Dear Susan Bunting, the State Board of Education, and Governor Carney,

I oppose the government impeding on my parental rights and forcing my child to wear a face covering while indoors. It should be up to each individual parent as to whether or not we choose to vaccinate or mask our children as we are the ones responsible for their health and well being. My healthcare provider and I discuss any questions or concerns I have about my child's health, I then make informed decisions based on their knowledge, my family dynamic and health history. I have done my due diligence in researching COVID as it applies to my child. Here are some statistics taken directly from [https://myhealthycommunity.dhss.delaware.gov/locations/stateAs of 8/13/2021Positive COVID cases for ages 5-17 since the beginning of COVID in March 2020 in the state of Delaware-13,987 making up 12% of total cases.Total Deaths from COVID for ages 5-17 since the beginning of COVID in March 2020 in the state of Delaware- 1 making up 0% of total cases. This compares to 83% of deaths from COVID in the state of Delaware were individuals ages 65+ years. If a parent chooses to send their child to school with a mask due to their own medical needs or their family needs they should have that choice. Just as I have the choice to let my child breath fresh air, smile at others and speak clearly without a piece of fabric over their face. I know my child is safe and healthy and if they contract COVID, statistics show their chance of recovery is more than 99%I will continue to take care of my responsibilities as a parent and for the health and well-being of my child. I do not need the government to mandate my family's well being. Sincerely,Courtney](https://myhealthycommunity.dhss.delaware.gov/locations/stateAs%20of%208%2F13%2F2021Positive%20COVID%20cases%20for%20ages%205-17%20since%20the%20beginning%20of%20COVID%20in%20March%202020%20in%20the%20state%20of%20Delaware-13,987%20making%20up%2012%25%20of%20total%20cases.Total%20Deaths%20from%20COVID%20for%20ages%205-17%20since%20the%20beginning%20of%20COVID%20in%20March%202020%20in%20the%20state%20of%20Delaware-1%20making%20up%200%25%20of%20total%20cases.%20This%20compares%20to%2083%25%20of%20deaths%20from%20COVID%20in%20the%20state%20of%20Delaware%20were%20individuals%20ages%2065%2B%20years.%20If%20a%20parent%20chooses%20to%20send%20their%20child%20to%20school%20with%20a%20mask%20due%20to%20their%20own%20medical%20needs%20or%20their%20family%20needs%20they%20should%20have%20that%20choice.%20Just%20as%20I%20have%20the%20choice%20to%20let%20my%20child%20breath%20fresh%20air,%20smile%20at%20others%20and%20speak%20clearly%20without%20a%20piece%20of%20fabric%20over%20their%20face.%20I%20know%20my%20child%20is%20safe%20and%20healthy%20and%20if%20they%20contract%20COVID,%20statistics%20show%20their%20chance%20of%20recovery%20is%20more%20than%2099%25I%20will%20continue%20to%20take%20care%20of%20my%20responsibilities%20as%20a%20parent%20and%20for%20the%20health%20and%20well-being%20of%20my%20child.%20I%20do%20not%20need%20the%20government%20to%20mandate%20my%20family's%20well%20being.%20Sincerely,Courtney)

Dear Susan Bunting, the State Board of Education, and Governor Carney,

I am opposed to a broad mask mandate for children grades K-12 attending school. The emotional, mental, and even physical negative side effects of mask wearing are of far greater risk than the much smaller risk of a child contracting covid or developing a severe case of covid. The decision about mask wearing should be optional and one that is selected on the advisement of the parent, the student, and possibly their physician. All of life brings potential risks, such as every time we ride in a vehicle. We cannot go through life operating on a constant sense of fear. We can also not move forward as a society damaging our children's academic, social, and emotional well-being. Please rethink this position and remove your statewide mandate for schools.

