

PERSONAL FINANCE & ECONOMICS

2022 ----- Mr. Rinehart ----- 2023

COURSE DESCRIPTION:

In addition to the fundamentals of economic decision-making, microeconomics, macroeconomics, and international economics, students will learn personal finance skills they can apply to their own futures – including managing and balancing budgets; understanding and building credit; protecting against identity theft and consumer protections; and understanding tax forms, student loan applications, and pay stubs. Economics is the study of how individuals, businesses, and governments make decisions about the allocation of scarce resources. This course provides students with a foundation in the field of economics, with a specific focus on how students can apply that knowledge to their own personal finances.

COURSE UNITS:

- Fundamentals of Economics
- Microeconomics
- Macroeconomics
- International
- Personal Finance
