

# What do I need for AP US History 2016-2017?

There is no summer work assignment for APUSH, but it couldn't hurt to think about US history. If you travel, take in some historic sites and museums. Read about the places you go. Watch History Channel and other documentaries and read.

Also consider the following suggestions:

## 1) You should buy

ISBN-13: 978-0393264951

ISBN-10: 0393264955

It's \$14.05 on Amazon.com. It will be an essential tool that we will work with all year.

---

2) You may wish to purchase another APUSH test prep book or flashcard set, available at Amazon or any bookstore. They are priced around \$20 each. **Make sure that anything you purchase is geared for the redesigned (as of 2015) exam.**

3) Another good tool may be the Quick Study Academic laminated pamphlet/chart series: American History 1, American History 2, US Government, US Constitution, and US Presidents. Also available at Amazon and bookstores around \$5 each. They fit in your notebook.

3) Organization is key to doing well in the class. You also need the following supplies. A notebook, preferably a **binder, just for APUSH material, unit dividers, 1-2 single subject spiral bound notebooks. At home, it will be essential to have things like colored pencils, glue, plain paper, lined paper, highlighters.**

4) It will be very important to have access to a good computer and printer as well. Tests will be online and most activities and information are online.
