About This Year's AP Exams

- The health and safety of educators and students is the AP® Program's highest priority.
- As schools and communities navigate the challenges posed by the coronavirus (COVID-19) outbreak, we will support AP students with [free, optional virtual learning](#) and [at-home AP testing](#). These resources will give students the opportunity to earn the college credit and placement they've been working toward all year.
- Students remain eager to take AP Exams. We reached out to 18,000 AP students and they overwhelmingly indicated they want to complete this important step.
- We're confident that the vast majority of Higher Ed institutions will award credit as they have in the past. We've spoken with hundreds of institutions across the country who support our solution for this year's AP Exams.
- The AP Program will invest heavily in solutions that are designed to be as simple and lightweight as possible for both students and teachers—and avoid creating an additional burden for school leaders during this difficult time.

At-Home Testing

- For the 2020 AP Exam administration only, we developed secure, [online free-response exams for each course](#).
- The exam content will only include topics and skills most AP teachers and students have already covered in class by early March.
- Students will be able to take these streamlined exams on any device they have access to—computer, tablet, or smartphone. Taking a photo of handwritten work will also be an option.
- Like many college-level exams, this year’s AP Exams will be open book/open note.
- These streamlined digital exams will not require any test booklet shipments, external proctors, or any additional workload for schools.

Additional details about format, scores, and security

Exam Format

- For most subjects, the exams will be 45 minutes, plus an additional 5 minutes for uploading. Students will need to access the online testing system 30 minutes early to get set up.
- 2-D Art and Design, 3-D Art and Design, Drawing, Computer Science Principles, Research, and Seminar will use portfolio submissions and will not have a separate online exam. All deadlines for these submissions have been extended to May 26, 2020 at 11:59 p.m. ET.
- Students taking world language and culture exams will complete two spoken tasks consistent with free-response questions 3 and 4 on the current AP Exam. Written responses will not be required.
- We'll provide more details in the coming weeks to help students prepare.

Exam Scores

- As usual, students' work will be scored by college faculty and AP teachers, and will be reported on 1–5 scale.
- We anticipate releasing scores as close to the usual July timeframe as possible.

Exam Security

- The exam format and questions are being designed specifically for an at-home administration, so points will not be earned from content that can be found in textbooks or online.
- Students may not consult with any other individuals during the testing period.
- A comprehensive and strict set of protocols are in place to prevent and detect cheating, and details will not be shared prior to exams.
- Students attempting to gain an unfair advantage will either be blocked from testing or their AP scores will be canceled, their high school will be notified as will colleges or other organizations to which they have already sent any College Board scores, including SAT scores. Student may be prohibited from taking a future Advanced Placement Exam as well as the SAT, SAT Subject Tests, or CLEP assessments.

Online AP Classes and Review

Free, Live AP Review Lessons

- Students and teachers now have access to [free, live AP review lessons](#), delivered by AP teachers from across the country. These optional, mobile-friendly classes are designed to be used alongside work that may be given by schools.
- These classes are available on-demand, so teachers and students can access them at any time.
- These on-line classes are not dependent on current AP teachers continuing instruction. We know many AP teachers now face challenges that would make that impossible.
- The lessons enable students to complete the few remaining topics of each AP class, and then focus on reviewing the skills and concepts from the first 75% of the course.

AP Classroom Resources

- Teachers who are already providing remote instruction can continue to leverage [AP Classroom](#), introduced at the start of the school year.
- Within AP Classroom, free-response questions that were only available for in-classroom use due to security concerns will now be unlocked.
- Teachers will be able to assign questions to students digitally.
- Starting April 13, students will see a new Optional Student Practice section that includes the most relevant FRQs to help them practice the concepts and skills that will be tested in May 2020. They can answer these in any order and will have an opportunity to review how each question will be scored before they submit.

Online AP Classes and Review

Period 10	6-6:45pm	World History: Modern	Physics C: E&M	French	Latin	•

What Should AP Students Know and Do?

Students can view the 2020 AP Exam updates and prepare for AP Exams.

Taking AP Exams

- AP Exams have been revised to about 45 minutes each and will be taken online, at home.
- AP Exams are scheduled for May 11-22, with make-up testing on June 1-5. We strongly encourage students to take their AP Exams during the main testing window.
- This year's exams focus on content most teachers covered prior to March. So this year's exams have been designed to honor and reward the good work students already did prior to widespread school closures.
- Colleges across the country are voicing strong support for students to complete the AP experience, take the exam, and receive the college credit they deserve. Colleges are especially supportive given the uncertain financial future many families face, and the value of students entering college with credit.
- Depending on a school's exam-taking policy, a student can opt-out of the exam if they prefer not to test this year; there will not be a \$40 cancellation fee.
- Students who need help with access to a device or internet can [let us know by April 24](#).

Preparing for AP Exams

- On AP Central, students can see [course-specific exam information](#), including exam dates and times, descriptions of what they'll be asked to do on their exam, tips for open book/open note test taking and more; exam features; exam scoring; and exam security.
- On YouTube, students can access daily, online AP classes and review at <https://youtube.com/advancedplacement>

Visit AP Central[®] for more information

We'll be updating the website with additional details as we have them.
