name of the fund. The fair value of the position in the external investment pool is the same as the value of the pool shares.

3. Concentration of Credit Risk

The District's investment policy requires diversification of the investment portfolio to minimize the risk of loss resulting from overconcentration in a particular type of security, risk factor, issuer, or maturity. The policy requires diversification strategies to be determined and revised periodically by the District's Investment Officer to meet the District's ongoing need for safety, liquidity, and rate of return.

4. Custodial Credit Risk

With respect to deposits, custodial credit risk is the risk that, in the event of a bank failure, the District's deposits may not be returned to it. The District's investment policy limits the exposure to deposit custodial credit risk by requiring all deposits in excess of FDIC insurable limits to be secured by collateral in the event of default or failure of the financial institution holding the funds. At June 30, 2009, the bank balance of the District's deposits with financial institutions totaled \$26,413,653, of which all but \$1,657,782 was collateralized and insured.

NOTES TO THE FINANCIAL STATEMENTS

June 30, 2009

NOTE C - DEPOSITS AND INVESTMENTS (Continued)

4. Custodial Credit Risk (Continued)

With respect to investments, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District's investment policy limits the exposure to investment custodial credit risk by requiring that all investments be secured by private insurance or collateral.

NOTE D - PROPERTY TAXES RECEIVABLE

The District must file its tax levy resolution by the last Tuesday in December of each year. The tax levy resolution was approved by the Board on October 27, 2008. The District's property tax is levied each year on all taxable real property located in the District. The owner of real property on January 1 (the lien date) in any year is liable for taxes of that year.

The Cook County Assessor is responsible for the assessment of all taxable real property within Cook County, except for certain railroad property which is assessed directly by the state. The county is reassessed every three years by the Assessor.

The Illinois Department of Revenue has the statutory responsibility of ensuring uniformity of real property assessments throughout the state. Each year, the Illinois Department of Revenue furnishes the county clerks with an adjustment factor to equalize the level of assessment between counties at one-third of market value. This factor (the equalization factor) is then applied to the assessed valuation to compute the valuation of property to which the tax rate will be applied (the equalized assessed valuation). The equalization factor for Cook County was 2.9786 for 2008.

The County Clerk adds the equalized assessed valuation of all real property in the county to the valuation of property assessed directly by the state (to which the equalization factor is not applied) to arrive at the base amount (the assessment base) used to calculate the annual tax rates, as described above. The equalized assessed valuation for the extension of the 2008 tax levy was \$3,294,285,944.

Property taxes are collected by the Cook County Collector/Treasurer who remits them to the School Treasurer. Taxes levied in one year become due and payable in two installments on March 1 and approximately September 1 during the following year. The first installment is an estimated bill, and is one-half of the prior year's tax bill. The second installment is based on the current levy, assessment, and equalization, and any changes from the prior year will be reflected in the second installment bill.

NOTES TO THE FINANCIAL STATEMENTS

June 30, 2009

NOTE D - PROPERTY TAXES RECEIVABLE (Continued)

The portion of the 2008 property tax levy not received by June 30 is recorded as a receivable, net of estimated uncollectibles of 2%. The net receivable collected within the current year or due and expected to be collected soon enough thereafter to be used to pay liabilities of the current period, less the taxes collected soon enough after the end of the previous fiscal year are recognized as revenue. Such time, thereafter, does not exceed 60 days. Net taxes receivable less the amount expected to be collected within 60 days is reflected as unearned revenue.

NOTE E - CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2009 was as follows:

	Beginning Balance	Increases	Decreases	Ending Balance
Capital assets, not being depreciated			_	
Land \$	375,427 \$	\$.	<u> </u>	375,427

2025 - 2027	3,810,000	4,145,589	7,955,589
	\$ 24,225,000 \$	15,760,728 \$	39,985,728

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2009

NOTE F - LONG-TERM LIABILITIES (Continued)

1. General Obligation Bonds (Continued)

These payments will be made from amounts budgeted from the debt service tax levies in future periods. There is \$1,650,290 in the Debt Service Fund to service the outstanding bonds payable. As of June 30, 2009, the District was in compliance with all significant bond covenants.

