Students are to answer the following questions in English by writing the answers on paper (Give students questions in the target language, even if they respond in English).

- How many activities does he/she participate in?
- List the sports in which he/she participates.
- List any clubs of which he/she is a member.
- Are any of these activities affiliated with school? If so, which ones?
- Compare and contrast his/her schedule with yours by naming 3 ways they are different and 2 ways they are similar. What is one extracurricular activity he or she might try in the United States?

**Interpersonal Task**: Have students work in pairs to create a list of questions to ask two other classmates based on the classes that they're hoping to take next year,

what classes they like and dislike, etc. Give students a report card in Spanish and have students work in pairs to compare and contrast similarities and differences.

You will have to explain why you have chosen to take these courses, or why you never want to take these courses in Spanish for the class. Write an official decree (in a letter) to your people explaining your choices.

### Key learning events needed to achieve unit goals

 Based on the Model Lesson Plan (Short, J. & Travalini, G., N.D. http://www.doe.k12.de.us/infosuites/staff/ci/content\_areas/files/wl/WLStudentLifeDMUG11-08.doc Accessed August 6, 2012)

### **Description of School Experiences:**

- Show the video <u>http://www.youtube.com/watch?v=Ao1NadV0Y8o&feature=plcp</u>. Have students jot down 3 school subjects that the kids mention in English. Share out
- Using several authentic schedules, identify the school subjects first by cognates. Then, using dictionaries, have students identify the remaining vocabulary. Have students sort classes by subject matter (Algebra and Trig with math; Spanish and History with Letters, etc).
- Give students flash cards, have students listen and repeat correct term for each in Spanish.
- Using a find someone who... model, fill in 9 boxes with statements like: tiene ingles los lunes. Have students circulate the room asking "tiene ingles los lunes" and filling in the boxes with students' names. Each box should have a different sentence.
- Have students listen to an authentic dialogue with native speakers discussing their school schedules. Have students answer questions based on the recording.
- Put students into groups of 2-3 students. Give students flashcards with names of classes. Have students create 3 sentences in Spanish to describe the classes without using the name of the class. Each group must read the sentences to the class and the class must guess the correct answer.
- Present the set of classroom objects and tools. Have students do a vocab sort to sort the objects by which class they'd associate them: I.e. a calculator with algebra, a dictionary with English or Spanish, a map with history.
- Have students create their own "backpack" with school supplies. Have students mix their cards in groups of four. Have students play "go fish" with their backpacks: ¿Tiene dos cuadernos? No, Ándale pez.

### Forming Questions:

- Give students a piece of Kraft paper and markers. Divide students into groups of 3-4. Have students brainstorm questions they've already seen this year (I.e. what is your name, how old are you, how are you, where are you from, etc.). Have students produce as many questions as they can. Present to the class. As students use new question words, write them on the board. For each example, show students an affirmative and a negative example.
- Have students write 5 questions using a different question word for each. Next, have them go around the room and interview 2 people in Spanish and receiving their responses in Spanish. Have students write down the answer in Spanish.

### Telling where things are:

- Place classroom objects around the room. Put up a list of location words: next to, on top of, near, far, under, between, etc. Model each one with a classroom object and location word. Use only Spanish. Have students describe where each classroom object is. Ask: Where is the stapler? Esta en el mesera.
- Give students a small artifact, such as a doll. Send a student into the hall. Have the students hide the artifact. Then, have the student come back into the room, asking people "Donde esta..." Have students use only Spanish.

### Describing how you're feeling:

 Present the vocabulary set on how to describe feelings about a class, subject, teacher, or situation. Give students a list of qualifiers, such as: It is difficult,

- easy, fun. Have students practice describing the classes they like and don't like.
- Give students the writing prompt: What would your ideal classroom be like? What would you have in it? What wouldn't you have in it? Write at least 6 sentences. Then, draw a picture of your ideal classroom.

