Welcome to a wonderful, exciting year of American Sign Language (ASL). We have many fantastic plans and ideas for helping you to excel in your journey through ASL and Deaf culture. We are looking forward to the possibilities ahead of us for this year and hope you share in our excitement. It is very important that you understand some very basic things before we begin:

This class involves much interaction and presentation of skills in ASL. Standing in front of your peers is a difficult thing to do and is often heightened by an inattentive, disrespectful audience. As a member of this class you will help create a “**safe environment**” through *support* and *encouragement* in daily activities and especially during presentations of expressive projects. This is done by treating your teachers, your peers, yourself, and others with *respect* at all times. We are a team and you are expected to act in such a manner of support and encouragement to your classmates at all times. Any inappropriate actions and/or remarks (signed or spoken) will not be tolerated. Any student not doing his/her part to help create and maintain a “safe environment” will be dealt with accordingly.

Completion of both 0717300 - American Sign Language I, and 0717310 - American Sign Language II, meets the foreign language requirement for admission to the State University System of Florida and for eligibility for two Bright Futures Scholarships (i.e., the Florida Academic Scholars Award and the Florida Merit Scholars Award).