The District is subject to the Illinois School Code, which limits the bond indebtedness to 6.9% of the most recent available equalized assessed valuation of the District. As of June 30, 2009, the statutory debt limit for the District was \$227,305,730, of which \$205,223,378 is fully available.

NOTE G - RISK MANAGEMENT

The District is exposed to various risks of loss related to employee health benefits; worker's compensation claims; theft of, damage to, and destruction of assets; and natural disasters. To protect from such risks, the District participates in the following public entity risk pools: the Collective Liability Insurance Cooperative (CLIC) for property damage, injury claims, torts, errors, and omissions; the School Employees Loss Fund (SELF) for worker's compensation claims; and the Excess Liability Fund for excess liability coverage. The District pays annual premiums to the pools for insurance coverage. The arrangements with the pools provide that each will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of certain levels established by the pools. The agreement with SELF provides that members are responsible up to the District loss requirement. Third-party insurance is purchased for losses in excess of that requirement. There have been no significant reductions in insurance coverage from coverage in any of the past three fiscal years.

The District continues to carry commercial insurance for all other risks of loss, including torts and professional liability insurance. Premiums have been recorded as expenditures in the appropriate funds. There have been no significant reductions in insurance coverage from coverage in the prior years. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2009

NOTE H- RETIREMENT FUND COMMITMENTS

1. Teachers' Retirement System of the State of Illinois

The District participates in the Teachers' Retirement System of the State of Illinois (TRS). TRS is a cost-sharing, multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the city of Chicago.

The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action, with the Governor's approval. The state of Illinois maintains the primary responsibility for funding the plan, but contributions from participating employers and members are also required. The TRS Board of Trustees is responsible for the System's administration.

TRS members include all active nonannuitants who are employed by a TRS-covered employer to provide services for which teacher certification is required. The active member contribution rate for the year ended June 30, 2009 was 9.4 percent of creditable earnings. These contributions, which may be paid on behalf of the employees by the employer, are submitted to TRS by the employer. The active member contribution rate was also 9.4 percent for the years ended June 30, 2008 and 2007.

The state of Illinois makes contributions directly to TRS on behalf of the District's TRS-covered employees.

On-behalf Contributions

The state of Illinois makes employer pension contributions on behalf of the District. For the year ended June 30, 2009, the state of Illinois contributions were based on 17.08 percent of creditable earnings not paid from federal funds, and the District recognized revenue and expenditures of \$4,653,889 in pension contributions that the state of Illinois paid directly to TRS. For the years ended June 30, 2008 and June 30, 2007, the state of Illinois contribution rates as percentages of creditable earnings not paid from federal funds were 13.11%, or \$3,434,156, and 9.78%, or \$2,480,643, respectively.

The state contributions to TRS for the years ended June 30, 2009 and June 30, 2008 were based on an actuarial formula. The state contribution for the year ended June 30, 2007 was based on a dollar amount specified by the statute and was not actuarially determined.

The District makes other types of employer contributions directly to TRS.

NOTES TO THE FINANCIAL STATEMENTS

<u>June 30, 2009</u>

NOTE H - RETIREMENT FUND COMMITMENTS (Continued)

1. Teachers' Retirement System of the State of Illinois (Continued)

2.2 Formula Contributions

Employers contributed 0.58 percent of total creditable earnings for the 2.2 formula change. This rate is specified by statute. Contributions for the year ended June 30, 2009 were \$157,974. Contributions for the years ended June 30, 2008 and June 30, 2007 were \$151,931 and \$147,114, respectively.

Federal and Special Trust Fund Contributions

When TRS members are paid from federal and special trust funds administered by the District, there is a statutory requirement for the District to pay an employer pension contribution from those funds. Under a policy adopted by the TRS Board of Trustees that was first effective for the fiscal year ended June 30, 2006, employer contributions for employees paid from federal and special trust funds will be the same as the state contribution rate to TRS.