## Counting to 1,000:

- Have students count from 1-100. Review numbers by giving students flash cards with a number on it to read. Have students ask their partner their phone number, address, and age. Next present the numbers 100, 200, 300, 400, and 500. Have students practice reading numbers out loud.
- Give students math worksheets with simple arithmetic for which students must solve and write the solution in Spanish. Give students flash cards in the shape of a locker with numbers written out in Spanish to be sorted in chronological order.
- Present the numbers 600-1,000. Give students a card with a number on it (ones place, tens place, hundreds place). Make sure you have a good record of the combinations you have out there. Read numbers and have students arrange themselves in the front of the room (948 the 900s card, the 40s card, and the 8 card should get up).
- Review the numbers 100-1000. Have students share phone numbers, locker numbers, addresses, birthdates and years, important dates. Have students guess a counting of certain school supplies: ¿Hay cuantos libros de español? Hay mil doscientos dos libros. Other activities for reinforcement: play bingo, play a number sorting game where students have ones place, hundreds place and thousands place. Call out numbers and have students arrange themselves in the front of the room with the cards in the correct order.
- GRASPS task: You are journalist for your school newspaper. Your assignment is to interview the new foreign exchange student from the target language culture. Since he/she cannot speak English, you must conduct your interview in the target language. Create a variety of questions using both information and yes/no questioning techniques. You must interview the exchange student and record his/her responses. Then write an article about the student in third person.
  - o G- To write an article about a foreign exchange student.
  - R- Journalist for a school newspaper
  - A- School students and staff
  - S- You are journalist for your school newspaper. Your assignment is to interview the new foreign exchange student from the target language culture. Since he/she cannot speak English, you must conduct your interview in the target language.

  - S- Create a variety of questions using both information and yes/no questioning techniques. You must interview the exchange student and record his/her responses. Then write an article about the student in third person.

### How are my school experiences different from those of other cultures?

 Authentic culture stimulus: Use the "Say Something" strategy (Student partners work together to decide how far to read silently before stopping to "say something" that can be a summary, a question, or a connection. At that point, both students should say something. The process is repeated until the end of the text. Then, the whole class will meet to discuss the text.) Students read a culturally authentic article from a magazine about activities. Students highlight the sports/leisure activities they recognize and circle the cognates. Students and teacher compile a class vocabulary list from their results. Teacher adds other desired vocabulary.

- Have students compare / contrast their own lives and leisure activities to those presented in the articles. Have students share out similarities and differences. Record these items on the board in a graphic organizer.
- GRASPS task: You are either a coach or an advisor for a school club/sport.
  Your sport/club is in danger of being cut due to low enrollment. You must
  design a brochure in the target language for open house highlighting the
  benefits of your program. You must include vocabulary from this unit. Rubric
  - G- Persuade students to join your club/sport
  - R- coach/advisor
  - A- students
  - S- You are either a coach or an advisor for a school club/sport.
     Your sport/club is in danger of being cut due to low enrollment.
  - o P- Brochure
  - S- Brochure must be persuasive and include vocabulary from this unit.
- Students will look through all the brochures and choose the one sport or club they would like to join and explain why verbally in the target language.
- Organize students into small groups of 2-3 to exchange brochures from the GRASPS task. Each group creates a set of questions in the target language for students to answer about the brochure or the sports or clubs. The students will then answer these questions as a group in the target language.
- Students complete a Mi horario graphic organizer (a blank school schedule) on tomorrow's schedule. Based on their schedule, students write a paragraph in the target language stating which classes they like and which classes they dislike. Students will write at least 5 sentences, using Gustar and Estar at least once. Students then meet in pairs and write an essay in Spanish comparing and contrasting their schedules.

### **Differentiation**

- Instead of showing students flashcards you designed, you, the teacher, could break the kids into small groups or even have them work individually to create their own flashcards.
- Instead of having the students type their interview and write it in the form of a newspaper article, they could present their interviews in front of the class.

