# What Does Dual Enrollment (DE) Mean?

Dual Enrollment (DE) is when a student attends the college of their choice (school that they met requirements for) and earns high school credits simultaneously with college credits.

- All schools that we partner with are a part of the University System of Georgia.
- All schools have discretion with regards to credit acceptance.
- If interested with out-of-state schools after graduation **CHECK BEFOREHAND** to decide whether DE is the best option for your student.
- Start with the end in mind! **Dual Enrollment is not a fit for every student.**

# General Eligibility Requirements

## 1604.2. Grade Level Eligibility.

**1. A student must be a 10th, 11th or 12th grade student at an Eligible High School, subject to the limitations set forth in these program regulations.**

**a. Students in the 11th or 12th grade may enroll in any approved Dual Enrollment courses at an eligible participating postsecondary institution (USG, TCSG or private).**

**b. Students in the 10th grade with a minimum SAT score of 1200 or minimum ACT composite score of 26 in a single national test administration, taken prior to the term of enrollment and in the GSFC Dual Enrollment system, may enroll in any approved Dual Enrollment courses at a TCSG, USG or private eligible participating postsecondary institution.**

# State of GA Dual Enrollment:

- ❖ Students grades 11<sup>th</sup> and 12<sup>th</sup> can participate in the Georgia Dual Enrollment program (10<sup>th</sup> graders can participate with specific requirements).
- ❖ **Students can take 30 credit hours of coursework for free (to be covered by State of Georgia). That is approximately 9 courses plus 1 lab. After that, if students would like to continue, they must pay for tuition, fees, and books out of pocket.**
- ❖ **This applies to both Technical System of Georgia students and University System of Georgia students**
- ❖ **More Information:**  
**<https://www.gafutures.org/media/187912/dual-enrollment-schools-faqs-05-13-19.pdf>**

# Transportation!!!!

- Students **MUST provide transportation** even if they are taking virtual classes
- Remember, whatever class you take at the college, you will NOT take at the high school so you might not come on campus until 2nd period or you might leave campus after 5th period
- **You must be in a position to come to school later or leave early**
- We do **NOT** have a holding spot for students. Unfortunately, they are **not** allowed to “sit” in the media center, computer lab, or in a teacher’s room
- Part of the responsibility of participating in dual enrollment is to have transportation
- If your student does not have transportation on/off campus, **dual enrollment will not be an option**