For the year ended June 30, 2009, the employer pension contribution was 17.08 percent of salaries paid from federal and trust funds. For the year ended June 30, 2008, the employer pension contribution was 13.11 percent of salaries paid from those funds. For the year ended June 30, 2007, the employer pension contribution was 9.78 percent of salaries paid from those funds. For the year ended June 30, 2009, salaries totaling \$526,989 were paid from federal and trust funds that required employer contributions of \$90,010. For the years ended June 30, 2008 and June 30, 2007, required District contributions were \$69,133 and \$25,024, respectively.

Early Retirement Option (ERO)

The District is also required to make one-time employer contributions to TRS for members retiring under the Early Retirement Option (ERO). The payments vary depending on the age and salary of the member and under which ERO program the member retires.

Under Public Act 94-0004, a "Pipeline ERO" program was provided for members to retire under the same terms as the ERO program that expired on June 30, 2005, provided they met certain conditions and retired on or before July 1, 2007. If members did not meet these conditions, they can retire under the "Modified ERO" program, which requires higher member and employer contributions to TRS. Also, under the "Modified ERO", Public Act 94-0004 eliminates the waiver of member and employer ERO contributions that had been in effect for members with 34 years of service (unless the member qualified for the "Pipeline ERO").

Under the "Pipeline ERO", the maximum employer contribution was 100 percent of the member's highest salary used in the final average salary calculation.

NOTES TO THE FINANCIAL STATEMENTS

June 30, 2009

NOTE H - RETIREMENT FUND COMMITMENTS (Continued)

1. Teachers' Retirement System of the State of Illinois (Continued)

Early Retirement Option (ERO) (Continued)

Under the "Modified ERO", the maximum employer contribution is 117.5 percent.

Both the 100 percent and 117.5 percent maximums apply when the member is age 55 at retirement.

For the year ended June 30, 2009, the District paid \$145,383 to TRS for employer contributions under the "Pipeline ERO" and "Modified ERO" programs. For the years ended June 30, 2008 and June 30, 2007, the District paid \$0 in employer ERO contributions.

Salary Increased Over 6 percent and Excess Sick Leave

Public Act 94-0004 added two additional employer contributions to TRS.

If an employer grants salary increases over 6 percent and those salaries are used to calculate a retiree's final average salary, the employer makes a contribution to TRS. The contribution will cover the difference in actuarial cost of the benefit based on actual salary increases and the benefit based on salary increases of up to 6 percent.

For the year ended June 30, 2009, the District paid \$0 to TRS for employer contributions due on salary increases in excess of 6 percent. For the years ended June 30, 2008 and June 30, 2007, the District paid \$0 and \$0, respectively, to TRS for employer contributions due on salary increases in excess of 6 percent.

If an employer grants sick leave days in excess of the normal annual allotment and those days are used as TRS service credit, the employer makes a contribution to TRS. The contribution is based on the number of excess sick leave days used as service credit, the highest salary used to calculate final average salary, and the TRS total normal cost rate (18.67 percent of salary during the year ended June 30, 2009).

For the year ended June 30, 2009, the District paid \$0 to TRS for sick leave days granted in the excess of the normal annual allotment. For the years ended June 30, 2008 and June 30, 2007, the District paid \$0 and \$0, respectively, in employer contributions granted for sick leave days.

TRS financial information, an explanation of TRS benefits, and descriptions of member, employer, and state funding requirements can be found in the TRS *Comprehensive Annual Financial Report* for the year ended June 30, 2008. The report for the year ended June 30, 2009 is expected to be available in late 2009.

NOTES TO THE FINANCIAL STATEMENTS

June 30, 2009

NOTE H - RETIREMENT FUND COMMITMENTS (Continued)

1. Teachers' Retirement System of the State of Illinois (Continued)

The reports may be obtained by writing to the Teachers' Retirement System of the State of Illinois, P.O. Box 19253, 2815 West Washington Street, Springfield, Illinois 62794-9253. The most current report is also available on the TRS Web site at trs.illinois.gov.