- Another suggestion is to have the students incorporate technology by typing their articles, using Microsoft Publisher or another similar program, to produce realistic-looking newspaper columns.
- This strategy is broken into three types of categories, depending on the level of the students (low, mid, high). Low: students create a collage of pictures of different sports and leisure activities, labeling the activities in the target language. Mid: students provide 8 pictures of sports and leisure activities and write a sentence about each one in the target language. High: students provide pictures of sports and leisure activities and write a paragraph about those activities in the target language.

## Suggested Performance/Transfer Task(s)

#### Interpersonal (Role Play):

Students will choose and perform a role-play based on one of the following situations:

- A. You will invite a friend to your new amusement park over the telephone using all necessary and polite conventions of telephone etiquette.
  - a. Person A will be the proud owner of a new amusement park, and will ask questions over the phone to see if Person B would like to travel with Person A to the park. Person B will decline, but Person A will be persistent until Person B agrees.
  - b. Person B will be asked to travel to the new amusement park owned by Person A. You may decline up to three different ways, but will eventually be persuaded to go with Person A.
- B. You will phone a point of interest to request specific information about its operations (i.e. time, address, what activities they perform, etc).
  - a. Person A will be the receptionist at the point of interest.
  - b. Person B will request information from Person A.

Your role play must be three minutes in length, memorized, and should be creative. The focus will be on vocabulary, grammar, tone, pronunciation, eye contact and memorization. Extra credit will be given for creative props.

**Differentiate:** Give students a conversation to put in order based on one of the scenarios.

#### **Interpretive Assessment:**

You're the proud owner of an amusement park. Your park has a basic layout, basic rides, and basic food stalls, but it needs sprucing up. Given \$100,000 dollars, what improvements will you make to your park? You must make at least 5 improvements.

## Key learning events needed to achieve unit goals

#### **Leading to the Interpersonal and Interpretive Assessments:**

Amusement Parks and Other Leisure Activities

- I. Present Amusement Park Vocabulary. Show students various plans for familiar and unfamiliar parks in Spanish. Have students create a list of words for the rides. Have students sort the rides by big and small rides; have students sort vocabulary by fast and slow rides; have students sort vocabulary by adult and kiddy rides. Have students design their own ride and give the name in Spanish. Have students share their work with the class.
- II. Have students brainstorm ways they spend their leisure activities. Create a list on an overhead. Tell students in Spanish about your own (real or imagined) leisure activities. Give students the vocabulary in Spanish. Have students create a new weekly activity schedule for their school. Have students include weekend activities like going to the amusement park, park, movies, etc.
- III. Give students a list of leisure activities. Have students sort activities that they like and don't like to do. Review *Gustar* with infinitives. Have students share out three activities.
- IV. Give students a list of telephone expressions. Act out a short phone call to someone you know by yourself to teach students vocabulary. Next, give students a copy of the dialogue. Act out the skit while the students read through aloud (in chorus). Next, practice with one or two students in front of the class. Have students role play in partners a situation. Give students situation cards (Person A asks person B to the movies; person B declines. Person A asks person B to go to the park, and person A accepts, etc). Have two or three share out for the class. Give students a copy of a phone conversation with parts of the conversation blanked out that students should fill in in groups or independently.
- V. Review phone etiquette vocabulary with students. Give students more specific guidelines for this part of the lesson. Remind students that they'll use formal discourse on these phone calls. Give students a list of vocabulary expressions to make polite requests and ways to address people on the telephone. Give students a list of requests that Person A has to make of Person B. Have students practice with their partner making the requests. Have Person B be the business end of the phone call. Your topical cards should include: information (hours of operation, address, etc), the price for two items, etc). Have students role play for the class.
- VI. Give students a copy of the amusement park you've created. Have students label each of the rides and food stalls. Next give students a list of ride costs and tell them to pick, based on the current map, which would most likely be a good improvement. Next show students an excel spreadsheet in which you've created a template for the budget. Review numbers up to 100,000. Have students practice filling in hypothetical improvements and reporting on the calculations they're getting.

