- Jamal Johnson
- Aubrey Christian
- Miss Jones

 Student Spotlight   
Congratulations

Channing Jones

### Vocabulary

#### Math

- multiplication
- factor/product
- division
- dividend/divisor/quotient
- equal groups/groups of
- array
- inverse

#### Reading

- context clues
- figurative
- literal/nonliteral phrase
- mood
- academic
- affix/suffix/prefix
- charts/diagrams/graphic organizers/illustrations/maps/photographs

### October Content

#### Math ([Parent Letter](#))

In math we will continue with standards **OA1-OA7** and **NBT3**, where students will build an understanding of multiplication and division, and their relationship to one another, through the use of tile manipulatives and drawing models.

#### Reading ([Developmental Progressions](#))

While reading, we will focus on standards **RL4/RI4** and **RL7/RI7**. Students will learn to determine the meaning of literal and non-literal language in literature and academic words in informational texts. They will also learn to use illustrations in all types of texts to aid their comprehension.

#### Writing/Grammar

We will focus on standard **W2** and **L1/L2**, where students will learn to write informational pieces and practice grammar usage, capitalization, punctuation, and spelling.

#### Social Studies/Science

Standards **H1** and **G3** will focus on the Native Americans of Northern America and how/why they settled in the regions that they did. We will continue with standard **S3L1** and our study on the habitats and animals found within Georgia's regions.
