“The man who dies leaving behind him millions of available wealth, which was his to administer during life, will pass away ‘unwept, unhonored, and unsung,’ no matter to what uses he leaves the dross which he cannot take with him. Of such as these the public verdict will then be: ‘The man who dies thus rich dies disgraced.’ ”

Big business, monopolies controlled Congress through bribery. This is corruption

- Belief that there was a natural upper class and lower class.
- "Survival of the fittest"

Social Darwinism

Belief that in the economic world the strongest companies will survive

“The growth of a large business is merely a survival of the fittest.”

J. Rockefeller

Social Darwinism

- Social Darwinists believed that companies struggled for survival in the economic world and the government should not tamper with this natural process.
- The fittest business leaders would survive and would improve society.
- Belief that hard work and wealth showed God's approval and those that were poor were lazy and naturally a lower class.

2. All living things have evolved over millions of years as a result of genetic changes.
3. Some plants and animals developed traits that helped them survive.

1. Every human activity individuals compete for success.

LABOR UNIONS

Labor Union

Workers who organize against their employers to seek better wages and working conditions for wage earners.

Labor Strike

The unions' method for having their demands met. Workers stop working until the conditions are met. It is a very effective form of attack.

Boycott

People refuse to buy a company's product until the company meets demands.

Scab Worker

New immigrants who would replace strikers and work for less pay. Often violence would erupt between strikers and scabs who were trying to cross picket lines to work.

LABOR UNIONS

Closed Shop

A working establishment where only people belonging to the union are hired. It was done by the unions to protect their workers from cheap labor.

Black List or Black Balled

List of people disliked by business owners because they were leaders in the Union. Often would loose their jobs, beaten up or even killed.

Collective Bargaining

Yellow Dog Contracts

LABOR UNIONS

Lock Out

Owner of industry would “lock out” workers who were trying to form a union and replace them with “scabs”.

Cooperatives

Industry or business organization owned by and operated for the benefit of those using its services—non-profit

LABOR UNIONS

National Labor Union

- Cooperatives, 8 hr. work day, against labor strikes
- Founded a political party in 1872
 - Involved in the Chinese Exclusion Act.
- Lost election, faded away
 - Replaced by Knights of Labor.

Knights of Labor

- Terrence Powderly
- All workers except Chinese
 - 8 hr. day, cooperatives, prohibition, end child labor
- Several strikes won some wage gains 1885 to 1886
- Unrealistic and vague goals
 - Loss of important strikes and failure of cooperatives
- Haymarket Riot—1886

American Federation of Labor or AFL

- Samuel Gompers, 1881
- Skilled workers in separate unions.
- Work within political system for change.
 - Closed shop and collective bargaining
- Over 1 million workers joined and won several strikes
- Small part of work force eligible to join.

Reaction of Employers

Employers hated & feared unions. Why?

- ❖ European influences of socialism
- ❖ Labor strikes always tended to be violent.

Some took steps to stop unions, such as:

- ❖ forbidding union meetings
- ❖ firing union organizers
- ❖ Owner of industry would “lock out” workers who were trying to form a union and replace them with “scabs”.
- ❖ Scab workers: Employers would hire immigrants to replace strikers and work for less pay. Often violence would erupt between strikers and scabs who were trying to cross picket lines to work.
- ❖ refusing to recognize unions as their workers’ legitimate representatives

The Reverend Henry Ward Beecher (1813–1887) of Brooklyn, the most distinguished (and notorious) clergyman of the era after the Civil War, said,

“The trade union, which originated under the European system, destroys liberty. I do not say a dollar a day is enough to support a working man, but it is enough to support a man. Not enough to support a man and five children if a man insists on smoking and drinking beer.”

EUGENE DEBS

- ❖ Founder of the Socialist Party in the U.S.
- ❖ Overthrow the existing laissez faire and capitalistic
- ❖ Believes in government ownership of business and capital (money, natural resources)
- ❖ Government controls production, sets wages, prices and distributes the goods. No profit or competition.
- ❖ Runs for the presidency

Railroad Workers Organize

❖ The Great Railroad Strike of 1877

❖ Railway workers protested unfair wage cuts and unsafe working conditions.

– The strike was violent and unorganized.

– President Hayes sent federal troops to put down the strikes.

– From then on, employers relied on federal and state troops to repress labor unrest.

