SCHOOL, DISTRICT, AND STATE PUBLIC ACCOUNTABILITY REPORT

OCTOBER MEMBERSHIP

The following table provides information on the composition of the student population at the school, district and state levels.

Racial/Ethnic Group	Number of Students Enrolled in October School		ool %	District %		State %		
	Female	Male	2015-16	2014-15	2015-16	2014-15	2015-16	2014-15

	 		4.0	

Note: N/A indicates no student membership for that subgroup, and # represents a population fewer than 10.

High School Dropout Rate

Dropouts are students who leave school before graduation and do not enroll in another institution or educational program before the end of the school year. Percentages show by race and gender the proportion of students who dropped out of school from the total enrollment in grades 9 through 12.

	School %		Distr	ict %	Stat	e %

POSTSECONDARY FOLLOW-UP DATA

Shown in the tables are the reported numbers of 2011-12 (calendar year) graduates who enrolled in institutions of higher education (IHE) which include public community colleges or universities within 16 months of high school graduation.

College Going

^{*} At-risk students are students whose test scores entering high school qualify for inclusion in the lowest performing 25%.

TOTAL				75	66		
Note: N/A indicates no student membership for that subgroup, and # represents a population fewer than 10.							

^{*}Enrollment in an IHE includes students enrolled in any institution of higher education that participates in the National Student Clearinghouse.

STUDENT PERFORMANCE

Florida Statewide, Standardized Assessments

The Florida Standards Assessments (FSA) measure students' mastery of the Florida Standards and are administered to students in grades 3-10 in English language arts (ELA) and grades 3-8 in mathematics as well as in Algebra 1, Geometry, and Algebra 2. In science, Florida administers the Statewide Science Assessment in grades 5 and 8 and the Biology 1 End-of-Course (EOC) assessment, aligned to the Next Generation Sunshince State Standards (NGSSS).

Florida Standards Alternate Assessment (FSAA) for Students with Disabilities

The FSAA is designed for students whose participation in the general statewide assessment (FSA, Statewide Science Assement and EOCs) is not appropriate, even with accommodations. The FSAA measures student academic performance on the Florida Standards Access Points (FS-AP) in language arts (reading, writing), mathematics and science. In these subject areas, it is administered in grades 3-10 in ELA, grades 3-8 in Mathematics, Algerbra 1, Geometry, grades 5 and 8 in Science and Biology 1. The FSAA was administered for the first time in 2015-16. It replaces the Florida Alternate Assessment (FAA), which measured the Next Generation Sunshine State Standards Access Points (NGSSS-AP) in language arts (reading, writing), mathematics and science.

Accountability Assessment Results by Subject

Assessment results in the following tables reflect scores on FSA or NGSSS assessments. For mathematics and science, results include EOC assessment results, as applicable. Results show satisfactory attainment for students who were in attendance during both semesters of the school year.

English Language Arts, Mathematics and Science Assessments

On the FSA, students can attain one of five possible achievement levels, ranging from Level 1 (lowest) to Level 5 (highest), with scores at Level 3 or higher designated as satisfactory. Standard setting for the Florida Standards Alternate Assessment will occur in Spring 2017 when the number of achievement levels will be set.

Recently Arrived English Language Learners (ELLs)

Florida students in ESOL programs who have been in the U.S. less than one year are required to be tested on the Assessing Comprehension and Communication in English state-to-state for English Language Learners 2.0 (ACCESS for ELL 2.0) as well as on a state mathematics assessment, but may be exempt for up to one administration of the FSA ELA (writing and reading). These students' test scores are not included in the current year's proficiency calculations for math and reading as a

^{**}Students enrolled in ESOL in the current year.

flexibility provision approved for Florida by the U.S. Department of Education. The ESEA SPAR chart shows the number of recently arrived ELL students who are not included in the mathematics and reading proficiency calculations for accountability purposes.

ELL	School	District	State

National Assessment of Educational Progress (NAEP)

Below are the 2015 NAEP state results for grades 4 and 8 in reading and mathematics. Main NAEP, conducted at the state and national level, occurs every two years in reading and mathematics, every four years in science, and periodically in writing. A representative sample of the student population participates, and each student takes only a portion of the assessment. Results are then assembled to form projected state and national scores, based on aggregated student results. NAEP does not provide school- or student-level results.

