

## Acceptable Calculators

The following calculators are acceptable for use on the Math Test – Calculator. Only this test permits the use of a calculator (unless a student has an approved accommodation). This list doesn't include every calculator model. **Call PSAT/NMSQT Support if you aren't sure about a calculator that's not on this list.**

- All scientific calculators, which can perform complex mathematical functions but don't have a graphing feature, are acceptable as long as they don't have any prohibited features given under Unacceptable Calculators.
- All 4-function calculators are acceptable but not recommended.
- Graphing calculators included in the following table are acceptable.

## Unacceptable Calculators

Students are not allowed to use any of the following calculators, unless specifically approved by College Board as an accommodation:

- Laptops or other computers, tablets, mobile phones, smartwatches, or wearable technology
- Models that can access the internet or have wireless, Bluetooth, cellular, audio/video recording and playing, camera, or any other smartphone-type features
- Models that have a computer-style (QWERTY) keyboard, pen input, or stylus

- Models that use electrical outlets, make noise, or have a paper tape

In addition, the use of hardware peripherals such as a stylus with an approved calculator isn't permitted. Some models with touchscreen capability are not permitted (e.g., Casio ClassPad). Check the list of acceptable graphing calculators above for models that are permitted.