VII. Show students the structure Que + Adjective. Remind students that adjectives agree in gender and number. Have students write an advertisement campaign for your amusement park as practice.

#### **Leading to the Presentational Assessment:**

- I. Have students list the leisure activities they do regularly on butcher paper. Display the butcher paper for the class to see. Have students write 4 sentences of things they're doing this week. Write four activities on the board. Ask which activities students did last week. Write those activities in the preterit on the board. Using AR verbs, show students an example sentence in the preterit for each subject pronoun. Have students write down the grammar rule with their partner. Have students write a facebook message to another student in the class telling three activities he or she did last week and asking which activities person B did. Have person B respond. Show the conjugations of ER and IR verbs in the preterit. Have students practice these verbs by playing battleship and the dice game.
- II. Have students read an article you wrote about your park. Include structures Que + Adj as well as the preterit where appropriate. Have students work in pairs to write a paragraph about an imaginary amusement park. Have students brainstorm ideas for their amusement park, including rides, decorations, and food stalls. Have students write the paragraph based on the brainstorm list. Have students read and peerevaluate other students' writings.

Unit Title: iBuen Viaje!

Designed by: Stephen M. Benscoter
Content Area: World Language-Spanish

Grade Level(s): M2

#### **Summary of Unit**

The goal of this unit is to familiarize students with various modes of transportation and ways to travel. In it, students will discuss modes of transportation and travel, list parts of a car, give and respond to commands, and plan a vacation to Spain, Chile, or Guatamala.

The unit involves primary sources, collaboration, research, and conversation. This unit is aligned to the M2 standards and should be taught in a school where students have had Spanish for one year. During this year, this unit would be taught as the fifth unit of the course intended to build on listening and speaking skills, since these are needed for the Interpersonal and Presentational Assessment.

# Stage 2 - Assessment Evidence

Evidence that will be collected to determine whether or not Desired Results are achieved

#### Suggested Performance/Transfer Task(s)

#### Interpersonal (Role Play):

Students will perform a role-play based on one of the following situations:

- A. You will confirm your travel arrangements (on the phone) with the travel agency, and then check in at the airport ticket counter.
  - a. Person A will be the traveler, and will ask questions over the phone to clarify travel arrangements with Person B. Then, person A will check in at the ticket counter at the airport and Person B will be the ticketing agent.
  - b. You will ask questions to confirm your trip (destination, airports, times, dates, price, etc). You may ask clarifying (follow-up) questions.
- B. You will pass through the customs check point.
  - a. Person A will be the customs officer and Person B will be the traveler.
  - b. Person A will ask questions about Person B's trip, luggage and purchases, etc.
- C. You will describe problems that your rental car has to a mechanic while you were on the way to a travel destination.
  - a. Person A is the traveler and Person B is the mechanic.
  - b. Person A experienced car trouble while en route to a travel destination. Person A describes the problems that the car has. Person B, very

knowledgeable, will correct any mistakes about the car's parts said by Person A.

Your role play must be three minutes in length, memorized, and should be creative.

The focus will be on vocabulary, grammar, tone, pronunciation, eye contact and memorization. Extra credit will be given for creative props and costumes.

**Differentiate:** Give students a conversation to put in order based on one of the scenarios. For increased rigor, have students design a video for one of the following to instruct others how to do one of options (i.e. instructional video to pass through customs check point).

## **Interpretive Assessment:**

Your aunt and uncle just won the lottery, and, as a gift, have decided to give you \$6,000 for you and a friend to take a trip to Venezuela or Colombia. You can only take one quest.

#### Your task:

- I. Assuming you already have a passport, create a budget for your trip, including:
  - 1. Airfare
  - 2. Lodging for at least 4 nights
  - 3 Food
  - 4. One event or tourist point of interest per day (five in total)
  - 5. Try to use all of the money given to you.
- II. Create a PowerPoint of the places you visited, including pictures. You will later present this to the class.
- III. Write a one-sentence description of each place and another sentence to explain why someone should visit this location.

