

Curriculum Guide

Teague Middle School

Seminole County Public Schools

Principal's Letter

January 2022

Welcome to Teague Middle School, where EVERY CHILD is valued, nurtured, and expected to be successful. We are committed to providing the best possible educational program for our students. My hope is that this curriculum guide will help parents and students become aware of opportunities here at Teague and allow for excellent planning as we partner with you to prepare our students for high school and beyond.

I urge parents to look not only at courses offered in their child's current grade, but also in the following grade. One of the most important things successful people do is use their time wisely. This curriculum guide will give you an overview of course opportunities available to you as you prepare for your future in high school and afterwards.

I urge you to carefully consider courses that will challenge you and prepare you to successfully complete and reach your potential. WE are here to support your efforts, because after all, when our students succeed, Teague succeeds!

Ask questions! We are here to assist you. Great plans and careful implementation lead to successful futures.

Prepare for greatness!

Dr. Connie Collins, Principal

Teague Middle School Contact Information

STUDENT PROGRESSION PLAN

1. **Middle School Instructional Program** - The Florida State Standards serve as the foundation of the middle school curriculum for Seminole County Public Schools. Student mastery of subject area content is monitored through teacher observation, assignment completion, and assessments.
2. **Florida State Assessment Program** - Middle school students are required to participate in the Florida state's accountability testing program.
3. **Core Academic Program Requirements** - Middle school students are required to receive 3 years of instruction in language arts, math, science, and social studies.
4. **Section 1003.455, Florida Statutes** - Requires the equivalent of one class period per day of physical education for one semester of each year for students in grades six through eight. The physical education requirement shall be waived for a student in grades kindergarten through grade eight who meets one of the following criteria:
 - The student is enrolled or required to enroll in a remedial course.
 - The student's parent indicates in writing each school year to the school that:
 1. The parent requests that the student enroll in another course from among those offered as options by the school district, OR
 2. The student is participating in physical activities outside the school day which are equal to or in excess of the mandated requirement.
5. **Grouping for Instruction** - Flexible grouping of middle school students that is developmentally appropriate, ethnically diverse, and instructionally sound is encouraged to increase student achievement. Any grouping of students must provide opportunities for regrouping of students during the school day in order to prevent the segregation or isolation of any student subgroup.
6. **Advanced Classes** - Enrollment in advanced core academic classes is open to any student who wishes to take on the challenge of a more rigorous curriculum that prepares students for higher-level courses in high school. Students are invited to enroll and are required to commit, in writing, to doing the extra studying and work required to be successful in these classes. Advanced classes are offered in math, language arts, science and social studies (6th, 7th, and 8th). Students who commit to taking an advanced level course must remain enrolled in that course for at least the first nine-week grading period.
7. **High School Credit Courses** - Middle school students enrolled in a high school credit course may not drop the course or transfer into a lower level course after the completion of the first nine week grading period.
8. **Vertical Acceleration** - Students demonstrating highly exceptional academic capabilities may be enrolled in single above-grade level courses or be promoted to a grade level above their current placement. Parents must petition the principal for permission for vertical acceleration. The principal will use the criteria identified in the Student Progression Plan to determine if vertical acceleration is appropriate. These decisions are made on a case-by case basis and the decision of the principal is final.
9. **Intensive Instructional Support** - Students who are not performing at grade level will be enrolled in intensive reading and/or math classes. Principals may substitute an intensive class for any course on a student's schedule. However, exploratory, enrichment, and elective classes will be given first consideration for schedule changes for academic support classes.

ADMISSIONS AND TRANSFERS

Admissions

- 1. Any child who has been promoted or assigned to grades 6, 7, or 8 will be admitted to middle school.**
- 2. Upon initial enrollment or transfer** from one attendance zone to another in Seminole County Public Schools, proof of residence must be presented. All addresses are subject to verification by the School Board. The following documents shall be required:
 - a. owned residence:** a copy of the recorded deed or agreement for the deed and a certified copy of declaration of homestead exemption. If these documents are unavailable, schools may accept **TWO** of the following documents: utility bill, auto registration, driver's license, or voter registration as proof that the parent(s) own and live at the residence.
 - b. rented or leased residence:** a copy of the lease, rental agreement, or a letter from the landlord.
 - c. divorced parents:** a certified copy of the final judgment of divorce, court custody order, a court guardianship order, or other such documents establishing the right of custody.
 - d. separated parents:** a notarized statement that the child actually lives in the home of the parent designated in the child's school records as the residential parent.
 - e. students NOT residing with parents:** submit form 893 and a letter stating why student is living with the residential adult.

First Entry to the State of Florida Schools:

Before admitting a student to Florida schools for the first time, the school must have received several documents required by *Florida Statutes* as outlined below:

- a.** a certificate showing a school-entry health examination performed within one year prior to enrollment.
- b.** a valid HRS 680 Florida Certificate of Immunization (kindergarten through grade 12).

