

ELA

This week in ELA, students will complete a project that encompasses each of the concepts and homework short stories from the first nine weeks. Students will have the opportunity to choose or focus on one of the past short stories read for homework and explicate the elements of plot, theme, characterization, and/or conflict of that narrative in written form. Be sure to check your student's grades and prompt them to submit any missing assignments before the end of the nine weeks! The standards covered are as follows: R11, R12, R13, R14, W1, W2, W3, W4.

Math (Regular)

This week in Math we will be translating algebraic expressions and combine like terms addressing the following Standards MGSE7.EE1 and 2. Please check Infinite Campus for grades and missing assignments.

Math (Enhanced)

This week in Enhanced Math we will continue with transformations addressing the following standards MGSE8.G.1, MGSE8.G.2. and MGSE8.G.3. Please check Infinite Campus for grades and missing assignments.

Science

This week in Science - S712a - We are continuing our discussions about Photosynthesis and Cellular Respiration! We are analyzing their chemical equations and understanding how both cycles rely on each other. Expect a Quiz at the end of the week!

Social Studies

As we continue our study of national governments in Africa, the students are learning how important it is for a country to have a stable government and how the instability of government affects the lives of people - Standards, SS7CG1,

SS7CG2. The students have a list of vocabulary and notes they should review daily. The Governments Quiz will be Tuesday, October 4.