THIS Fund Employer Contributions

The District participates in the Teachers' Health Insurance Security (THIS) Fund, a cost-sharing, multiple-employer defined benefit postemployment healthcare plan that was established by the Illinois legislature for the benefit of Illinois public school teachers employed outside the city of Chicago. The THIS Fund provides medical, prescription, and behavioral health benefits, but does not provide vision, dental, or life insurance benefits to annuitants of the Teachers' Retirement System (TRS). Annuitants may participate in the state-administered participating provider option plan or choose from several managed care options.

The State Employees Group Insurance Act of 1971 (5 ILCS 375) outlines the benefit provisions of the THIS Fund, and amendments to the plan can be made only by legislative action with the Governor's approval. The Illinois Department of Healthcare and Family Services (HFS) and the Illinois Department of Central Management Services (CMS) administer the plan, with the cooperation of TRS. The Director of HFS determines the rates and premiums for annuitants and dependent beneficiaries and establishes the cost-sharing parameters. Section 6.6 of the State Employees Group Insurance Act of 1971 requires that all active contributors to the TRS who are not employees of the state make a contribution to the THIS Fund.

The percentage of employer-required contributions in the future will be determined by the Director of Healthcare and Family Services and will not exceed 105 percent of the percentage of salary actually required to be paid in the previous fiscal year.

On-behalf Contributions to the THIS Fund

The state of Illinois made employer retiree health insurance contributions on behalf of the District. State contributions are intended to match contributions to the THIS Fund from active members which were .84 percent of pay during the year ended June 30, 2009. State of Illinois contributions were \$228,880, and the District recognized revenue and expenditures of this amount during the year.

State contributions intended to match active member contributions during the years ended June 30, 2008 and 2007 were 0.84 and .80 percent of pay, respectively. State contributions on behalf of District employees were \$558,249 and \$202,916, respectively.

NOTES TO THE FINANCIAL STATEMENTS

June 30, 2009

NOTE H - RETIREMENT FUND COMMITMENTS (Continued)

1. Teachers' Retirement System of the State of Illinois (Continued)

Employer Contributions to the THIS Fund

The District also makes contributions to the THIS Fund. The employer THIS Fund contribution was .63 percent during the year ended June 30, 2009 and .63 and .60 percent during the years ended June 30, 2008 and 2007. For the year ended June 30, 2009, the District paid \$171,660 to the THIS Fund. For the years ended June 30, 2008 and June 30, 2007, the District paid \$165,028 and \$152,187 to the THIS Fund, respectively, which was 100 percent of the required contribution.

The publicly available financial report of the THIS Fund may be obtained by writing to the Department of Healthcare and Family Services, 201 S. Grand Ave., Springfield, Illinois 62763-3838.

2. Illinois Municipal Retirement Fund

Plan Description

The District's defined benefit pension plan for regular employees provides retirement and disability benefits, postretirement increases, and death benefits to plan members and beneficiaries. The District plan is affiliated with the Illinois Municipal Retirement Fund (IMRF), an agent, multiple-employer plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained on-line at www.imrf.org.

Funding Policy

As set by state statute, the District's regular plan members are required to contribute 4.5 percent of their annual covered salary. The statute requires the District to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The employer contribution rate for calendar year 2008 was 7.58 percent of annual covered payroll. The District also contributes for disability benefits, death benefits, and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by state statute.

NOTES TO THE FINANCIAL STATEMENTS

<u>June 30, 2009</u>

NOTE H - RETIREMENT FUND COMMITMENTS (Continued)

2. Illinois Municipal Retirement Fund (Continued)

Annual Pension Cost

For 2008, the District's annual pension cost of \$882,769 for the regular plan was equal to the District's required and actual contributions.