**Differentiate:** Give students a list of potential hotels to stay and websites (like kayak.com or orbitz.com) that include airfare and hotels together. For increased rigor, give students only 5,000 and see who could survive the longest in that country. Ask students to find ways to economize in order to maximize their stay.

## **Presentational Assessment:**

- I. Using your model trip from the interpretive assessment, research the places you've visited to provide two historical facts or two reasons tourists should visit these places for each of the five places.
- II. Create a tourist pamphlet describing the area you visited, providing all information in Spanish about the tourist points of interest.
- III. Create a three-minute dialogue in which you travel through the city (to the different places you've visited) on at least three different forms of transportation. Use PowerPoint as a visual aid to enhance your dialogue.
- IV. Present your dialogue to the class and submit your pamphlet to the "tourist agency" to vote for the trip of the year (the class will serve as the tourist agency to vote for the best project).

**Differentiate:** For kinesthetic learners, have students create a bulletin board in lieu of a pamphlet or have students create a commercial for a package that includes the places s/he wishes to stay.

# **Stage 3 – Learning Plan**

(Design learning activities to align with Stage 1 and Stage 2 expectations)

#### Key learning events needed to achieve unit goals

Lesson Opener: Show a video or series of videos from the YouTube channel: <a href="http://www.youtube.com/user/Colombiatravel/videos">http://www.youtube.com/user/Colombiatravel/videos</a>

- 1. Have students ID 3 things featured in the videos that they'd live to visit in person.
- 2. Have students in groups of 2-3 suggest a travel location in the United States' east coast to market to Colombians. Which location would they choose and why?
- 3. Have students define "vacation" and explain what a vacation means to them personally. Would your idea of vacation be the same as everyone else's? Why or why not?

#### **Leading to the Interpersonal Assessment**

#### Modes of Transportation

I. Introduce transportation vocabulary by showing different forms of transportation (images) and where you could go in Spanish:

Viaie a Argentina en avión.

Voy al supermarcado en bus.

Give students pictures with destinations (near and far) and have them sort by forms of transportation necessary to arrive there. Discuss as a class.

- II. For each form of transportation, give verbs and other related vocabulary: **EN AVIÓN:** *voler, aeropuerto, piloto,* etc.
- III. Have students write and perform a skit in which they use at least 2 forms of transportation (between 10-15 lines of dialog).
- IV. Prepare situations that you act out using a particular form of transportation and have students guess where you are. (Tengo mi saco a mano y mi billeta por Perú). Next tell a story where you're taking an incorrect form of transportation (i.e. a plane to the market, a car from Delaware to Europe, etc). Have students suggest a correct form of transportation.
- V. Have students write a 3-4 sentence paragraph naming a trip that they took recently, where they went, and which forms of transportation they used.

## Travel Vocabulary

- I. Show a picture of an airplane. Give students a map of the airport and have them label different locations in Spanish. As a class, prepare to take a trip by "purchasing" a ticket to a destination that you've selected. Give students blank passports and Tickets. Have students fill in the data on the tickets and passports.
- II. Students are likely not to have traveled extensively. Set up a ticket counter in the front of the room. Walk students through the process of checking in at the ticket counter. Perform a pre-made dialogue with one of your students that involves:
  - a. Checking in
  - b. Luggage check in
  - c. Going through security checkpoints
  - d. Going through customs
- III. Have students design their own skits where they role play each of the four locations (II.a-d).

#### Commands

- I. Have students stand and demonstrate directional words (left, right, straight ahead, etc). Demonstrate the action "Go straight, turn right, etc" Practice giving students commands, then ask another student to give commands to you.
- II. Rearrange the classroom desks in a maze. Blindfolded, have students give you directions from one side of the room to the other. Next, have students take turns giving directions through the maze.
- III. Take a classroom field trip around the floor of your building in which you give students directions in Spanish.
- IV. Show students command formation rules (5 forms) You (informal, formal, informal plural, formal plural); We
- V. Have students work in groups of 2 to write as many commands in Spanish in 5-7 minutes. Share with the class. Show students the irregular commands.
- VI. Divide students into groups of 5-6. Give students whiteboards. Have students relay race to conjugate all five command forms of the verb you've chosen. Only one student can do the TU form, one student does the USTED form, etc. The last student has to write all 5 forms on the board to win the point.
- VII. Have students write directions from school to home (or another place of your choosing). Students must include at least 5 different commands.

