## Webinar Descriptions

Webinar	Description
<b>Content-Specific Balance Assessment Models</b> 	<p>The purpose of this first module is to provide an overview of the three types of assessments (Formative, Interims and Summative) that are parts of the Delaware Balanced Assessment System (BAS). Resources available for each type of assessment will be discussed and participants will be directed to their access.</p>
<b>Reporting and Data Literacy</b> 	<p>The purpose of this second module is to provide participants with an understanding of the types of reports available for each assessment and how to use and communicate the data. Resources available for each type of assessment will be discussed and participants will be directed to their access.</p>

## Connecting Assessment to Curriculum and Instruction

### Curriculum-Instruction-Assessment

The purpose of this third module is to provide participants with how assessment connects to curriculum and instruction. All three need to work in tandem to increase student learning. The focus of this module is the, “what next” after data is collected.