Railroad Workers Organize

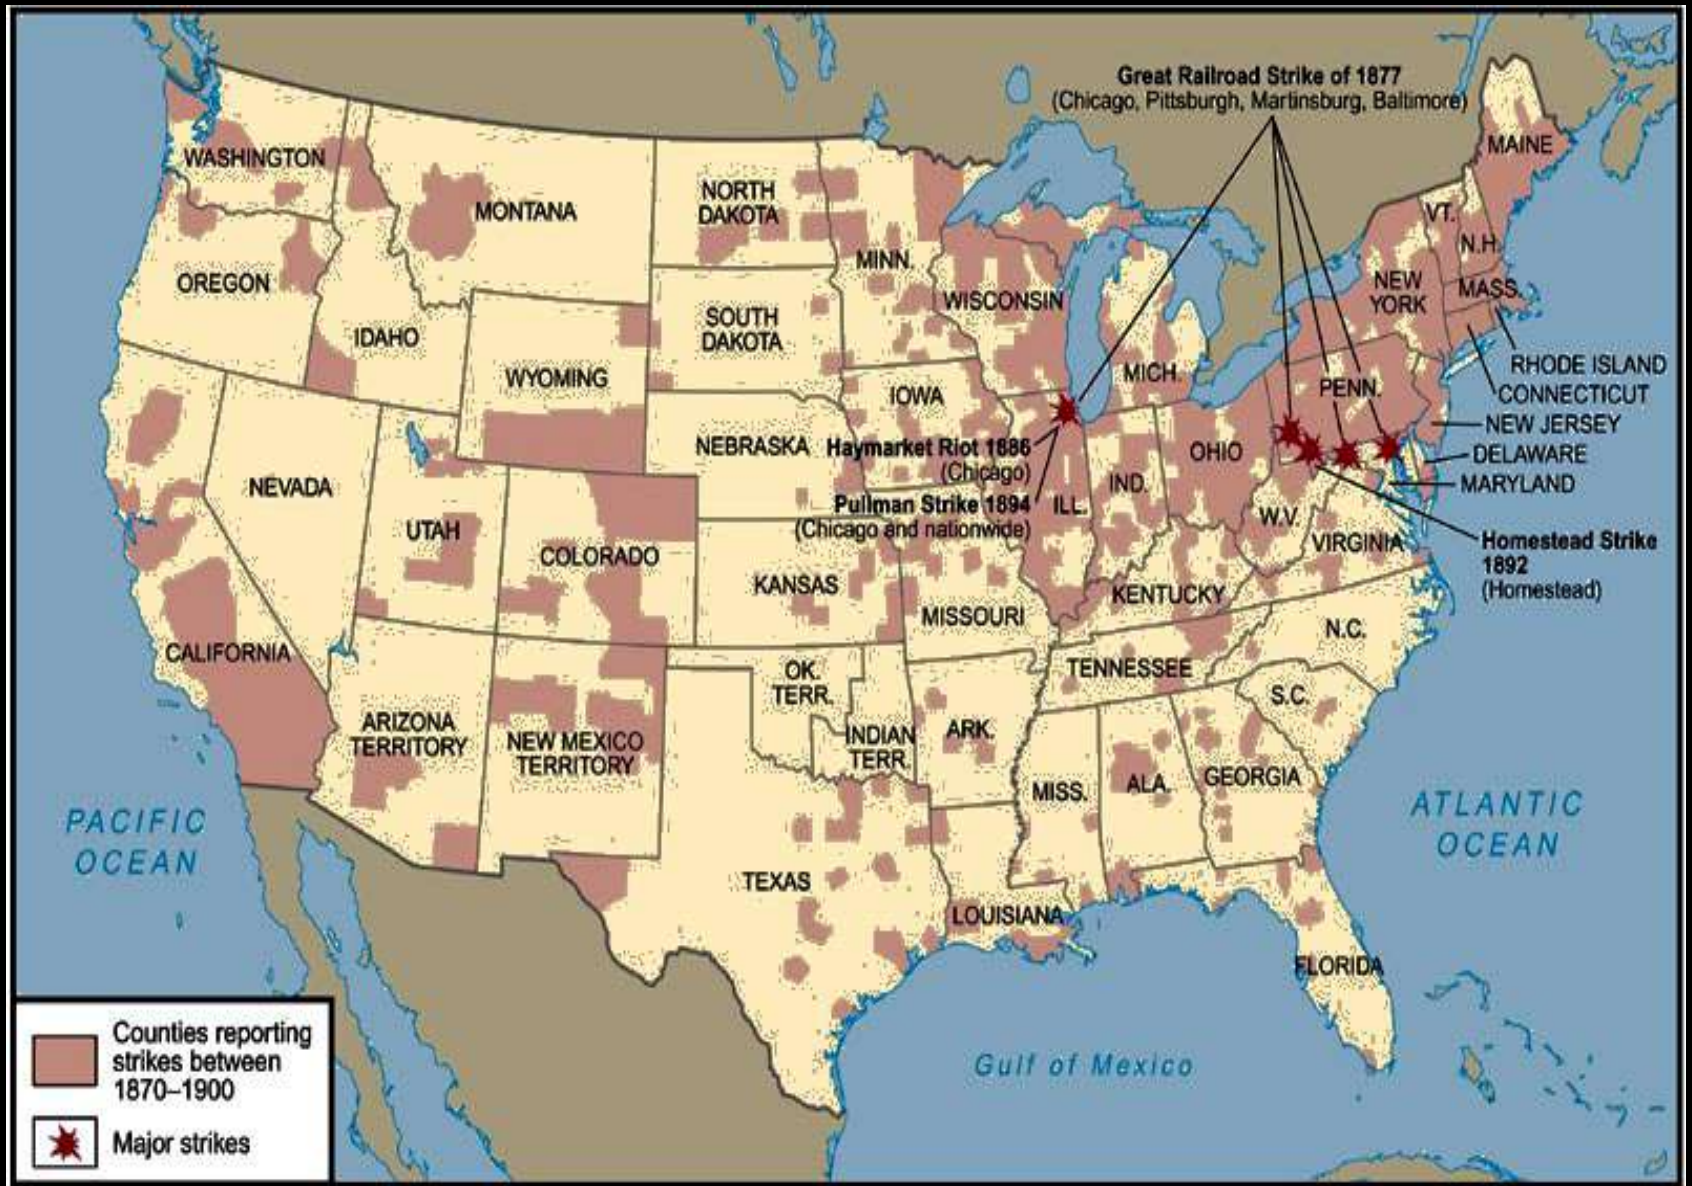

❖ Debs and the American Railway Union

–At the time of the 1877 strike, railroad workers mainly organized into various “brotherhoods,” which were basically craft unions.

–Eugene V. Debs proposed a new industrial union for all railway workers called the American Railway Union (A.R.U.).

–The A.R.U. would replace all of the brotherhoods and unite all railroad workers, skilled and unskilled.

GROWTH OF UNION MEMBERSHIP 1880-1896

Knights of Labor

Strikes Rock the Nation
