

Change Matters

Connecting Learning

1. What are the characteristics of a physical change?
2. What are the characteristics of a chemical change?
3. If you were to crack an egg and stir it, would this be a physical or chemical change? Explain. Where would it go in the Venn diagram?
4. What if you were to cook that egg? Would that be a physical or chemical change? Explain. Where would it go in the Venn diagram?
