

## Welcome to Ms. Carney's Honors Physical Science Class!!

I am so excited to be teaching you this year! My name is Ms. Carney and this is my 5<sup>th</sup> year here at the Bay! Even though this year may start off a bit differently than usual, it is my job to make sure you have a safe and fun year ahead of you! You're 8<sup>th</sup> graders now so let's celebrate that! In Honors Physical Science you will be learning about the nature of science, chemistry, and physics so we will talk about chemical reactions and atoms, as well motion and energy! Fun stuff! This does go toward your high school GPA so please be ready to put in the time and effort to learn the content, but also remember that I'm here to help you get through any blocks in the road you may have! It is a math heavy course and does have an EOC and a midterm, but once again, I'm here for you and we are going to have a lot of fun! Check out that supply list on the district website for what is needed for the course and whether or not I see you in person or online, I know we are going to have a great year. If you have any questions at all, please feel free to email me at [Allison.carney@stjohns.k12.fl.us](mailto:Allison.carney@stjohns.k12.fl.us) or once schoology is up and running for the year, schoology message is another wonderful way to reach me. I can't wait to see you on the first day of school! Go Wildcats!