Entry to Seminole County Public Schools from Schools within the State:

Before admission to Seminole County Public Schools from other Florida counties, a student must have a Florida Certificate of Immunization on file.

Transfers

- 1.** Any student who transfers from an in-state public or non-public school or out-of-state public or non-public school shall be admitted upon presentation of the following data:
 - a.** an official letter or transcript from a proper school authority which shows a record of attendance, academic information, and grade placement of the student;
 - b.** proof of immunization;
 - c.** proof of date of birth;
 - d.** proof of a medical examination completed within the last twelve months.
- 2.** When a student transfers into a Seminole County public school from a public or non-public school or from a home education program, it will be the responsibility of the principal to determine grade level placement.

ATTENDANCE

After an absence, immediately upon return to school but no later than two (2) school days following an absence, the student must provide the school with documentation indicating that one of the following has occurred if he/she wishes that absence(s) to be excused:

- Student illness
- Medical treatment by a licensed physician
- Observance of a religious holiday
- Law enforcement order or court subpoena
- Death of a family member

Parents/guardians of students are expected to provide an explanation of their child's absence(s) from school whenever such absences occur without the permission of the principal.

Note 1:* It is understood that on every occasion of sickness, a student will **NOT require medical attention by a licensed health care professional. Short term, non-chronic illnesses may be documented/explained via a signed parent note. In such circumstance, the student shall suffer no academic penalty, provided that all coursework, examinations, etc. are made up within a reasonable period of time. For continued absence due to illness of 10 or more days, a doctor/health professional's note is required.

**Note 2:* A "reasonable period of time" to make-up work defined as: At a minimum, the student shall have no less than the number of days he/she was absent plus, one extra day to complete and submit make-up work for credit. Specific arrangements must be made with the student's teacher.

Note 3:* A student who is absent is required to make up all coursework missed, regardless of whether the absence is excused or unexcused. It is the **student's responsibility to obtain assignments upon returning to class immediately following an absence.

GUIDANCE

Seminole County Middle School programs have been designed to meet the requirements of Title IX, which states, "No person in the United States shall, on the basis of sex, be denied the benefits of, or be subject to discrimination under any educational program or activity receiving federal assistance."

Contact your student's counselor with any scheduling questions.

Schedule Change Policy

Teague Middle School utilizes the Seminole County Public School automated scheduler to establish student schedules. The automated scheduler is programmed to ensure equity and balanced class sizes. Schedule changes will be made to correct misplacement; however, accommodations are NOT made to allow for parental preferences for teachers, lunch periods, or friends. Schedule-related problems should be discussed with the assigned school counselor.

GRADING POLICY

Upon completion of each nine-week grading period, a report card will be issued. Following is the grading system for Seminole County Public Schools, grades 6 – 8:

LETTER GRADE RANGE POINTS

A 90 - 100 (4)

B 80 - 89 (3)

C 70 - 79 (2)

D 60 - 69 (1)

F 59 and below (0)

W Withdrawal

I Incomplete

Any middle school student enrolled in a high school credit course will be graded in accordance with high school grading policies. The grade earned will become part of the official high school transcript.

E.S.O.L

The purpose of the ESOL program is to provide English instruction for students whose native language is not English. If a parent indicates on the student entry form that a language other than English is used most often in the home, the student will be given an English Proficiency Test (EPT) in order to determine the eligibility for the program. Once entered in the program, students are placed on one of three levels. A student may remain in the program for as long as needed. Dismissal from the program is based on achieving a passing score on a required exit exam.

EXCEPTIONAL STUDENT SUPPORT SERVICES

Exceptional student support services are available for the exceptional student in order to fully meet his/her needs. All exceptional student support services require staffing eligibility as determined by a student study team. Additional information on specific services or placement is available from the guidance office upon request. The following services are available at Teague Middle School:

Gifted Autism Spectrum Disorder (ASD)

Emotionally Behaviorally Disabled (EBD)

Mildly Intellectually Disabled (ID)

Speech and Language Therapy Specific Learning Disabilities (SLD)

INTENSIVE READING

Students who score at Level 1 or Level 2 on the FSA Reading in the previous grade shall be enrolled in and complete a full year intensive reading course. These courses have been developed by the Florida Center for Reading Research, use scientifically based interventions, and reflect differing levels of intensity (instructional time and class size) based on the student's reading level.

INTENSIVE MATH

This class is a support class to your child's regular math class. Students who score at Level 1 or a Level 2 on the FSA Mathematics in the previous grade shall be enrolled in and complete a full-year intensive math course. Students who score at Level 3 but have a high probability of regressing to Levels 1 or 2 may be placed in intensive math for additional support.

21st Century Choices for all 21st Century Students

Seminole County Schools recognizes that today's students learn in different ways, at different rates, and on different schedules. Our schools now offer the flexibility to accommodate today's students and families through a variety of choice programs that include magnet schools and programs of emphasis, as well as virtual options for full-time Kindergarten through grade twelve students and part-time virtual coursework for students in grades six through twelve. These programs offer a wide range of acceleration opportunities, as well as credit recovery and remediation, through blended schedules that permit students to take some face-to-face courses and some virtual courses, depending on each students' most optimal learning situation.