Dear Susan Bunting, the State Board of Education, and Governor Carney,

I am writing today to discuss my feelings on mask wearing. Simply, we have never as a society put the old before the young. Last year, I get it. There was not a vaccine to protect those adults at home. This year is different. I, as a parent, feel it should be my right to decide if my child needs to wear a mask in order to protect us. Teachers and the staff at the schools can now protect themselves with the vaccine. My household has chosen to trust and get the vaccine. We do not feel it is necessary for our daughter to mask all day at school to protect us. I believe we need to now put our young first. Their social and emotional well being and development is at stake. Our daughter has already shown high anxiety since her mask wearing began. She used to be excited to be around others and make friends. Now she is afraid and nervous to be away from me. Being said, I DO NOT believe this is wholly the school's fault, but I see no reason that the reigns of choice could AND SHOULD not be handed back over to the parents to make the mask decision for their individual child. We can choose all other health and social decisions for ourselves and children, but why not this? Why can the families who highly oppose being maskless not continue to be virtual? Why make all suffer for a few? Especially with all the data collected that shows children are not generally effected by Covid and that masks are not entirely effective? I would like a study done on the masks and all the bacteria, staph, and other viruses they hold. Why are weekly test not posed as a compromise to letting the children be maskless? To quote my daughter, "Why are they so scared of me? Am I a sick person? I don't have the virus. Something must be wrong with me." Something is wrong, but it is most definitely not with the innocent children of the COVID 19 pandemic. Children should not be subjected to adult fears. Especially when a vaccine is available for all those who are fearful. The other option for those who are fearful is for them to stay home and be virtual. Please, I am pleading for you to give parents back our right to decide how to protect our children. In this letter, I am trying to protect my child from another year of being socially and emotionally effected and delayed by Covid practices. Please consider a masks recommended year. I implore you to please help us help our children as we, the parents, see fit. I am tired of making medical co-parenting decisions with the district and the government. Please allow me to be the parent of my child. God chose me to be her mother and I will do everything in my power to do the best job I can in keeping her physically and mentally safe and protected. I look forward to the upcoming school board meeting and respectfully voicing my concerns to the entire school board. I wish everyone well on the school district board and hope that decisions will be made that put the children first.

Dear Susan Bunting, the State Board of Education, and Governor Carney,

It should be the parents choice to make their child wear a mask. In an event that you can't allow that then funding needs to be made available to parents who want to home school or choose an alternative option. I home schooled my children last year because of the mask mandates and I'm looking to do so again today. I have one daughter who is autistic who mentally can't tell you if something is wrong with her. If a women can choose to have an abortion against the father's wishes because it's her body her choice then I or my children should be able to choose if they want to wear a mask. Nobody is helping us raise these children or there for us if we loose a child due to what masks long term affects have on people especially children. This mandate violates all of our god given rights! And weather you believe to uphold the constitution it's what our country was founded on.

Dear Susan Bunting, the State Board of Education, and Governor Carney,

IF science is being followed, these mask mandates will not be Effective. In addition are causing more side effects: some breathing issues of carbon dioxide, headaches, social isolation and diminished learning OVER TIME to our CHILDREN. They are Not going to school in Hospitals / Clinics either if you still think it's "Scientific." This is really getting out of control. Shame on you, our "elected officials" of political sheep and not Accuracy.

Dear Susan Bunting, the State Board of Education, and Governor Carney,

With the abundance of scientific studies that have proven the COVID 19 virus is not a natural occurring virus, and that children are neither carriers nor susceptible to the virus, and that the survivability rate for persons under the age of 70 is greater than 99.996%, and scientific evidence proving mask wearing is ineffective in preventing the spread of the virus, there is no justification for mandating the wearing of masks in any public or private setting. Dr. Anthony Fauci has stated, "at best, the provide emotional comfort". The CDC has also stated that masks should not be worn by healthy individuals. Putting our children in masks will cause significant psychological harm far greater than the possibility of getting sick from COVID.

Good Afternoon,

I understand that it is in the best of everyone's interest to protect our children. While this may be something that previously has been discussed it is also known that the masks do not protect against the virus. The masks also take away from the children, direct interaction between their peers and teachers/staff and is a distraction.

Not to mention that, this virus will not be going away anytime soon. While continuing to try to protect our children from the virus the masks will harm our children by weakening our children's immune systems.

Continuing to wear masks is not going to ensure that the virus will not spread throughout the schools. As the virus can be transmitted in other ways besides the nose and mouth. Understandably some students and staff may not be vaccinated as is their choice. This is not an FDA approved vaccine and the long term effects are not yet known. By continuing to wear masks is what will prolong the fear in our children causing psychological damage. Our children have gone all summer without a mask, why now, when our children return to school must they wear a mask? This is telling my child, unless they wear a mask they cannot attend school or see their peers unless socially distanced wearing a mask.

