	Teachers (tends) to AVOID Parent(s)											
	Never hear from some teachers. Tell kids not to have parents email them.											
NO	At times (not all)staff may not be too friendly. The teacher needs to be in contact with the parent, especially if child is needing extra help in certain subjects.											
	So that the parent can be aware of the child's need and can be on the same page as the teacher to get the child needed help.

More of a solid and consistent foundation i.e. sports/education rather than the "good old boy" network. Federal employees have high expectations. "Shade tree" performance is interpreted as substandard. CCHS performance in SE Georgia is congruent with "excellence". Getting there is easy. Maintaining will always be more difficult.

You are doing a great job in that area.

already doing a great job! As a military family my kids have been to multiple schools. This is the first time EVER that they are not drowning in homework. They have so much time for after school activities & studying. I love how the curriculum is set up. It works well for everyone.

Parents input is considered in I replied no because I haven't seen or heard of a meeting for parents to vote ir ask for suggestions from parents. I answered no on my child's teacher encoursges him I haven't seen this with my child"s teachers. I would like an email from teacher saying they believe my child is not putting forward best effort or he seems to be struggling, or he seems to be when I have asked my child to tell teacher or ask the teacher questions the response has on more than once been an unsatisfactory answer. I realize it could be my child's fault but without hearing from teacher, parent doesn't know.

8 Parent Compact: Please comment on what you liked about the compact and/or what could be improved.

I would like to see the crosswalks from the parking lots for the students painted so that the vehicles know where they are and the students know where they are.

Communication with teachers.

I don't feel comfortable giving my name or email as my child would most likely have a heavy price to pay from some of his teachers! He is meek and a good student. I don't want retaliation for my thoughts and comments.

it is a ridiculously worthless document and a waste of paper

Like the information is provides/do not think anything needs to be changed

I have a high schooler, hence my answers.

I never saw a parent compact for this year.

Teachers are very concern of my child well being.

Teachers are very concern of my child well being.

Teachers making sure all grades are in by the end of week.

I don't like the compacts that the children bring home at the beginning of every year and they ask me to sign them because their teacher said they have to return them.

I would like to receive more information from teachers.

I like how the compact holds parents, as well as teachers, administrators and students responsible for the education of our students.

What is the parent compact?

Be more than happy to comment when changes are implemented.

I think Camden County Schools do a great job with all that they do to accomplish students to become great adults.

Communication between teachers and parents is outstanding at this school. Camden is the best school my child has ever attended, easily.

Very informational but too long.

Teachers should talk more to seniors about college. Scholarship opportunities, deadlines, FASFA, etc.
