### **Please Note:**

All standards in the state course description are designed to be learned by the end of the course. This guide represents a recommended time line and sequence to be used voluntarily by teachers for planning purposes. Specific questions regarding when content will actually be addressed in a specific course are best answered by the individual teacher.

Teachers may use a wide variety of instructional materials throughout their course. The Possible Resources listed may include the district adopted instructional resource or supplemental resources that align to the topic and/or standard. These Possible Resources provide sample problems that align to the topic/standard.

### **Publisher Resource:**

<u>The Practice of Statistics</u> – Fifth Edition – W.H. Freeman & Company (Starnes, Tabor, Yates and Moore)

#### Student Resources

### **Other Course Supplemental Resources:**

**College Board** 

Khan Academy – AP Statistics (in development)

#### **Exam Practice:**

Released AP Exams – AP Central

**AP Statistics Practice Questions - Learnerator** 

AP Statistics Practice Test

AP Statistics Exam Practice - CollegeBoard
