<p>* Note:</p> <ul style="list-style-type: none"> • Content of college courses is determined to be acceptable substitutions to count towards meeting the 23 units required for high school graduation. • Students participating in dual enrollment courses are required to complete all testing requirements, including the Georgia High school Graduation Test (GHSGT) and the End-of-Course tests (EOCT) for required courses. To ensure students are prepared for required testing, students, parents, and counselors should carefully consider topics covered on required assessments when selecting courses for dual enrollment. • Some college courses have prerequisites. It is the responsibility of the high school counselor to determine if the students have met the prerequisite prior to approving the course.

* Note:

- Content of college courses is determined to be acceptable substitutions to count towards meeting the 23 units required for high school graduation.
- Students participating in dual enrollment courses are required to complete all testing requirements, including the Georgia High school Graduation Test (GHSGT) and the End-of-Course tests (EOCT) for required courses. To ensure students are prepared for required testing, students, parents, and counselors should carefully consider topics covered on required assessments when selecting courses for dual enrollment.
- Some college courses have prerequisites. It is the responsibility of the high school counselor to determine if the students have met the prerequisite prior to approving the course.

* Note: <ul style="list-style-type: none"> Content of college courses is determined to be acceptable substitutions to count towards meeting the 23 units required for high school graduation. Students participating in dual enrollment courses are required to complete all testing requirements, including the Georgia High school Graduation Test (GHSGT) and the End-of-Course tests (EOCT) for required courses. To ensure students are prepared for required testing, students, parents, and counselors should carefully consider topics covered on required assessments when selecting courses for dual enrollment. Some college courses have prerequisites. It is the responsibility of the high school counselor to determine if the students have met the prerequisite prior to approving the course.

<p>* Note:</p> <ul style="list-style-type: none"> • Content of college courses is determined to be acceptable substitutions to count towards meeting the 23 units required for high school graduation. • Students participating in dual enrollment courses are required to complete all testing requirements, including the Georgia High school Graduation Test (GHSGT) and the End-of-Course tests (EOCT) for required courses. To ensure students are prepared for required testing, students, parents, and counselors should carefully consider topics covered on required assessments when selecting courses for dual enrollment. • Some college courses have prerequisites. It is the responsibility of the high school counselor to determine if the students have met the prerequisite prior to approving the course.

*** Note:**

- Content of college courses is determined to be acceptable substitutions to count towards meeting the 23 units required for high school graduation.
- Students participating in dual enrollment courses are required to complete all testing requirements, including the Georgia High school Graduation Test (GHS GT) and the End-of-Course tests (EOCT) for required courses. To ensure students are prepared for required testing, students, parents, and counselors should carefully consider topics covered on required assessments when selecting courses for dual enrollment.
- Some college courses have prerequisites. It is the responsibility of the high school counselor to determine if the students have met the prerequisite prior to approving the course.

<p>* Note:</p> <ul style="list-style-type: none"> • Content of college courses is determined to be acceptable substitutions to count towards meeting the 23 units required for high school graduation. • Students participating in dual enrollment courses are required to complete all testing requirements, including the Georgia High school Graduation Test (GHSGT) and the End-of-Course tests (EOCT) for required courses. To ensure students are prepared for required testing, students, parents, and counselors should carefully consider topics covered on required assessments when selecting courses for dual enrollment. • Some college courses have prerequisites. It is the responsibility of the high school counselor to determine if the students have met the prerequisite prior to approving the course.

Due to Georgia Tech's commitment to course availability for degree-seeking students, as well as maintaining a low faculty/student ratio, Accel (Dual Enrollment) participants may register for a maximum of 8 semester hours in math, science, or computing courses. Tech attempts to provide the opportunity to enrich, but not replace, the high school experience for students who have completed the highest level of coursework available on the secondary level.

Note: Content of college courses is determined to be comparable and therefore, acceptable substitutions for meeting high school graduation requirements in like subject areas. Some college courses have prerequisites. It is the responsibility of the high school counselor to determine if the students have met the prerequisite prior to approving the course.

<p>* Note:</p> <ul style="list-style-type: none"> • Content of college courses is determined to be acceptable substitutions to count towards meeting the 23 units required for high school graduation. • Students participating in dual enrollment courses are required to complete all testing requirements, including the Georgia High school Graduation Test (GHSGT) and the End-of-Course tests (EOCT) for required courses. To ensure students are prepared for required testing, students, parents, and counselors should carefully consider topics covered on required assessments when selecting courses for dual enrollment. • Some college courses have prerequisites. It is the responsibility of the high school counselor to determine if the students have met the prerequisite prior to approving the course.