Seminole County students have the opportunity to choose the educational pathway-the ePathway- that best suits their learning style, personal interests, and academic strengths. Students will have a variety of course options, both core and elective, that can be taken in a modern classroom setting or in a virtual environment. Students may choose any blend of virtual and traditional classes, including a full-time schedule of online courses, while remaining publicly enrolled in their school, and participating in the extracurricular activities of their choice. Virtual classes can be taken either in a lab setting at the school or in their home environment.

Examples of the expanded choices include middle and high school computer labs that will be open for extended hours so students can access virtual classes beyond the school day, which allows students to either attend school during traditional hours or create a flexible schedule. High school students will also have the opportunity to participate in college level courses through the Advanced Placement Program, college dual enrollment and access to courses (including online courses) in the State University System. Students can matriculate credits towards an AA or AS degree while still enrolled in high school.

Elementary schools are designing plans to increase options for students to accelerate via virtual school coursework and unique environments for supporting both full time and part time virtual access. The goal is to provide flexibility and meet individual student needs.

Through these options, Seminole County students will experience a rigorous academic, individualized and flexible learning experience that best accommodates their individual needs, while participating in an array of extracurricular activities, performing arts, visual arts and athletic teams-the Triple A Experience.

MATH PROGRESSION

KINDERGARTEN THROUGH GRADE 12

***** Variations in course pathways available.

*Additional Math Support Courses

Additional math support courses are available for those students in grades 6-10 who need additional assistance.

**High School Options

Additional Courses	Advanced Placement	Dual Enrollment
Analysis of Functions	AP Calculus (AB)	College Algebra
Trigonometry	AP Calculus (BC)	Trigonometry
Probability and Statistics	AP Statistics	Differential Equations
Pre-Calculus		Calculus 3
Calculus Honors		
Math for College Readiness (MCR)		

NOTE: Math course options and prerequisites may vary based on location. Please check with your child's school for a complete list of additional math courses offered.

Math

Grade 6

Mathematics I - This course is designed to continue the development of mathematical concepts and processes that can be used to solve real world problems. The curriculum focuses on a review of basic operations with whole numbers and continues in depth with decimals and fractions. Rate, ratio, proportion and percent are presented along with patterns and number sense. Integers and algebraic concepts are introduced. Selected topics in geometry (i.e., terminology, transformations, and relationships) are taught as time permits. Measurement, estimation, and problem solving skills are studied.

Mathematics I Accelerated- This course is designed to continue the development of mathematical concepts and processes that can be used to solve real world problems. The curriculum includes understanding graphs, the structure and properties of rational numbers and equivalent representation of numbers including fractions, decimals, percent, and numbers with exponents, and absolute value. Emphasis is placed on the use of expressions, equations, formulas, data analysis, probability, and integers. Scale drawings, dimensional analysis, circles, solids, probability, and patterns in Algebra are introduced. This course is designed to prepare students for advanced mathematics courses.

GEMS Advanced/Gifted- (*Recommended Prerequisite 5th Grade PRIMES*) - This rigorous course combines content from 6th, 7th and 8th grades in order to prepare students to be successful in Algebra I Honors in 7th grade. Due to the quantity and rigor of material that students must learn for success in Algebra I Honors, **students will be expected to complete additional assignments and coursework outside of the classroom on the computer. This work will be completed using a “virtual bridge” that provides computer-based instruction and assessment that the teacher will integrate into work completed in the classroom.** Students who are successful in this program have the opportunity to be eligible for Geometry in the eighth grade.

Grade 7

Mathematics II - In Grade 7, instructional time should focus on four critical areas: (1) developing understanding of and applying proportional relationships; (2) developing understanding of operations with rational numbers and working with expressions and linear equations; (3) solving problems involving scale drawings and informal geometric constructions, and working with two- and three-dimensional shapes to solve problems involving area, surface area, and volume; and (4) drawing inferences about populations based on samples.

Mathematics II Accelerated- (*Recommended Prerequisite 6th Grade Mathematics I Advanced*) - In this Grade 7 Advanced Mathematics course, instructional time should focus on five critical areas: (1) solving problems involving scale drawings and informal geometric constructions, and working with two and three-dimensional shapes to solve problems involving area, surface area, and volume; (2) drawing inferences about populations based on samples; (3) formulating and reasoning about expressions and equations, including modeling an association in bivariate data with a linear equation, and solving linear equations and systems of linear equations; (4) grasping the concept of a function and using functions to describe quantitative relationships; and (5) analyzing two- and three-dimensional space and figures using distance, angle, similarity, and congruence, and understanding and applying the Pythagorean Theorem.

