4350	National Clean Diesel Funding Assistance Sections 792 of the Energy Policy Act of 2005 authorize EPA to award grants and low-cost revolving loans to eligible entities to fund the costs of a retrofit technology that significantly reduces emissions through development and implementation of a certified engine configuration, verified technology, or emerging technology for buses (including school buses), medium-duty or heavy-duty trucks, marine engines, locomotives, or nonroad engines or vehicles used in construction, handling of cargo (including at port or airport), agriculture, mining, or energy production. In addition, eligible entities may also use funds awarded for programs or projects to reduce long-duration idling using verified technology involving a vehicle or equipment described above, or the creation of low-cost revolving loan programs to finance diesel emissions reduction projects. The objective of the assistance under this program is to achieve significant reductions in diesel emissions in terms of tons of pollution produced and reductions in diesel emissions exposure, particularly from fleets operating in areas designated by the Administrator as poor air quality areas.
