

## Alliance Academy for Innovation Advanced Placement Program Exam Registration FAQ Sheet

### How do I register for AP exams?

(These are exams that students currently sitting in an AP class take in May to earn college credit for the class.)

- All students must register for AP exams online. Siblings must register separately. Each student needs his/her own individual registration.
- The AP Exam registration is a two step- **two website**- process again this year.
- Students should have already enrolled their AP course on the College Board (CB) website, using a join code provided by the teacher. Contact your AP Teacher for your specific join code. Students **MUST** keep up with their CB account login information. We do not have access to it and students will need it to access scores later.
  - Students **MUST** indicate in each AP course on the CB website whether they will take the exam in May or not.
  - For **screen shots** and detailed instructions on how to access your AP course(s) using your join code(s) visit: <https://apcentral.collegeboard.org/pdf/joining-your-ap-class-section-students.pdf>
  - College Board website: <https://www.collegeboard.org/>
- College Board does not collect exam payments; it only collects the exam order information from students. Therefore, students will also need to login to or create their Total Registration account to make payment.
  - If a student does not have a TR account, s/he should create one.
  - For **screen shots** and detailed instructions on how to register and pay on the Total Registration website: [click here](#).

  - Once a student has indicated s/he is taking a STEM exam, their registration is paused until we verify this information. Once we have verified the information, TR does NOT notify the student that they may now proceed with registration and make payment. *Students need to go back into their TR accounts within 48 hours of initial registration to check on the status of their registration and make payment.*

- Students who have applied for and been accepted to receive Federal Free/Reduced Lunch benefits will receive up to two exams free of charge. They may receive additional exams at a reduced rate.