Algebra 1 Honors/Gifted - (*Recommended Prerequisite 6th Grade Mathematics I Advanced/GEMS*) The Standards for Mathematical Practice apply throughout each course and, together with the content standards, prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situa-

Math (continued)

Grade 8

Pre-Algebra - In Grade 8, instructional time should focus on three critical areas: (1) formulating and reasoning about expressions and equations, including modeling an association in bivariate data with a linear equation, and solving linear equations and systems of linear equations; (2) grasping the concept of a function and using functions to describe quantitative relationships; (3) analyzing two- and three-dimensional space and figures using distance, angle, similarity, and congruence, and understanding and applying the Pythagorean Theorem.

Algebra 1 Honors - (*Recommended Prerequisite 7th Grade Mathematics II Advanced*) - The fundamental purpose of this course is to formalize and extend the mathematics that students learned in the middle grades. The critical areas, called units, deepen and extend understanding of linear and exponential relationships by contrasting them with each other and by applying linear models to data that exhibit a linear trend, and students engage in methods for analyzing, solving, and using quadratic functions. The Standards for Mathematical Practice apply throughout each course and, together with the content standards, prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations. ***Students enrolled in this course must pass an End of Course Exam (EOC) to receive high school credit. 30% of a student's course grade shall be based on the EOC exam.**

Geometry Honors - (*Recommended Prerequisite 7th Grade Algebra I Honors*) - This course includes a rigorous, in-depth study of all the practical applications of geometric skills and concepts in the real world, as well as, but not limited to, truth tables, vectors, Fibonacci sequence, coordinate geometry, proofs involving circles and problems involving cross sections of solids. ***Students enrolled in this course must pass an End of Course Exam (EOC) to receive high school credit. 30% of a student's course grade shall be based on the EOC exam.**

Language Arts

Grade 6

Language Arts I - The sixth-grade language arts curriculum integrates writing, grammar and usage, literature, speaking, listening, and critical thinking skills. Students will enhance writing skills through the forms of personal narratives, expository, and persuasive writings. Reading skills will be reinforced through a variety of literature selections such as: short stories, novels, tales, poetry, myths and legends, drama, and nonfiction. Oral and written responses to literature, distinguishing characteristics of various genres, literary elements, and academic vocabulary study will be emphasized. ***All 6th grade students will participate in the Tropicana Speech Contest.**

Language Arts I Advanced/Gifted - The purpose of this course is to provide sixth grade students, using texts of high complexity, advanced integrated language arts study in reading, writing, speaking, listening, and language for college and career preparation and readiness. Through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted, students are challenged to think and collaborate critically on the content they are learning. This curriculum is blended and designed to be fast paced for those students who are self-motivated, reading and writing above grade level, and who enjoy the facets of language arts. ***All 6th grade students will participate in the Tropicana Speech Contest.**

Grade 7

Language Arts II - The seventh-grade language arts curriculum consists of literature, composition, grammar, spelling, and vocabulary. Reading skills will be reinforced through fiction, nonfiction, poetry, and drama with an emphasis on poetry. Students continue to build writing skills through expository and persuasive writing, literary response journals, and practice their oral communication skills through formal and informal speeches.

Language Arts (Continued)

Language Arts II Advanced/Gifted- The advanced language arts curriculum in seventh grade consists of literature, composition, grammar, spelling, and vocabulary and uses texts of high complexity that promotes advanced integrated language arts study in reading, writing, speaking, listening, and language for college and career preparation and readiness. Through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted, students are challenged to think and collaborate critically on the content they are learning. This curriculum is blended and designed to be fast paced for those students who are self-motivated, reading and writing above grade level, and who enjoy the facets of language arts. Reading skills will be reinforced through fiction, nonfiction, poetry, and drama. A wide range of writing activities that emphasize critical thinking and analysis of a novel are included.

Grade 8

Language Arts III - The eighth-grade language arts curriculum consists of reading, composition, speech, media literacy, literature, and vocabulary development. Students will read a variety of genres (short stories, novels, drama, poetry, nonfiction) for content and meaning while practicing reading strategies. Students will enhance their writing skills through persuasive and expository writing, producing a variety of finished products, including poems, summaries, reviews, and essays.

Language Arts III Advanced/Gifted- The advanced language arts curriculum in seventh grade consists of literature, composition, grammar, spelling, and vocabulary and uses texts of high complexity that promotes advanced integrated language arts study in reading, writing, speaking, listening, and language for college and career preparation and readiness. Through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted, students are challenged to think and collaborate critically on the content they are learning. Reading skills will be reinforced through fiction, nonfiction, poetry, and drama. A wide range of writing activities that emphasize critical thinking and analysis of a novel are included.

Science

Grade 6

6th Grade Comprehensive Science

6th Grade Comprehensive Science Advanced/Gifted

6th graders will take a revised science course that has been designed to support understanding through big ideas in science. While still based on the Next Generation Sunshine State Standards for Science, this course will allow students to learn content across six interconnected units that will build throughout middle school. The major concepts covered during 6th grade Comprehensive will be: *Classification of Organisms, Plate Tectonics, Atoms and Molecules, Ecosystems, Our Solar System, and The Geosphere and Cryosphere*. The class will be supported by digital content as well as hands-on, cooperative, and literacy-based activities. Advanced/Gifted students will be provided opportunities to dive deeper into the content and to make even more connections across science and with other disciplines.