<p>* Note:</p> <ul style="list-style-type: none"> • Content of college courses is determined to be acceptable substitutions to count towards meeting the 23 units required for high school graduation. • Students participating in dual enrollment courses are required to complete all testing requirements, including the Georgia High school Graduation Test (GHS GT) and the End-of-Course tests (EOCT) for required courses. To ensure students are prepared for required testing, students, parents, and counselors should carefully consider topics covered on required assessments when selecting courses for dual enrollment. • Some college courses have prerequisites. It is the responsibility of the high school counselor to determine if the students have met the prerequisite prior to approving the course.

* Note:

- Content of college courses is determined to be acceptable substitutions to count towards meeting the 23 units required for high school graduation.
- Students participating in dual enrollment courses are required to complete all testing requirements, including the Georgia High school Graduation Test (GHSGT) and the End-of-Course tests (EOCT) for required courses. To ensure students are prepared for required testing, students, parents, and counselors should carefully consider topics covered on required assessments when selecting courses for dual enrollment.
- Some college courses have prerequisites. It is the responsibility of the high school counselor to determine if the students have met the prerequisite prior to approving the course.

* Note: <ul style="list-style-type: none"> Content of college courses is determined to be acceptable substitutions to count towards meeting the 23 units required for high school graduation. Students participating in dual enrollment courses are required to complete all testing requirements, including the Georgia High school Graduation Test (GHS GT) and the End-of-Course tests (EOCT) for required courses. To ensure students are prepared for required testing, students, parents, and counselors should carefully consider topics covered on required assessments when selecting courses for dual enrollment.

<p>* Note:</p> <ul style="list-style-type: none"> • Content of college courses is determined to be acceptable substitutions to count towards meeting the 23 units required for high school graduation. • Students participating in dual enrollment courses are required to complete all testing requirements, including the Georgia High school Graduation Test (GHSGT) and the End-of-Course tests (EOCT) for required courses. To ensure students are prepared for required testing, students, parents, and counselors should carefully consider topics covered on required assessments when selecting courses for dual enrollment. • Some college courses have prerequisites. It is the responsibility of the high school counselor to determine if the students have met the prerequisite prior to approving the course.

* Note: <ul style="list-style-type: none"> Content of college courses is determined to be acceptable substitutions to count towards meeting the 23 units required for high school graduation. Students participating in dual enrollment courses are required to complete all testing requirements, including the Georgia High school Graduation Test (GHS GT) and the End-of-Course tests (EOCT) for required courses. To ensure students are prepared for required testing, students, parents, and counselors should carefully consider topics covered on required assessments when selecting courses for dual enrollment. Some college courses have prerequisites. It is the responsibility of the high school counselor to determine if the students have met the prerequisite prior to approving the course.

*** Note:**

- Content of college courses is determined to be acceptable substitutions to count towards meeting the 23 units required for high school graduation.
- Students participating in dual enrollment courses are required to complete all testing requirements, including the Georgia High School Graduation Test (GHS GT) and the End-of-Course tests (EOCT) for required courses. To ensure students are prepared for required testing, students, parents, and counselors should carefully consider topics covered on required assessments when selecting courses for dual enrollment.
- Some college courses have prerequisites. It is the responsibility of the high school counselor to determine if the students have met the prerequisite prior to approving the course.

*Note

- Content of college courses is determined to be acceptable substitutions to count towards meeting the 23 units required for high school graduation.
- Students participating in dual enrollment courses are required to complete all testing requirements, including the Georgia High school Graduation Test (GHS GT) and the End-of-Course tests (EOCT) for required courses. To ensure students are prepared for required testing, students, parents, and counselors should carefully consider topics covered on required assessments when selecting courses for dual enrollment.
- Some college courses have prerequisites. It is the responsibility of the high school counselor to determine if the students have met the prerequisite prior to approving the course.

*Note

- Content of college courses is determined to be acceptable substitutions to count towards meeting the 23 units required for high school graduation.
- Students participating in dual enrollment courses are required to complete all testing requirements, including the Georgia High school Graduation Test (GHS GT) and the End-of-Course tests (EOCT) for required courses. To ensure students are prepared for required testing, students, parents, and counselors should carefully consider topics covered on required assessments when selecting courses for dual enrollment.
- Some college courses have prerequisites. It is the responsibility of the high school counselor to determine if the students have met the prerequisite prior to approving the course.
