

## Chemistry Honors Summer Assignment

This assignment is designed to help you be prepared for your first chemistry class. Both of these topics **WILL be addressed** during our first unit in August so take good notes and be prepared to answer questions about the information gained upon your return to school. Your teachers also want you to see what a great resource this site can be for additional information & explanations throughout the school year!

1. Visit the following website: <http://www.gpb.org/chemistry-physics/chemistry/101>
  - a. Before viewing the video, download & print the 5 PDF files below the video screen. (Note-taking guide, Candle Lab part 1 & 2, Scientific method lab, and metric awareness activity).
  - b. View the video and complete each of the documents as you watch.
  
2. Visit the following website: <http://www.gpb.org/chemistry-physics/chemistry/102>
  - a. Before viewing the video, download & print the 4 PDF files below the video screen. (Note-taking guide, measurement worksheet, metric measurement lab, and data sheet).
  - b. View the video and complete each of the documents as you watch.