Grade 7

7th Grade Comprehensive Science

7th Grade Comprehensive Science Advanced/Gifted

7th graders will take a revised science course that has been designed to support understanding through big ideas in science. While still based on the Next Generation Sunshine State Standards for Science, this course will allow students to learn content across six interconnected units that will build from the content covered in 6th grade and will be developed further in 8th grade. The major concepts covered during 7th grade Comprehensive will be: *Heredity, Weathering and Erosion, Cell Structure and Function, Homeostasis in Cells, Stars and Galaxies, and The Hydrosphere and Atmosphere*. The class will be supported by digital content as well as hands-on, cooperative, and literacy-based activities. Advanced/Gifted students will be provided opportunities to dive deeper into the content and to make even more connections across science and with other disciplines.

Science (Continued)

Grade 8

8th Grade Comprehensive Science **8th Grade Comprehensive Science Advanced/ Gifted**

Beginning in the 2018-2019 school year, 8th graders will take a revised science course that has been designed to support understanding through big ideas in science. While still based on the Next Generation Sunshine State Standards for Science, this course will allow students to learn content across six interconnected units that will build from the content covered in both 6th grade and 7th grade and will be developed further in 8th grade. The class will be supported by digital content as well as hands-on, cooperative, and literacy-based activities. Advanced/Gifted students will be provided opportunities to dive deeper into the content and to make even more connections across science and with other disciplines.

Grade 6

World History - The primary content for this course pertains to the world's earliest civilizations to the ancient and classical civilizations of Africa, Asia, and Europe. Students will be exposed to the multiple dynamics of world history including geography, politics, and religion/philosophy. Students will study methods of historical inquiry and primary and secondary historical documents.

World History Advanced/Gifted - The following content area strands: World History, Geography, Civics, and Economics are covered throughout this curriculum. The primary content for this course pertains to the world's earliest civilizations and the ancient and classical civilizations of Africa, Asia, and Europe. Students will be exposed to the multiple dynamics of world history including economics, geography, politics, and religion/philosophy. Students will study methods of historical inquiry and primary and secondary historical documents.

Social Studies

Grade 7

Civics - The primary content for the course pertains to the principles, functions, and organization of government; the origins of the American political system; the roles, rights, responsibilities of United States citizens; and methods of active participation in our political system. ***Students enrolled in this course will take an End of Course exam (EOC) which will count for 30% of the final grade earned.**

Civics Advanced/Gifted - The primary content for the course pertains to the principles, functions, and organization of government; the origins of the American political system; the roles, rights, responsibilities of 17 United States citizens; and methods of active participation in our political system. The course is embedded with strong geographic and economic components to support civic education instruction. ***Students enrolled in this course will take an End of Course exam (EOC) which will count for 30% of the semester grades earned.**

Grade 8

United States History - Primary content emphasis for this course pertains to the study of American history from the Exploration and Colonization period to the Reconstruction Period following the Civil War. Students will be exposed to the historical, geographic, political, economic, and sociological events which influenced the development of the United States and the resulting impact on world history. So that students can clearly see the relationship between cause and effect in historical events, students should have the opportunity to explore those fundamental ideas and events which occurred after Reconstruction.

Social Studies (Continued)

Grade 8

United States History Advanced - Primary content emphasis for this course pertains to the study of American history from the Exploration and Colonization period to the Reconstruction Period following the Civil War. Students will be exposed to the historical, geographic, political, economic, and sociological events which influenced the development of the United States and the resulting impact on world history. Advanced courses offer scaffold learning opportunities for students to develop the critical skills of analysis, synthesis, and evaluation in a more rigorous and reflective academic setting. Students are empowered to perform at higher levels as they engage in the following: analyzing historical documents and supplementary readings, working in the context of thematically categorized information, becoming proficient in notetaking, emphasizing free-response and document-based writing, contrasting opposing viewpoints, solving problems, etc. Students will develop and demonstrate their skills through participation in an extended research-based paper/project (e.g., History Fair Project, participatory citizenship project, mock congressional hearing, or other teacher-directed projects). This course is designed to prepare students for Honors and/or Advanced Social Studies course work in High School.

Pre-AP/Gifted United States History - This course is designed for the highly motivated student who wishes to pursue Advanced Placement courses in high school. With a more rigorous focus on document-based inquiry, the students will examine and analyze the political, economic, technological and social developments of the United States from the period of colonial settlement through Reconstruction. Instruction will focus on students developing an understanding of themes in U.S. History including the impact of expansion, the development of conflicts, the influence of diverse groups on American culture and the impact of world events on American thinking. Instructional strategies that support the rigor, reading and writing of Advanced Placement course work will be emphasized.