1. Scale Scores

A scale score is derived from an averaging of scores of student responses to NAEP assessment items on a 0-500 point scale. Scale scores summarize the overall level of performance attained by a group of students. (NAEP does not produce scale scores for individual students.) When used in conjunction with interpretive aids, such as item maps, scale scores provide information about what a particular aggregate of students in the population knows and can do.

2. Achievement Level

Achievement levels are based on scale scores and define the degree to which student performance meets expectations of what students should know and be able to do. The achievement levels are **Basic, Proficient, and Advanced**. Below Basic is also reported but not considered to be an achievement level.

The following chart provides an approximate camparison of NAEP & FSA achievement levels:

FSA Achievement Levels	NAEP Achievement Standards
5	Advanced
4	Proficient
2-3	Basic

1	Below Basic
·	Boion Basis

NAEP Participation Rates for Required Subgroups

The chart below shows, for the sample of Florida schools selected to take the grade 4 and grade 8 math and reading assessments, the percentage of Students with Disabilities (SWDs) and English language learners (ELLs) in the tested grades who were tested on each assessment. The goal established by the National Assessment Governing Board (NAGB) is 85% inclusion.

Additional information is provided on the NAEP website at http://www.nces.ed.gov/nationsreportcard/or on the FLDOE website at http://www.fldoe.org/accountability/assessments/national-international-assessments/.

International Surveys

Trends in International Mathematics and Science Study (TIMSS) is an international comparative study of student performance in mathematics and science at the fourth- and eighth grade levels which is conducted every four years. It collects data on achievement, experiences, and attitudes of fourth and eighth-grade students in the United States and students in the equivalent grades in other participating countries, as well as information on classroom and school contexts. This study is administered every four years. Florida's objective is to meet the performance of the 10th ranked country.

Trends in International Mathematics and Science Study (TIMSS) 2015

	High Interna	tional Benchmark and Higher
	Florida	Annual Objective
Grade 4 Mathematics	49%	47%
Grade 8 Mathematics	28%	38%
Grade 4 Science	51%	50%
Grade 8 Science	35%	43%

Progress in International Reading Literacy Study (PIRLS) is an international comparative study conducted every five years of the reading literacy of young students. It collects data on the reading achievement, experiences, and attitudes of fourth-grade students in the United States and students in the equivalent of fourth grade in other participating countries, as well as information on students' classroom and school contexts. Florida's objective is to meet the performance of the 10th ranked country.

Progress in International Reading Literacy Study (PIRLS) 2011

	High International Benchmark and Higher						
	Florida	Annual Objective					
Grade 4 Reading	61%	54%					

Program for International Student Assessment (PISA) conducted every three years is an international assessment that measures 15-year-old students' reading, mathematics, and science literacy. It assesses students' applied knowledge and skills to problems within a real-life context as they near the end of compulsory schooling. PISA makes the assumption that as students transition to adult life, they need not only to comprehend what they read or to retain particular mathematical formulas or scientific concepts, but also to know how to apply their knowledge and skills in the many different situations they will encounter in their everyday lives. Florida's objective is to meet the performance of the 10th ranked country.

Program for International Student Assessment (PISA) 2012 Results - 15 year olds

	Florida	Target - 10th Ranked Country
Mathematics	18.7%	43.1%
Science Literacy	22.1%	36.8%
Reading Literacy	25.9%	36.7%

TEACHERS AND STAFF

New Staff

The table shows the number and percentage of instructional staff and school-based administrators who were newly hired at this school in 2015-16.

Staff Type	Total Number for 2015-16	Number Newly Hired for 2015-16	School %	District %	State %
Instructional Staff	64	5	7.8	17.7	18.7
School-Based Administrators	3	1	33.3	21.0	22.0
Total	67	6	9.0	17.8	18.9

The Professional Qualifications of Teachers

Degree Level

This table shows the number and percentage of teachers at each degree level.

		Scho	ol %	Distri	ict %	State %		
Degree Level	Number	2015-16	2014-15	2015-16	2014-15	2015-16	2014-15	
Bachelor's Degree	45	76.3	75.4	66.3	65.6	66.3	65.9	
Master's Degree	14	23.7	24.6	32.0	32.6	31.6	32.0	
Specialist Degree				0.9	1.1	1.0	1.1	
Doctorate				0.7	0.6	1.0	1.0	
Total All Degrees	59	100.0	100.0	100.0	100.0	100.0	100.0	

Percentage of Teachers Teaching with Emergency or Provisional Credentials

Florida has no uncertified teachers, although some teachers may be temporarily assigned to areas outside of their field of specialization. Data on classes taught by teachers out-of-field is provided in the following table.

