

Canvas Parent App Instructions

Android Devices

Once you download the Parent App from the App store, you can create an account in the Canvas Parent app. As part of creating an account, you can associate a student with your account. **You must know the student's network ID and password. Please note: these are different than the student ID and GTID numbers. Your student can provide you with their network ID and password they use to login at school.**

If you already have an observer account from your student's institution, you will still need to create an account in the app, however, you can use the same Canvas credentials to log in on both platforms. Also, please understand CCSD is unable to troubleshoot app accounts.

The app provides access to the course name, the grade, and the calendar only. If you are looking for a robust interface with the Canvas platform, log into your web-based Canvas Parent Account via a laptop or desktop.

Notes:

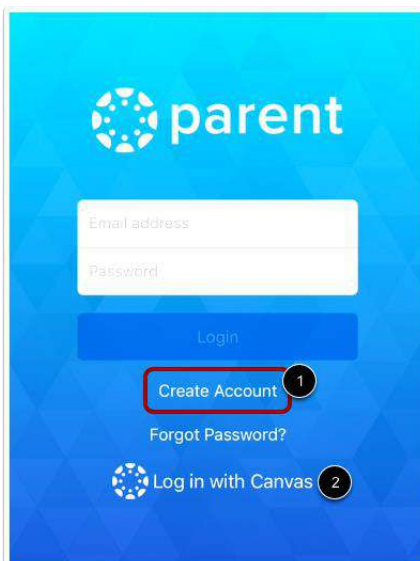

- If you receive an invalid username or password message during the signup process and the student's credentials are correct, check with the student to verify that he or she has provided the correct network ID and password.

View Dashboard

A screenshot of a student dashboard for Emily Boone. The dashboard has a purple header with a profile picture, the name "EMILY BOONE", and a settings gear icon. Below the header are three navigation tabs: "COURSES", "WEEK", and "ALERTS". The main content area lists three courses with their grades and percentages: "American History - US History" with "No Grade", "Bio 101 Fall 2014" with "A 100%", and "Bio 101 Summer 2015" with "F 0%". The bottom course, "Bio 101 Winter 2015", is partially visible with a grade of "D- 62.5%".

Course	Grade	Percentage
American History - US History	No Grade	
Bio 101 Fall 2014	A	100%
Bio 101 Summer 2015	F	0%
Bio 101 Winter 2015	D-	62.5%
