Delaware 21st Century Community Learning Centers
2022 – 2023 Subgrant Application Cohort 20

Introduction

Overview

The purpose of the 21st Century Community Learning Centers (21st CCLC) program is to establish or expand community learning centers that provide students with enrichment opportunities during those times school is not in session. 21st CCLC centers can be located in elementary or secondary schools or other similarly accessible community facilities. 21st CCLC must provide a range of high quality services to support student learning and development. These services may include tutoring and mentoring, homework help, academic enrichment, music, arts, sports, cultural activities, and community service opportunities. At the same time 21st CCLC centers must serve the families of participating students through family literacy programs.

Authorized under Elementary and Secondary Education Act (ESEA), as amended Title IV Part B, the program’s specific purposes are to:

- Provide opportunities for academic enrichment, including providing tutorial services to help students, particularly students who attend low performing schools, to meet state and local student achievement standards in core academic subjects, such as reading and mathematics.
- Offer students a broad array of additional services, programs and activities such as youth development activities, drug and violence prevention programs, counseling programs, art, music, recreation, technology education program and character education programs that are designed to reinforce and complement the regular academic program of participating students.
- Offer opportunities for literacy and related educational development to families of participating students.

Eligible entities must collaborate with Local Education Agencies (LEAs) when applying for funds. It should also be noted that this subgrant is intended to be written in collaboration with partners. Partnering schools and other agencies are to be included in the implementation discussion.

Eligible Applicants

This competition is open to local school systems, interagency, interdepartmental, community and faith-based or other private or public organizations, or a consortium of two or more of the aforementioned, proposing to provide services to students, and families of students, who primarily attend schools eligible for Title I schoolwide programs or schools that serve a high percentage of students from low-income families. The list of eligible public schools can be found on the 21st CCLC website.

Subgrant Awards

Subgrant awards are made for up to five consecutive years; however, the continuation of the awards beyond the first year are contingent upon satisfactory progress toward achieving goals and objectives and availability of federal funds. Federal requirements mandate a minimum subgrant contract award of \$50,000 annually. All application proposals must contain a strong justification for the amount of funds being requested and must show the costs are reasonable and necessary to carry out the program’s purposes. The Delaware Department of Education reserves the right to negotiate subgrant award amounts with all sub-grantees. 21st CCLC funds may supplement but NOT SUPPLANT existing funding or programs.

In Delaware, there is no renewability of 21st CCLC awards past the five years. Previous subgrantees are encouraged to reapply through the annual cohort competition process.

Delaware 21st Century Community Learning Centers
2022 – 2023 Subgrant Application Cohort 20

The amount of subgrant award will be based on projected average daily attendance figures and the tables below:

Full Year programs (Summer and School Year), minimum 150 sessions, 360 hours:

Subgrant Request	Projected Average Daily Attendance
\$240,000	75 – 99 students
\$320,000	100 – 124 students
\$400,000	125+ students

Any subsequent years of the subgrant award will be based on actual average daily attendance figures. This may alter or terminate the amount of the subgrant award. The funding table may change from year-to-year, based on available funds provided to the state.

Measures of Effectiveness

The U.S. Department of Education requires the following programming principles are utilized by all 21st CCLC sites. Therefore, the Delaware Department of Education’s 21st CCLC Application has been designed to include processes that implement the following guidelines:

- provides an assessment of objective data about community needs for the activity;
- uses performance measures established by the local district/school/community;
- uses scientifically-based research that provides evidence that the program or activity will be effective or innovative with the likelihood of success; and
- provides periodic evaluation of the results used to improve the program or activity.

Ideally, each program or activity shall:

- be based upon an assessment of objective data regarding the need for before and after school (or summer recess) programs and activities in the schools and communities;
- be based upon an established set of performance measures aimed at ensuring the availability of high-quality academic enrichment opportunities;
- if appropriate, be based upon evidence-based research that the program or activity will help students meet the State academic standards;
- ensure that measures of student success align with the regular academic program of the school and the academic needs of participating students and include performance indicators and measures; and
- collect the data necessary for the measures of student success.

High Quality Program Characteristics

Researchers and afterschool practitioners have found that effective programs combine academic, enrichment, cultural, and recreational activities to guide learning and engage youth. They have demonstrated that programs designed to meet the particular needs of the communities they serve are the most effective. According to the U.S. Department of Education publication *Working for Children and Families: Safe and Smart After School Programs*, nine components are generally present in high quality afterschool programs. These include:

- Goal setting and strong management;

Delaware 21st Century Community Learning Centers
2022 – 2023 Subgrant Application Cohort 20

- Strong involvement of families in program development, implementation and improvement;
- Coordinated learning with the regular school day;
- Linkages between school-day teachers and afterschool personnel; and
- Regular evaluation of progress and effectiveness for program improvement.

Allowable Activities

Each applicant that receives an award may use the funds to carry out a broad array of high quality before and after school activities (or activities during other times when school is not in session) that advance student academic achievement and support student success, including:

- academic enrichment learning programs, mentoring programs, remedial education activities, and tutoring services, that are aligned with academic standards and curricula that are designed to improve student academic achievement;
- well-rounded education activities, including such activities that enable students to be eligible for credit recovery or attainment;
- literacy education programs, including financial literacy programs and environmental literacy programs;
- programs that support a healthy and active lifestyle, including nutritional education and regular, structured physical activity programs;
- services for individuals with disabilities;
- programs that provide afterschool activities for students who are English learners that emphasize language skills and academic achievement;
- cultural programs;
- telecommunications and technology education programs;

Goals, Objectives, and Activities

1. Please describe what your 21st CCLC program will do for the “**Lights On Afterschool**” nationwide celebration on October 27, 2022. Describe how this event or events will highlight the many ways your quality afterschool program supports children, families, schools, and the community. What activities will be included? Who will be invited? At what time will you be celebrating? What media coverage will be solicited? “Lights On Afterschool” activities must be entered on the Afterschool Alliance webpage <https://www.afterschoolalliance.org/loa.cfm>.

“Lights On Afterschool” events, like afterschool programs, come in all shapes and sizes, from stadium rallies and town parades to open houses and program tours. Your event can give students a chance to showcase the skills they learn and talents they develop at your afterschool program; including ways to spotlight the fun, educational, hands-on activities that your quality afterschool program offers and the ways your program keeps kids safe, inspires them to learn and helps working families. This event can also highlight your local partners and rally your community’s support.

Here is a partial list of activities that could be included at your celebration:

- *Student-created and led activities like skits, dance, music and poetry;*
- *Selling items to raise funds for your program;*
- *Student demonstrations of afterschool activities, for example: yoga, basketball, karate, mural painting, chess, debate;*
- *Contests and competitions (kids versus adults or kids versus kids);*
- *Special guest speakers: parents, local elected officials, the superintendent, mayor, a member of Congress, local celebrities, etc.;*
- *Presentations by youth about their afterschool experience; and*
- *A healthy snack or dinner*