Institute of Innovation

Innovation and Creativity Through Self Expression Grades 6-8 Semester

Innovation 1 is a project-based foundational course to introduce students to creativity, critical thinking, problem-solving and innovation. The course is designed to provide students with the skills to improve creativity using the theories of zero-based thinking and Six Hats. Students also gain a working knowledge of how to critically think and solve real world problems using the engineering design thinking process. The course is divided into 3 parts. The first part is gathering an understanding of and improving creativity by asking the question: How can I innovate this work? The second part is learning and becoming proficient in technical skills such as Google Slides, Pixton and Canva. The third part consolidates the skills from Part 1 and 2 to create products that will address the United Nation Global Goals. A few project highlights includes learning more about self and creating Identity Masks, addressing homelessness and building a Tiny Home and creating a budget.

Innovation and the Genius Hour - Building an Innovation Community in Our School Grades 7-8 Semester

Innovation 2 is part 2 of 3 in the Innovation series. It is a project-based course building upon the skills learned in Innovation 1: creativity, critical thinking, problem-solving and innovation. Students take on a more independent role in this course building leadership and soft skills while providing commercials and footage for Teague Network News, the school's in-house News Station. The course is divided into 3 parts. The first part is adding additional layers of creativity like lateral thinking and collaboration.

The second part is learning and becoming proficient in technical skills such as video creation, 3-D modeling and printing. The third part consolidates the skills from Part 1 and 2 to create products that will address the United Nation Global Goals: Infrastructure & Innovation, Health & Wellness, Sustainable Cities and Renewable Energy. A few project highlights include learning more about self and multiple intelligences, building a city including bridges, roads, buildings, farms, etc. and budgeting

Innovation Community – Creating and Innovating Beyond the School Grade 8 Semester

Innovation 3 is part 3 of 3 in the Innovation series. It is a project-based course building upon the skills learned in Innovation 1 and 2: creativity, critical thinking, problem-solving and innovation. Students are independent in this course building leadership, interview, initiation and soft skills while providing commercials and footage for Teague Network News, the school's in-house News Station as well as maintaining and planning Innovation bulletin board. The course is divided into 3 parts. The first part is showcasing mastery of skills learned in Innovation 1 & 2. Students work as a team to complete various challenges while taking surveys and gathering student body input to plan and prototype products with an emphasis on collaboration. The second part is mastery in technical skills Google Slides, Pixton, video creation, 3-D modeling and printing and the design thinking process. The third part consolidates the skills from Innovation 1 and 2 to complete a Passion Project and a Shark Tank Invention.

Electives

Art 2D-1 **Grades 6-7** **Semester**

This semester course is an exploratory progress visual arts class for students in 6th and 7th grade to develop a visual language and fundamental art skills through production of two-dimensional works of art. Production activities may include drawing, painting, and print making. Students will learn to prepare their artwork for display in local and district art shows.

Art II **Grades 7-8** **Semester**

This semester course is designed for students in grades 7 and 8. Students will be challenged with art techniques, skills and methods with emphasis on creating 3-dimensional artwork which may include ceramics, sculpture, basic animation, photography and digital art. Students will learn to prepare their artwork for display in local and district art shows

Band I **Beginning Band** **Grades 6-7** **Semester**

Students with little or no instrumental experience develop foundational instrumental technique, foundational music literacy, and aesthetic musical awareness through rehearsal, performance, and study of high-quality band literature. Instrumentalists work on the fundamentals of music notation, sound production, instrument care and maintenance, and personal and group rehearsal strategies. Public performances may serve as a culmination of specific instructional goals. Students may be required to attend and/or participate in rehearsals and performances outside the school day to support, extend, and assess learning in the classroom. This course may also require students to obtain a musical instrument (e.g., borrow, rent, purchase) from an outside source.

Band II **Concert Band** **Grades 7-8** **Year**

Concert Band is open to students who have taken Band 1. Students should be proficient in music reading, scales, tone production, and articulation. All of the basic techniques that were introduced in Beginning Band are further developed in Concert Band. Greater emphasis is placed upon performing band music at an intermediate level. Students will have after school rehearsals when necessary for concert preparation. Performances are an integral part of the curriculum.

Band III **Symphonic Band** **Grades 7-8** **Year**

This is a yearlong accelerated advanced-level instrumental class for students who have successfully completed at least one year of Beginning Band and/or Concert Band. Students will be given challenging opportunities to develop a higher level of musicianship and performance skills through the study of different levels of styles of band literature. Students will participate in concerts, Music Performance Assessment, and performance activities that enhance the school music program and school. Teacher recommendation is required.

Band IV **Jazz Band** **Grades 7-8** **Year**

Students must also be enrolled in band 3. The course explores the rhythmic and improvisational skills uses to perform jazz as well as the stylistic and historical understanding. Performances are an integral part of the curriculum. Teacher recommendation is required.