In-Field and Out-of-Field Teachers

The following chart shows the percentage of core academic classes taught by teachers teaching infield compared to the percentage of classes taught by teachers teaching out-of-field. When a teacher in a district school system is assigned teaching duties in a class dealing with subject matter that is outside the field in which the teacher is certified, outside the field that was the applicant's minor field of study, or outside the field in which the applicant has demonstrated sufficient subject area expertise, as determined by district school board policy in the subject area to be taught, that teacher is teaching "out-of-field." Core academic subjects are English, reading, language arts, mathematics, science, foreign languages, civics, government, economics, arts, history and geography.

	School %	District %	State %
Percentage of Classes with Teachers Teaching In-Field	100.0	98.5	92.3
Percentage of Classes with Teachers Teaching Out-of-Field	0.0	1.5	7.7

Classes Not Taught by Highly Qualified Teachers

The chart below shows the percentage of classes not taught by "Highly Qualified Teachers" in core academic subjects as defined in federal statute. A highly qualified teacher has earned at least a bachelor's degree and holds a Florida teaching certificate with appropriate certification for each core academic area of assignment. Core academic subjects are English, reading, language arts, mathematics, science, foreign languages, civics, government, economics, arts, history and geography.

	School %		District %		State %				
Classes Not Taught by Highly Qualified Teachers		All Schools	High-Poverty Schools*	Low-Poverty Schools*	All Schools	High-Poverty Schools*	Low-Poverty Schools*		
TOTAL	0.0	0.0	1.8	0.0	7.8	10.1	8.2		

^{*}High-poverty schools are schools ranking in the top 25% of schools based on the percentage of students eligible for free/reduced-price lunch. Low-poverty schools rank in the bottom quartile of schools based on free/reduced-price lunch enrollment. That is, low-poverty schools have the lowest enrollment in free/reduced-price lunch as a percentage of total membership.

FLORIDA SCHOOL PERFORMANCE GRADE AND AMOS FOR ESEA REPORTING

School Performance Grade

Public schools in Florida are graded annually based on student performance on state assessments and the percentage of students making learning gains. Schools are assigned a letter grade (A through F) corresponding with their rated performance, with grade "A" representing the highest performance rating and grade "F" representing a failed rating. A rating of "I" indicates that grading is incomplete. A grade of "N" indicates that the school is not graded. While the vast majority of Florida's schools receive a performance grade, certain types of schools are exempt from grading, including Department of Juvenile Justice (DJJ) facilities.

2015-16 School Performance Grade: A

Progress of the Lowest Performing 25% of Students, 2015-16

Components of the school grade calculation include learning gains of the lowest performing students in English language arts and mathematics, including the comprehensive and EOC assessments. The following table provides information on the points earned based on learning gains in the current year made by students in the lowest quartile.

School Results

Mathematics Low 25%, Points Earned* 2015-16

English Language Arts Low 25%, Points Earned* 2015-16

67 63

*Points are based on the weighted percentage of students making learning gains. Students who move from a lower level to level 4 are weighted at a factor of 1.1 in the numerator. Students who move from a lower level to level 5 are weighted at a factor of 1.2 in the numerator. Prior-year low performers who increased their scores by at least 33% beyond the minimum increase to qualify for gains are also weighted at a factor of 1.1 in the numerator.

For more information on school grades and grading procedures, contact your principal's office or your local school board or visit the School Grades web page at http://schoolgrades.fldoe.org.

Identified Schools for ESEA Flexibility

The table below indicates how schools in this district were identified for ESEA flexibility. Florida's list of Priority and Focus schools for ESEA Flexibility was frozen as of the 2013-14 list based on the transition requirements to the ESSA requirements. Focus schools were identified as schools for which the grade in 2013-14 was a "D" as well as Title 1 schools graded "C" or higher for which the federal four-year graduation rate was lower than 60%. Priority schools were identified as schools for which the 2013-14 grade was "F." Reward schools were schools that were graded "A"; improved a letter grade; were rated "Improving" in the school improvement rating system or improved a rating; or maintained a grade after having improved by two or more letter grades in the prior year.
