

Welcome to 7th grade science with Mrs. Bailey!

This is my 16th year of teaching.

I'm certified in math and science, but science is my favorite subject!

I love travelling and fishing.

Both allow me to see and experience science at its best in natural surroundings. My hope for both my in-class and distance learners is that they will share my love of science, too.

Science rocks!

Topics of study this year:

- Nature of Science
- Energy and Heat
- EM Spectrum and Waves
- Earth's Layers
- Plate Tectonics
- Earth's History
- DNA/Genetics
- Evolution
- Ecology

Classroom Expectations:

- Students will put forth 100% effort in completing all assignments.
- All work is turned in on time.
- Students are on time and prepared for class.
- Students are engaged in class.
- Students are respectful.
