

To be valid, test scores must be less than two (2) years old.

ACCUPLACER

(Next Generation)

ENGLISH PLACEMENT

Reading (≥ 245) plus Writing (≥ 245) = ENC 1101

Required Developmental Writing and Reading courses (or required EAP courses, if applicable) must be completed prior to entering English 1 and/or any Gordon Rule Course(s).

- EAP students must pass developmental courses with a "C" in order to progress to the next higher level. EAP students who fail exit exams must repeat courses to make a "C" in all required EAP courses before entering ENC 1101 or other courses with ENC 1101 as pre or co-requisite.

Reading

244 or below = REA 0019 Developmental Reading or LOEP / Writing Sample for EAP Placement

≥ 245 *No developmental reading required*

Writing

244 or below = ENC 0022 Developmental Writing or LOEP / Writing Sample for EAP Placement

≥ 245 *No developmental writing required; (Note: Writing sample required for EAP students.)*

MATHEMATICS PLACEMENT

Quantitative Reasoning, Algebra and Statistics (QAS)

241 or below = MAT 0057: Pre-College Mathematics or MAT 0022: Developmental Mathematics Combined

242 or above = MAT 1033: Intermediate Algebra or MAT 1100: Mathematical Understanding and Applications

Advanced Algebra and Functions (AAF)

262 or below = MAT 1033: Intermediate Algebra or MAT 1100 Mathematical Understanding & Applications

263 - 275 = MAC 1105: College Algebra or MGF 1106: College Mathematics or MGF 1107: Liberal Arts Math or STA 2023: Statistical Methods

276 or above = MAC 1140: Pre-Calculus Algebra or MAC 1114: Trigonometry or MAC 2233: Concepts of Calculus or MAC 1147: Pre-Calculus with Trigonometry

ADVISOR INFORMATION

- All Developmental Reading, Writing, and Mathematics courses use the same withdrawal practices.
- Students may withdraw during the college's withdrawal period and take the same developmental course again within the original two-year period for which the scores are valid.
- Students who fail the developmental courses may take ACCUPLACER. Normally, students must wait until grades are posted before taking ACCUPLACER; however, the developmental course professor may provide special permission during the last two (2) weeks for an early ACCUPLACER. If they meet the college credit cut-off score, they may enter the college credit course.
- Students who fail or make a "D" in the last developmental course do not need to retake the course if they meet the ACCUPLACER cut-off score for the college credit course; however, the "D" cannot receive grade forgiveness by taking the ACCUPLACER. Students must repeat the course and achieve a "C" or above to receive grade forgiveness for the "D". (However, the grade of "D" in a developmental course does not count in the college credit GPA.)
- Students may not take the ACCUPLACER for a developmental course they are currently enrolled in unless during the add/drop period; otherwise, they must first withdraw from the course (within the advertised withdrawal period); wait until grades are posted; or selected by the professor to take an early test (students selected are performing at the A or B level in the developmental class).
- Student may retake the ACCUPLACER after remediation.
