

■ Essential Question:

- What role did the United States play in fighting in the Pacific during World War II?

■ CPUSH Agenda for Unit 11.5:

- “Fighting World War II in the Pacific” notes

While the war was coming to an end in Europe, the Allies continued to fight the Japanese in the Pacific

After the attack on Pearl Harbor, the USA sent troops to the Pacific

The Pacific war revealed a new kind of fighting by using aircraft

carriers
The turning point in the war in the Pacific came at the Battle of

After Midway, the Allies began to regain islands controlled by

In May 1942, the Battle of Coral Sea was the first time aircraft carriers fired on one another

The problem for the Allies was the time & troops it would cost to retake the thousands of islands the Japanese controlled

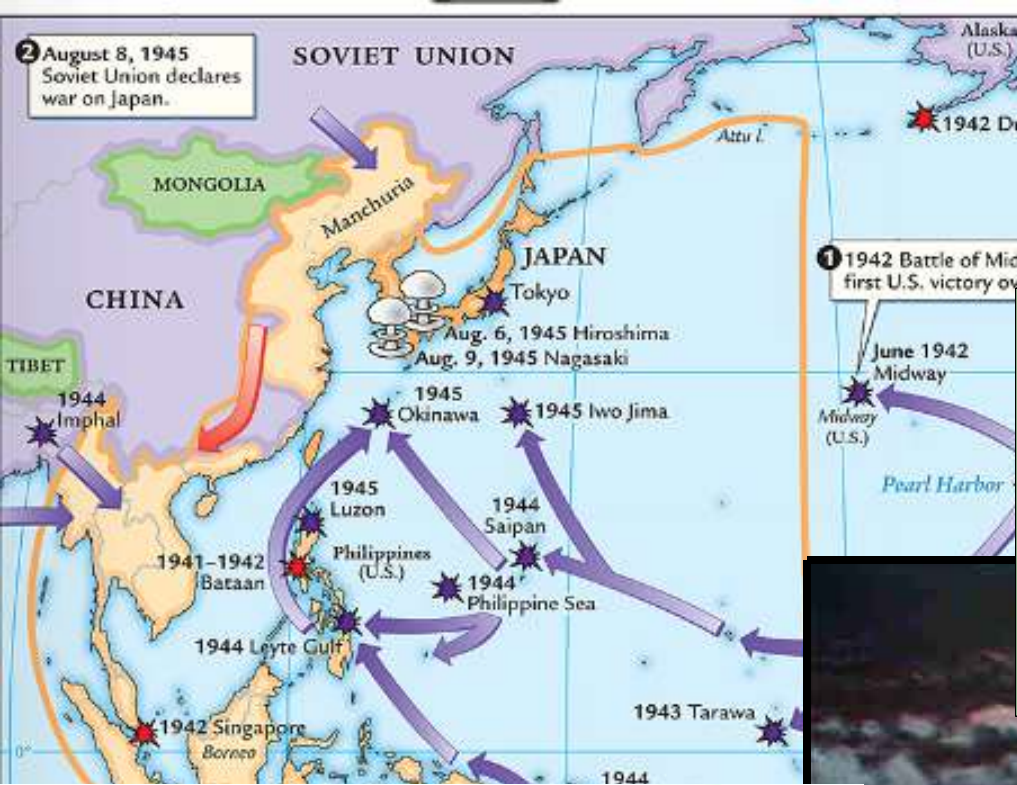

The U.S. developed an island-hopping strategy to skip the heavily defended islands & seize

From 1943 to 1945, the Allies took back the Philippines & were moving in on

The fight for Guadalcanal took 6 months

In 1945, the Allies won the islands of Iwo Jima & Okinawa

Lieutenant James Doolittle led the Doolittle Raids, firebombing Japan's major cities

Despite losing control of the Pacific & withstanding firebomb attacks, Japan refused

to surrender. By May 1945, the war in Europe was over & U.S. began preparing for a land invasion of Japan

VICTORY OVER JAPAN
1942-1945

- Japan (Axis)
- Occupied by Japan by May, 1942
- Allied power
- Neutral power
- Maximum Japanese control
- Expansion of Japanese control, 1944
- Allied advance
- Axis victory
- Allied victory
- No clear victor
- Atomic bomb attack

...But, perhaps a land invasion was not necessary.