Electives

Chorus I **Beginning Chorus** **Grades 6-7** **Year**

Students with little or no choral experience develop beginning vocal technique and skills, critical and creative thinking skills, and an appreciation of music from around the world and through time. Public performances may serve as a culmination of specific instructional goals. Students may be required to attend and/or participate in rehearsals and performances outside the school day to support, extend, and assess learning in the classroom.

Chorus II **Concert Chorus** **Grades 7-8** **Year**

Students build on previous choral experience to expand vocal, technical, musical, and ensemble skills through rehearsal, performance, and study of high-quality choral literature. Singers focus on increasing knowledge of music theory, music literacy, and aesthetic response. Public performances may serve as a culmination of specific instructional goals. Students may be required to attend and/or participate in rehearsals and performances outside the school day to support, extend, and assess learning in the classroom.

Chorus III **Ensemble Chorus** **Grades 7-8** **Year**

Students with previous choral experience build intermediate-level knowledge of vocal technique, musical literacy, ensemble skills, and related musical knowledge through rehearsal, performance, and study of a variety of high-quality choral literature. Public performances may serve as a culmination of specific instructional goals. Students may be required to attend and/or participate in rehearsals and performances outside the school day to support, extend, and assess learning in the classroom.

Understanding Music **Grade 6** **Semester**

Students engage in an exploratory study of music through the examination of significant composers and their compositions across selected musical eras and/or genres. Students will also learn about modern and historical instruments and gain a rudimentary understanding of the elements of music in order to develop strategies for listening to and appreciating musical works. Students may be expected to attend one or more performances outside of the school day to support and extend learning in the classroom.

Theatre I **Grades 6-7** **Semester**

Through simple scripted scenes, performance projects, and/or practical application, students learn to identify what makes performances believable and explore the tools used to create, articulate, and execute them. Public performances may serve as a culmination of specific instructional goals. Students may be required to attend and/or participate in rehearsals and performances outside of the school day to support, extend, and assess learning in the classroom.

Theatre II **Grades 7-8** **Semester**

Students with previous acting experience continue to build skills and knowledge in acting through analysis, discussion, and classroom performance. Public performances may serve as a culmination of specific instructional goals. Students may be required to attend and/or participate in rehearsals and performances outside of the school day to support, extend, and assess learning in the classroom.

Electives

Theatre III **Grade 7/8** **Year**

Students with previous acting experience and instruction examine the various dimensions of characters through analysis, discussion, and classroom performance. They learn to break down a scene from a character's point of view, and also learn to sustain a character and build the relationship between actor and audience. Public performances may serve as a culmination of specific instructional goals. Students may be required to attend and/or participate in rehearsals and performances outside of the school day to support, extend, and assess learning in the classroom. (Application required).

Video Production I **Fundamentals of Telecommunication** **Grade 6** **Semester**

This course is designed to introduce students to television production techniques. The course will include television history, script writing and interviewing techniques and will incorporate technology as a means of attaining skills. Students will be introduced to production roles; basic equipment use and basic editing techniques.

Video Productions II **Tiger News Network (TNN)** **Grades 7-8** **Semester**

This course is designed to implement television production techniques. The course will include script writing and interviewing techniques and will incorporate technology as a means of attaining skills. Students will be implement production roles, basic equipment use and basic editing techniques. (Application required)

Robotics I **Grades 6-7** **Semester**

If you love Legos then this is the course for you! Students will be introduced to engineering and design using principles of physics. Next, we move to basic robot building and coding. Students will learn to program robots to navigate courses and complete tasks using attachments.

Robotics II **Grades 7-8** **Semester**

This course provides a hands-on, minds-on program that uses challenges based on read world scientific problems to engage students is research, problem solving and engineering. Using the principles of design and engineering learned in Robotics I, students will be challenged to engineer more complex designs, create innovate solutions to problems and take their programming skills to the next level. *Prerequisite – Robotics I*

Robotics III **Grades 7-8** **Semester**

This course provides a hands-on, minds-on program that uses challenges based on read world scientific problems to engage students is research, problem solving and engineering. This course is designed for students interested in competing in robotics. Students will utilize engineering, programming, and leadership skills to create a theme-based project that will be entered into competition with other area middle schools. This class has additional time requirements outside of school. *Prerequisite – Robotics I or II OR Participation in Competition Robotics in previous year.* Attendance at competition events will be a required part of this program. (Application required)

Electives

Student Leadership

Grades 7-8

Year

Teague's student leadership class is designed to provide students with the opportunity to improve their school through student programs, teacher appreciation, and community involvement. Students will learn about the qualities of an effective leader and put those qualities into action on campus by executing school improvement projects. The class is for 7th and 8th grade students. Students must submit an application and teacher recommendations to be considered for the class.

Creative Writing

Grades 7-8

Semester

This semester course is for students who enjoy writing and wish to explore the craft. The class will help students strengthen writing skills that prepare them to use writing in the following genres: Media Writing, Drama and Fiction. A digital publication will be produced.