	Trend Information								
Actuari Valuatio Date		Annual Pension Cost (APC)	Percentage of APC Contributed		Net Pension Obligation				
12/31/0	8 \$	882,769	100%	\$	-				
12/31/0	7	825,915	100%		_				
12/31/0	6	878,563	1 00%		-				

The required contribution was determined as part of the December 31, 2006 actuarial valuation using the entry age actuarial cost method. The actuarial assumptions at December 31, 2006 included (a) 7.5 percent investment rate of return (net of administrative and direct investment expenses), (b) projected salary increases of 4 percent a year, attributable to inflation, (c) additional projected salary increases ranging from 0.4 percent to 11.6 percent per year depending on age and service, attributable to seniority/merit, and (d) postretirement benefit increases of 3 percent annually. The actuarial value of the District's regular plan assets was determined using techniques that spread the effects of short-term volatility in the market value of investments over a five-year period with a 20 percent corridor between the actuarial and market value of assets. The District's regular plan's unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at December 31, 2006 was 24 years.

Funded Status and Funding Progress

As of December 31, 2008, the most recent actuarial valuation date, the regular plan was 78.87 percent funded. The actuarial accrued liability for benefits was \$25,267,715 and the actuarial value of assets was \$19,929,363, resulting in an underfunded actuarial accrued liability (UAAL) of \$5,338,352. The covered payroll (annual payroll of active employees covered by the plan) was \$11,646,024, and the ratio of the UAAL to the covered payroll was 45.84 percent.

The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2009

NOTE H - RETIREMENT FUND COMMITMENTS (Continued)

3. Social Security/Medicare

Employees not qualifying for coverage under the Illinois Teachers' Retirement System or the Illinois Municipal Retirement Fund are considered "nonparticipating employees". These employees and those qualifying for coverage under the Illinois Municipal Retirement Fund are covered under Social Security/Medicare. The District paid the total required contribution for the current fiscal year.

NOTE I - OTHER POSTEMPLOYMENT BENEFITS

Plan Description

The District administers a single-employer defined benefit healthcare plan ("the Retiree Health Plan"). The plan provides the ability for retirees and their spouses to access the District's group health insurance plan during retirement, provided they are on the group health insurance plan at the time of retirement. Effective in 2008, only Illinois Municipal Retirement (IMRF) retirees may access the health insurance plan during retirement years. If a retiree elects to leave the health plan he/she may not return to the plan in a future year. Retirees are responsible to contribute a premium toward the cost of their insurance. Retirees may also access dental and life insurance benefits on a "direct pay" basis. For 2009, a total of 32 former employees or spouses accessed postemployment benefit(s) through the District.

Funding Policy

Retirees under the age of 65 contribute the full Consolidated Omnibus Budget Reconciliation Act (COBRA) equivalent rate. The contributions required by the District are negotiated between the District and union representatives. Retirees who are Medicare eligible may access a Medicare supplemental policy through the District. Currently, the District contributes nothing to the postemployment benefits.

Annual OPEB Cost and Net OPEB Obligation

The District's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the District's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in the District's net OPEB obligation to the Retiree Health Plan:

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2009

NOTE I - OTHER POSTEMPLOYMENT BENEFITS (Continued)

Funding Status and Funding Progress

As of June 30, 2009, the actuarial accrued liability for benefits was \$3,304,376, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) and the ratio of the unfunded actuarial accrued liability to the covered payroll were not available.

The projection of future benefit payments for an ongoing plan involved estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The following simplifying assumptions were made:

Contribution rates:

District N/A

Plan members 0.00%

Actuarial valuation date 7/1/2008

Actuarial cost method Projected Unit Credit

Amortization period Level dollar

Remaining amortization period 30 years

NOTES TO THE FINANCIAL STATEMENTS <u>June 30, 2009</u>

NOTE I - OTHER POSTEMPLOYMENT BENEFITS (Continued)

Methods and Assumptions (Continued)

Asset valuation method Not Applicable

Actuarial assumptions:

Investment rate of return* 3.00%
Projected salary increases 5.00%

Healthcare inflation rate 8.80% initial 5.00% ultimate

Mortatility, Turnover, Disability,

Retirement ages Same rate utilized for IMRF

Percentage of active employees assumed to elect benefit 100 % of Teachers

95 % of Support Staff

Employer provided benefit Certified Teachers: \$1,500/ yr

up to five years.

