These units were written to build upon concepts from prior units, so later units contain tasks that depend upon the concepts addressed in earlier units. All units will include the Mathematical Practices and indicate skills to maintain.							

NOTE: Mathematical standards are interwoven and should be addressed throughout the year in as many different units and tasks as possible in order to stress the natural connections that exist among mathematical topics.

Grades 3-5 Key: NF = Numbers and Functions, OA = Operations and Algebraic Thinking, NBT = Number and Operations in Base Ten, MD = Measurement and Data, G = Geometry, DA = Data Analysis

NOTE: The days allocated to each unit include a total of 3 days for the following: (review, assess, reflect). Also, the allocation of time accounts for teaching at the slowest possible pacing as the teacher will finish teaching the curriculum the Friday before Spring Break. Hence, if your students have mastered a standard, please move them forward.
