## From the Principal:

We are in the "home stretch" of the school year and we plan to Finish Strong! The students are working diligently to prepare for state testing, complete class assignments, projects, and to meet their goals. It has been an amazing school year and we appreciate the support of our district, parents, and community! The first week of May is a time set aside to celebrate our awesome school staff, so please take a moment to thank your child's teacher and/or other staff members who support our students everyday. Many exciting events are planned to celebrate our students and their achievements in the coming weeks. We hope you will be able to join us for our annual Field Days and grade level Award Days.

Thank you for all you do to support SSE! We could not do it without you!

If you have any concerns, please feel free to email me or contact the school office.

Sincerely,  
Jennifer Beach

**Circle of Control:** You have many choices each day over which you have complete control. These are within your Circle of Control. But some things are within your Circle of No Control because you can't change them. The weather is an example of something you cannot change. You may not like it but you can't change it.

### Let's Review: Habit 3

I spend my time on things that are most important. This means I say **no** to things I know I should not do. I set priorities, make a schedule, and follow my plan. I am disciplined and organized.