Support Staff: Cost of single

coverage up to 5 years

NOTE J - INTERFUND TRANSFERS

The District transferred \$39,473 of interest to the General (Educational) Fund from the Working Cash Fund. The District transferred bond proceeds of \$9,892,425 from Working Cash to the Operations and Maintenance Fund and \$9,088,043 from the Operations and Maintenance Fund to the Capital projects Fund for repair and maintenance projects.

^{*}Includes inflation at 3.00%

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2009

NOTE K - CONTINGENCIES

1. Litigation

The District is not involved in any significant litigation that would materially affect the balances reported at June 30, 2009. With regard to other pending matters, the eventual outcome and related liability, if any, are not determinable at this time. No provision has been made in the accompanying financial statements for settlement costs.

2. Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

NOTE L - COMMITMENTS

The District has entered into certain contracts for construction in the next fiscal year. Commitments under these contracts approximate \$2,300,000.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION <u>June 30, 2009</u>

1. LEGAL COMPLIANCE AND ACCOUNTABILITY - BUDGETS

The Board of Education follows these procedures in establishing the budgetary data reflected in the financial statements:

- a) The Administration submits to the Board of Education a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them.
- b) Public hearings are conducted and the proposed budget is available for inspection to obtain comments.
- c) By September 30, the budget is legally adopted through passage of an ordinance. By the last Tuesday in December each year, a tax levy ordinance is filed with the County Clerk to obtain tax revenues.
- d) Management is authorized to transfer budget amounts, provided funds are transferred between the same function and object codes. The Board of Education is authorized to transfer up to a legal level of 10% of the total budget between functions within a fund; however, any revisions that alter the total expenditures of any fund must be approved by the Board of Education after the public hearing process mandated by law.
- e) Formal budgetary integration is employed as a management control device during the year for the governmental funds.
- f) Budgetary control is maintained at line-item levels and built up into program and/or cost centers before being combined to form totals by fund. All actual activity compared to budget is available to the District's management in real time. These expenditure reports list each item's year-to-date expenditure, budget amount, and account balance.
- g) The budget amounts shown in the financial statements are as originally adopted by the Board of Education on September 22, 2008.
- h) All budget appropriations lapse at the end of the fiscal year.

NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION

<u>June 30, 2009</u>

2. BUDGET RECONCILIATIONS

The statement of revenues, expenditures, and changes in fund balance - governmental funds (GAAP basis) includes "on-behalf" payments received and made for the amounts contributed by the state of Illinois for the employer's share of the Teachers Retirement System pension. The District does not budget for these amounts. The differences between the budget and GAAP basis are as follows:

	Revenues	Expenditures
General fund budgetary basis	\$ 52,208,500	\$ 53,945,157
To adjust for on-behalf payments received	4,882,769	-
To adjust for on-behalf payments made	-	4,882,769
General fund GAAP basis	\$ 57,091,269	\$ 58,827,926

3. EXPENDITURES IN EXCESS OF BUDGETS

The following funds had expenditures in excess of budgets at June 30, 2009:

	<u>Variance</u>
General (Educational) Fund	\$660,406
Transportation Fund	44,883
Municipal Retirement/Social Security Fund	88,669
Tort Immunity and Judgment Fund	8,251

Statistical Section

This part of the District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District.

<u>Contents</u>	<u>Page</u>
Financial Trends	
These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.	87
Revenue Capacity	
These schedules contain information to help the reader assess the District's most significant local revenue source, the property tax.	93
Debt Capacity	
These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the District's ability to issue additional debt in the future.	97
Demographic and Economic Information	
These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.	101
Operating Information	
These schedules contain information about the District's service and resources to help the reader understand how the District's financial information relates to the services the District provides and the activities it performs.	103

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The District implemented Statement 34 in 2003; schedules presenting government-wide information include information beginning in that year.