While I respectfully understand you as a school board are held to the Governor's Mandate, I am asking you as a school board to do what you are elected to do and to fight for our children. Give us, the parents a choice in our children's health safety and well being, while not hindering their education.

In closing, I am speaking for all children, I believe that the parents should be able to have a choice in the upbringing of their children in regards to health, safety and education.

Sincerely,
Felicia Quinn

Linked is my petition to Governor Carney as well. Thank you!

Good afternoon,

I am a Delaware resident and live in the IRSD. I'm writing to express my opposition to the school district requiring our children to wear a mask.

It is a parents CHOICE if we want our children to wear a mask or not. Just as it is our choice to vaccinate or not, just as it is our choice what food we allow our children to eat or not eat or the shows we allow our children to watch or not watch.

If the school is requiring masks for the "health" of our children will they also be enforcing other guidelines to ensure every facet of our children's physical , mental and social health?

The school is not responsible for the health of my child, they are responsible for teaching our kids. I don't need to be a doctor or a nurse or a government official to make a health decision for my child or my family. on what they think is best for my child or my family. If that was the case

Please see this article of a local school not requiring masks.

https://www.oceancitytoday.com/news/worcester-county-schools-release-return-plan-with-masks-recommended-but-not-required/article_4f31bcde-ff74-11eb-a513-2fee2d862f34.html?utm_medium=social&utm_source=facebook&utm_campaign=user-share&_FB_PRIVATE_TRACKING_=%7B%22loggedout_browser_id%22%3A%229b3a43142b36d306ade6516a1093f1ced759a4bb%22%7D&fbclid=IwAR2udxAIKBMycxgnsKUVI9jBS5GZ8EK_N9CeTq6zygcCrnE3xr_imX7U7I

Dear Mrs Bunting,

I am writing to urge you to repeal this mask mandate in schools. My youngest will be going into second grade and has not had a normal school year to date. The foundation of his education has already been disrupted drastically. The numbers of covid and covid related deaths in Delaware do not warrant masks. I can't even imagine what this world looks like to our children. My youngest is also suffering mentally. You have no idea how sad it makes me to see the change in him from a happy, outgoing little boy to one of being afraid to leave the house. The anxiety this is causing him is heart wrenching. If adults are afraid of getting the virus they can get vaccinated. If parents are afraid of their children getting the virus let them wear a mask. You are taking away the very freedoms that this country that I love was founded on. Life Liberty and the pursuit of happiness. Let our children be happy children. Give us back our right to choose.

Sincerely,
Elizabeth Stambaugh

Dear Susan Bunting, the State Board of Education, and Governor Carney,

Please, for God's sake, listen to us. We are the parent of children in the school districts in Delaware. We are begging you, please... end the mask mandates for children. We are asking you bc OUR children are suffering and there are so many other parents that can't speak out bc of fear that they will be reprimanded for doing so. Please Mr. Carney... I have 5 children and all have suffered some type of negative outcome from wearing masks for the last 18 months. You are being told by ppl that have another agenda in mind... specifically Agenda 30. If you aren't part of this Agenda, at least do your research on this and open your eyes to what is actually going on. I pray that you see God loves you and he wants and needs you to make the right decision here. God has entrusted us to raise his children in Christ, I pray your mom did the same.

Dear Susan Bunting, the State Board of Education, and Governor Carney,

Follow the science...With the abundance of scientific studies that have proven the COVID 19 virus is not a natural occurring virus, and that children are neither carriers nor susceptible to the virus, and that the survivability rate for persons under the age of 70 is greater than 99.996%, and scientific evidence proving mask wearing is ineffective in preventing the spread of the virus, there is no justification for mandating the wearing of masks in any public or private setting. Dr. Anthony Fauci has stated, "at best, the mask provides emotional comfort". The CDC has also stated that masks should not be worn by healthy individuals. Putting our children in masks will cause significant psychological harm far greater than the possibility of getting sick from COVID. At the beginning of this pandemic, the CDC advised people that cloth and paper masks do nothing to protect people. So what has changed to make these mask safer? Nothing! You have no right to make my child wear a useless mask. Stop making decisions, that gravely impact our children, out of fear of whatever it is your scared of.