#### Road Trip

Tell students: Let's imagine that we're going to take a road trip across Venezuela. What are some of the vocabulary and other information we should know?

- 1. How to get a license
- 2. Parts of the car
- 3. Places
- 4. How to ask for help (and respond).
- I. Give students an application for a license to fill out in Spanish. Have students do a driver's test with an office chair following the commands of their examiner. Have students practice asking and answering questions from the license form and responding (¿Comó se llama?)
- II. Show a diagram of a car and label as a class the separate parts (windshield, wheels, motor, etc). Have students design their dream car and label all parts.
- III. Show a map of Venezuela. Have students write directions from one city to another.
- IV. ROLE PLAY: Your car broke down ask for help with a specific problem.
  - a. Give students a slip of paper with a particular problem, such as a cracked windshield.
  - b. Model how you could ask for help and respond (use commands).
  - c. Have students circle around the room and ask 3 people for help. Have students respond to their requests for help by using commands.

## [Interpersonal Assessment]

#### **Leading to the Interpretive and Presentational Assessments**

- A. Jigsaw: Prepare readings or other materials on Spain, Chile, or Guatemala that focuses on:
  - 1. Currency
  - 2. What kinds of things I can take along (in a suit case or in a carry on)
  - 3. Points of Interest

Students will be searching to answer the question: What do I need to plan a vacation in a foreign country?

B. What are the most visited points of interest in Spain, Chile, or Guatemala . Give students access to a computer lab in which they will find 2 points of interest in one of the countries. Have them compare their results with another group. Were your discoveries the same? If not, explain what attracted you to these points of interest.

# Resources and Teaching Tips

- http://www.youtube.com/user/Colombiatravel/videos
- Students may not have traveled extensively. If so, take time to walk through things like airport travel so that students can visualize the process, then focus on vocabulary in context.
- This unit lends well to a lot of kinesthetic learners. Students have fun moving around the room for different tasks (such as directions and role-play).
- Textbook and ancillary resources as needed.
- Teacher-created PowerPoint, overheads, and other visuals
- Vocab sheets for specific unit vocabulary sections (i.e. parts of the car)

#### **Differentiation**

- Stage 2 and 3 allow students to demonstrate understanding with choices, options, and/or variety
  in the products and performances without compromising the expectations of the Content
  Standards
- Instruction is varied to address differences in readiness, interest, and/or learning profiles.
- Accommodations and differentiation strategies are incorporated in the design of Stage 2 and 3.

# **Design Principles for Unit Development**

At least one of the design principles below is embedded within unit design

- **International Education** Students focus on another culture to enrich their international education by comparing and contrasting American travel destinations to those of Colombia and Venezuela.
- 21<sup>st</sup> Century Learning Students use a variety of technologies to demonstrate
  access and employment of higher order thinking skills relevant to the global job
  market.

# **Technology Integration**

The ability to responsibly use appropriate technology to communicate, solve problems, and access, manage, integrate, evaluate, and create information

- 8<sup>th</sup> Grade Technology Literacy the ability to responsibly use appropriate technology to
  communicate, solve problems, and access, manage, integrate, evaluate, and create information to
  improve learning in all subject areas and to acquire lifelong knowledge and skills in the 21st
  Century(SETDA, 2003).
- Students use video and audio recording as part of their assessment.
- Students use computers, internet, and other digital resources to experience other cultures.

# **Content Connections**

Content Standards integrated within instructional strategies

Students draw from Social Studies in reading maps and giving directions. Students use the Arts to design their dream car and travel pamphlet.
