Academic Plan for School Year 2023-24

School: Aiea Elementary School

Developing a collaborative Academic Plan framed by the HIDOE Learning Organization is the foundation for a forward focused Academic Plan. An effective Academic Plan utilizes existing school resources to improve and/or introduce new ideas that accelerate the school community's knowledge about ending achievement gaps and providing equitable services for all students. A forward focused Academic Plan clearly describes a school's Theory of Action that incorporates the following: 1) analyzing data to explain achievement gaps; 2) incorporating measurable outcomes that inform the closing of the achievement gap; and 3) applying contextual and community measurements and assessments.

Starting from a comprehensive needs assessment, schools study organizational, instructional, and student support systems to design measurable outcomes. The measurable outcomes are implemented and improved through Plan, Do, Check, Act (PDCA) cycles and systemized by leading indicators.

HIDOE Learning Organization

Pipeline of Emerging Ideas: To prepare for emerging trends, advancements and changes that impact education, ideas are tried and vetted by our schools and teams, some will advance to support the core.
- The Pipeline of Emerging Ideas is linked to the HIDOE 2020-30 Strategic Plan (page 5).

Innovation in Support of the Core: New strategies and systems for delivering teaching and learning. High-Impact strategies: School Design, Teacher Collaboration, Student Voice.

- The Academic Plan incorporates School Design and Student Voice for **Innovation in Support of the Core** (pages 3-4).

Teaching & Learning Core: Focus: equity and excellence in core curriculum and supports.
- The Academic Plan is structured by the HIDOE Learning Organization, and it is founded on the **Teaching & Learning Core** (page 2).

Teaching & Learning Core: Equity and Excellence

In order to address equity, list the targeted subgroup(s) and their identified needs. Specifying enabling activities in the academic plan should address identified subgroup(s) and their needs.

Achievement Gap	Theory of Action	Enabling Activity
Identify and describe an achievement gap including but not limited to Special Education or English Learners or any other sub group. The description must be gathered from a comprehensive needs assessment (CNA), such as Title I CNA, WASC Self Study, International Baccalaureate, and may include additional local measurements. Over the past 5 years there has been a 7% increase in our English Learner (EL) population. In SY 2018-19, EL population increased by 6% to 32%. In SY 2019-20, 116 were enrolled, almost 37% of our student population. There was a slight decrease in SY 2020-21 to 34%. In SY 2021-22, we are at about 40% EL. Note: There is a large overlap between our Pacific Islander subgroup and our EL subgroup. In SY21-22, only 32% of EL students were on track to EL Proficiency, as evidenced by StriveHI, and 2 students exited our EL program. We have focused on providing more EL support and our EL SBA proficiency has started to improve a little. In ELA, 7 were proficient in SY 2018-19, 8 in SY 2020-21, and in SY 2021- 22 6 students were proficient. In Math 8 students were proficient in 2018-19, 4 in SY 2020-21 and the same in SY 2021-22. **SY20-21 SBA Proficiency (according to LDS)** *ELA* *Math* *27.27% All Students* *17.42% All Students* *8.57% EL Subgroup* *5.56% EL Subgroup* *(SW.1)*	*What is your Theory of Action (if-then) to improve the achievement gap?* If we integrate second language acquisition strategies and support into all classes, our EL students will develop the language skills they need to achieve academically. If the language proficiency of our EL students increases, then the achievement gap will decrease. *(PROMISE.2)*	*What are your Enabling Activities to improve the achievement gap?* ● Provide professional development for teachers, EAs, and PPEs on strategies that support second language acquisition. ● Provide collaboration time for Teachers, EL Coordinator, and EL PPEs to review student data, share strategies, and plan for instruction. ● Utilize engagement/collaborative strategies ● Provide daily opportunities to develop and improve basic speaking and oral language skills; post and refer to language targets during instruction in all content areas *(SW.6)* *(WASC.4)* *(PROMISE.2)*

Innovation in Support of the Core: School Design and Student Voice

Describe here your complex/school contexts for School Design and Student Voice. *Aiea Elementary is a Title I school with a high population of English Learners. Our school struggles with low academic achievement, high absenteeism, and behavioral challenges. Aiea Elementary needs to implement strategies to engage students to meet rigorous standards and to prepare them for college and career readiness. (SW.1)*

Describe here your current and continuing initiatives that will further advance your 2020-21 School Design and Student Voice. *Aiea Elementary will engage all students through Project Based Learning and Advancement via Individual Determination (AVID). We will continue to build systems of support, including Response to Intervention (RTI) and Positive Behavior Interventions and Supports (PBIS). (SW.6)*

Describe here your Conditions for Success for School Design and Student Voice *Ongoing professional development for our teachers and staff is needed to successfully implement our initiatives to meet the needs of our students. (SW.6)*

SY 2021-22 Measurable Outcomes	SY 2022-23 Measurable Outcomes	SY 2023-24 Measurable Outcomes
What are your Measurable Outcomes around School Design and Student Voice? What are you designing? Academic achievement will increase by 5% as evidenced by Strive HI. Chronic absenteeism will decrease by 3%. We will begin the work of creating a rigorous and relevant PBL curriculum that actively engages students in real-world and meaningful projects. *(WASC.3)*	*What are your Measurable Outcomes around School Design and Student Voice? Pipeline of Emerging Ideas: Pilot Projects and Design Thinking

When HIDOE references innovation and emerging ideas, the Department is responding to important mindsets that embrace new ideas, replace dated practices, and strive for better solutions. Therefore, the Learning Organization must be prepared to uphold innovative   learning environments that elevate a school's collective work, expand capacity to improve, and continuously advance student learning.

The HIDOE 2030 Promise Plan will be drafted to help school communities open conversations about the *Pipeline of Emerging Ideas*.

School Ideas for Innovation and Pilot Projects	Conditions for Success
Please describe your school's ideas around innovation and pilot projects. 1. Project Based Learning - PBL will foster student engagement, student voice, and motivation. In turn, student attendance and performance will increase as well. We would like to have our students engaged in authentic, deeper learning opportunities and apply their learning to solve real world problems. Students will be excited to learn and find relevance through PBL. Students will improve their communication skills as they learn from and with community partners in the field of study related to their projects. **(PROMISE.4, PROMISE.5)** 2. Technology Integration - Our students need to develop as 21st century learners, where students not only use technology for online curricular programs, but to fully integrate technology and use it to demonstrate their knowledge in multiple, creative ways, and also blend it with critical thinking and planning skills to create and develop products or ways to use technology to help solve problems and find solutions to problems in their community and world. **(PROMISE.4, PROMISE.5)**	*Please describe your conditions for Success:* 1. Project Based Learning - professional development, funding for professional development, community partners, funding for field trips, funding for project materials (as needed), time for teachers to plan **(PROMISE.4, PROMISE.5)** 2. Technology Integration- access to current/updated technology devices, funding for current/updated technology devices, opportunities for professional development on pedagogy and technology tools, time for teachers to plan **(PROMISE.5)**