In 1939, Albert Einstein wrote U.S. President Franklin Roosevelt about the potential to build a nuclear weapon

FDR created a top-secret program called the Manhattan Project, to construct the atomic bomb

F.D. Roosevelt,
President of the United States,
White House
Washington, D.C.

Sir:

Some recent work by E. Fermi and L. Szilard, which has been communicated to me in manuscript, leads me to expect that the element uranium may be turned into a new and important source of energy in the immediate future. Certain aspects of the situation which has arisen seem to call for watchfulness and, if necessary, quick action on the part of the Administration. I believe therefore that it is my duty to bring to your attention the following facts and recommendations:

In the course of the last four months it has been made probable - through the work of Joliot in France as well as Fermi and Szilard in America - that it may become possible to set up a nuclear chain reaction in a large mass of uranium, by which vast amounts of power and large quantities of new radium-like elements would be generated. Now it appears almost certain that this could be achieved in the immediate future.

This new phenomenon would also lead to the construction of bombs, and it is conceivable - though much less certain - that extremely powerful bombs of a new type may thus be constructed. A single bomb of this type, carried by boat and exploded in a port, might very well destroy the whole port together with some of the surrounding territory. However, such bombs might very well prove to be too heavy for transportation by air.

The Manhattan Project

Robert Oppenheimer was put in charge of developing the

From 1942-1945, a number of secret labs across the country developed & built the bomb

The b
in a

In July 1945, the bomb was
successfully tested at **Los
Alamos, New Mexico** during

America: Story of Us: **The Manhattan**

In April 1945, **FDR** died & his VP **Harry Truman** became president and had to decide how to end the war in the Pacific

In July 1945, the Big Three met at the **Potsdam Conference** to discuss the end of WWII

Truman learned the atomic bomb was ready & issued the Potsdam Declaration to Japan: “**surrender or face destruction**”

When Japan refused to surrender, Truman ordered the bombing of Hiroshima on August 6, 1945

After 3 days, Japan did not surrender so a 2nd atomic bomb was dropped on Nagasaki

IT'S ALL OVER!
Truman Announces Japs' Unconditional Surrender

WASHINGTON, Aug. 15 (Army News Service)—Japan has officially accepted the Allied terms for unconditional surrender without qualification, President Truman announced Tuesday, at 1900 hours.

MR. HARRY S. TRUMAN, President in Chief

GEN. DOUGLAS A. MACARTHUR, Supreme Allied Commander

The surrender will be assisted by General MacArthur when arrangements can be completed. The exact terms and the nature of the Emperor shall be subject to the Supreme Commander of the Allied Forces with the Japanese having full and entire authority to accept the Emperor's decision.

Gen. MacArthur will be Allied Supreme Commander in Japan. Other terms to be set forth in the Potsdam Declaration and the cessation of hostilities will be subject to the Emperor's decision and the Emperor's decision will be subject to the Emperor's decision.

...The Emperor's decision will be subject to the Emperor's decision... The Emperor's decision will be subject to the Emperor's decision... The Emperor's decision will be subject to the Emperor's decision...

After the second atomic bomb, Emperor Hirohito agreed to a surrender

World War II was over

In 1945, the
Nuremberg Trials
began

Prosecution of the
members of the
political, military and
economic leadership
of Germany began

The GI Bill of Rights offered returning soldiers cheap loans for new homes & tuition for college

Do you agree with Truman's decision to drop the atomic bombs? Be prepared to support your answer.

Conclusions: The Impact of World War II

- World War II was the biggest, most deadly, & most impactful war in world history:
- Europe was destroyed by the war & lost its place as the epicenter of power in the world
 - The USA & USSR emerged as super powers & rivals competing for influence in the world
 - A United Nations was formed to replace the League of Nations to help promote peace
 - Colonized nation began to demand independence from Europeans
