*Dear Class of 2024 and War Eagle Parents:*

Welcome to South Forsyth High School! We are excited for our new War Eagles and War Eagle Families to join us. While South Forsyth HS is known as a high achieving academic school, we emphasize relevance and relationships. Student ownership of learning is a high priority at South Forsyth High School. Your student will learn more about the many opportunities for student ownership that will be explained during our rising 9th grade parent and student events. It is all about being "South Strong." Building strong connections with our students, parents, staff, and community is a top priority. We strongly encourage your involvement in our school community and everything we have to offer.

**SOFOPALOOZA** will be held on **Saturday, March 7, from 9:00am to 11:00am at South Forsyth High School**. All students and parents should report to the Arena (Newest Gym) promptly by 9:00am. Parents please enter our campus using the Highway 141 entrance at the marquee and park in the main parking lot located in the front of the school. Staff members and student volunteers will be on hand to assist with directing you. While we will begin the program at 9:00am, feel free to arrive anytime between 9:00am and 10:30am to enjoy SOFOPALOOZA. We will also have a tethered hot air balloon experience (weather permitting) for rising Freshman only (parent must be present to sign waiver) on the practice field as we SOAR to new heights!

# MIDDLE SCHOOL TO HIGH SCHOOL

## *Making the Transition Easy*

### *Tips for Parents*

The transition to high school is an important period in the educational life of students. Higher standards in education have made it necessary for students to take on responsibility sooner as they enter high school. Students will need to develop new habits and skills that support their independence and academic success.

Parents may also need to change their approach to supporting their child's success, now that their student is in high school. Ninth grade is an especially critical year. It is a time when students learn new ways to succeed. Most ninth grade students enjoy the new level of freedom they experience in school, but they are often unaware of the responsibilities that come with it. In high school, students own the primary responsibility for their success in school. Students will need to be organized and self-motivated to do well.

Although high school students are responsible for the grades they earn, they will still need support from school and home to do well. Parents play a critical role in a student's development of the skills needed to succeed in high school. While parents will naturally work to foster a sense of independence and maturity in their student, they should not be shy about maintaining close supervision of their student's work in school. Parents should also feel comfortable keeping communication going with their student's teachers and school counselor.

The transition to high school can be a positive and exciting time for both students and parents. Students will want to be independent, but they still need direct support and supervision of parents. With attentive guidance and support of parents and the school, students can experience both the excitement and success of their high school years.

### High School is Different from Middle School

- It is important to study and review, even if no assignment is given.
- Students are expected to take on a larger role in keeping parents informed of their progress.
- Keeping up with assignments is the key to maintaining high grades.
- Students are expected to stay with the schedule they select. Schedule changes are not permitted after the first full week of school.
- South Forsyth has two semesters per school year. A grade is earned for each semester of a course. Then the two semester grades are combined to provide students with an overall course average.

### Ways to help

- Set a regular time for homework and study.
- Arrange a quiet and comfortable space at home that is used only for study.
- Remove distractions during study time.
- Allow your student to study with other students if that helps.
- Be available for help.
- Read all information that comes home from the school.
- Supervise your student's regular use of the calendar.
- Check your student's homework and study materials on a regular basis.
- Supervise the school work your student does at home.
- Communicate often with your student's teachers. The use of email has become a particularly effective method.
- Know the course requirements to earn a diploma in Georgia