Yearbook

Grades 7-8

Year

Application Required

This course will allow students to develop skills in writing, editing, rewriting, and proofreading in the construction of the school's yearbook. During the year, students will expand knowledge of computer technology through creating layouts for each page in the yearbook. Students enhance skills in teamwork, time management, and organization throughout the course. It may be necessary for students to cover extra-curricular activities as a part of the requirements for this course.

Spanish I

Grade 8

High School Credit

The purpose of this course is to enable students to begin to acquire proficiency in Spanish through a linguistic, communicative, and cultural approach to language learning. Emphasis is placed on the development of listening, speaking, reading, and writing skills and on acquisition of the fundamentals of applied grammar. Cross-cultural understanding is fostered, and real-life applications are emphasized throughout the course.

Student Ambassadors/Student Assistants

Grade 8

Application Required

Semester

Media Center

Front Office

Art

Robotics

Exceptional Student/PE

Acting

Creative Photography

Grade 7-8

Semester

Learn and apply basic camera skills to photograph animals, people, and landscapes. You will select subjects, take photographs, and print and display memories in your own portfolio.

Electives

Graphic Design 1

Grades 6-7

Semester

Graphic Design 1 is an innovative Project-Based Learning semester course! This course is designed for students to span their range of visual communication using digital media platforms. Students will explore graphic design communication through understanding the fundamentals of graphic elements and principles of design; as well as; incorporate steps of the design process from idea development through the final execution of a marketable graphic. This course provides a curriculum of conceptual innovation through, types of graphics, color theory, typography, problem-solving, and critical thinking. Students taking this course will build upon their knowledge of design, by understanding how visual design affects aspects of business, the environment, culture, and everyday consumer life. Students will utilize Adobe Creative Cloud software, specifically Photoshop CC and InDesign CC and other Adobe/web computer applications. The course focuses on types of graphic design under the following areas: Print and non-print marketing advertisement, illustration, animation, photography, logo design, and additional visually creative forms of digital communication. **Upon completion of this course, students will have an opportunity to earn a Digital Tools certificate – TOSA Slides or TOSA Graphics.**

Graphic Design II

Grades 7-8

Semester

Graphic Design 2 is a continuation of Graphic Design 1. This course is designed for students to fully explore the applications of graphic design through the development of refining skilled concepts of design, techniques, that interact with visual communication using images and text. Students in this course will become more independent in their use of the fundamental components of graphic communication. Students will independently create and critically create solutions to a series of design problems for client designs.

Student knowledge of design will be enhanced in all aspects of the design process, from creative brainstorming through sketching, critical thinking, team collaboration to design graphics. Students will enhance their knowledge of Adobe Creative Cloud software, specifically Photoshop CC, InDesign CC, and Illustrator CC and other Adobe/web computer applications. **Upon completion of this course, students will have an opportunity to earn a Digital Tools certificate – TOSA Slides or TOSA Graphics.**

Physical Education

Grades 6-8

1 Semester Required each year

2nd Semester can be taken as additional elective

Students participate in a variety of experiences that enhance sports skills, cardiovascular endurance, and overall fitness through a wide range of individual and team sports in physical education. Rules, relevant facts, and sportsmanship will be taught to students in these activities. Emphasis is placed on students enjoying physical activity and learning lifetime skills to maintain wellness, while in a safe and healthy environment.

Health/Life Skills

Grade 6

Semester

This semester course is designed to equip students with skills for success in middle school and life beyond. Principles covered include the importance of being proactive (including study skills), goal setting (including career exploration), prioritizing, communication skills, teamwork, and physical health and safety. Additionally, students will learn conflict resolution skills, decision-making skills, and skills to help them deal with peer pressure. In addition, this course is to provide students with the opportunity to gain the knowledge and skills necessary to become health literate and practice responsible behaviors to promote healthy lifestyle and healthy living.

Middle School iSeries Courses

All middle school students must complete at least two of the three courses listed below by the end of 8th grade. (iJourney is required along with either iChallenge or iConnect).

iJourney
Your Pathway to Career Exploration
Grade 6
Required
Semester

Students in the iJourney course explore their interests, strengths, and occupation possibilities. They learn about digital citizenship and effective communication through a blended curriculum. Students explore educational pathways offered in Seminole County Public Schools that lead to careers. They create a cumulative digital portfolio and attempt to earn one or more digital tool certificates.

iChallenge
Gaming Essentials
Grade 7 & 8
Semester

Students in the iConnect blended course learn technology applications and computer hardware and software. They learn how to effectively communicate to different audiences using a variety of tools, including Microsoft Office Word, Excel and PowerPoint. Students attempt to earn one or more digital tool certificates.

iConnect
Your Pathway to Technology and Communication
Grade 7 & 8
Semester

Students in the iChallenge I Computer Science blended course learn coding basics and gaming essentials. They experience team building collaborative experiences and project based learning as they create their own games. They will showcase their final cumulative project after peer review, feedback, and revision. The students attempt to earn one or more digital tool certificates.
