

Angel Castro

P

I was really excited to go to DAPSS. I was forced to go here. I'm really happy I did this. The way my life is right now is because of all the past experiences we had. I've met all my best friends here. I gained an interest in joining the military. How bad the academics were actually motivated me to focus more on my education and see how badly I needed it. My first two years here were good. But after each year you could see that it was slowly deteriorating. And my junior year this year has been the worst. Substitutes in every class. Unmotivated teachers. No lesson plans. But there is some good. I miss the freshman year cadet activities like the carnivals at the end of the year, the incentives and rewards we got for good behavior and grades. This year the school has focused ONLY on bad behavior, which isn't really doing anything except making things worse. People disrupt class and are barely consequence hardly. But as a distinguished honors student, if I'm caught wearing a sweater, I automatically have detention. Mr. Johnson's position is honestly unnecessary and a waste of money to the school. I just want honors classes back, Great teachers, a great environment, a better student body, and to actually learn.

What I would like to see

- An environment where teachers that love their jobs, and students learn.
- Incentives, rewards, recognition.
- More, better, funner events
- With school spirit events
- Way better academics

★ I love music for class tho!!!

I would also like to recognize the teachers (Hage, Anderson, Lowe, Francis, Munson, Casper, Duckett, and Giannanti.)

~~For~~ without them daps would have no hope

My first year at dapss as a freshman was an amazing experience because, I experienced awesome teachers & great education.

The education at dapss is very well understood because the teacher here at dapss make sure you understand the work before they let you alone to work individually or with a partner.

Also the teacher at dapss are very organized & teach very efficiently.

I also like how they have different public safety classes, so you can get a feel of each public safety career field to see what you like a job in the future.

The teachers at dapss are the success you need to get through the school year even if you don't know who the teacher is or never encountered them before.

All the teacher here at dapss are willing to help you with your problems no matter what & if that teacher can't support your need they gladly will take you to some one ~~who~~ who can help with your issue.

My experience at dapss has been amazing from student to staff. Dapss has really took me far into a great life & dapss has really made my life what I want it to be from staying home Playing video to Volunteering at minquawalle fire company where I should be.

All thanks to dapss

The Reason why I am writing this letter is because I would want to help save my School. The Reason why I came here was to better myself and my future. I would love to see my School grow and become better. by helping out our environment, having more options in our public safety career. Delawere Academy is very important to me when I was looking for a School they open there arms to me. I came here to join the military and I'm still look forward for it and will be proud to say I came here. I felt like Dapss should change more by being no Striked one us. having meetings every month on what is going on in our

School, our school has
wonderful staffs, if our
school wants to become
better we all should
as a school and talk and
plan something. Our school
should make students
feel like this is school is
important and should
teach us what we came
here for. This school
is like my 2nd house

Natalia Thomas
Senior c/o 2018

It was the end of my freshman year, a year where I faced many hardships and trials. It wasn't until I came to DAPS my sophomore year, that I realized my life is full of chances. My freshman year lead me to believe there was no hope for me. I made some bad decisions and it reflected a lot in my grades. Daps never held that against me. Daps was my second chance at a happy ending. My D's turned into B's and my C's turned into A's. Now approaching the last days of my Senior year I am attending Newmann University in the fall and will have Nursing as my major. Daps is in no way perfect but it allowed me to gain the support that was vital to the successful closing of my High school Chapter. If I never made the decision to transfer to Daps the person whose writing this would have never surfaced its always been in me. Daps just brought it out of me. There are many others just like me who just need a school like Daps to push them. This is my testimony to story that is not over. I will take with me into my life that no matter where we stumble; we always have a chance

to finish the race. Dapss believed in me
and gave me the platform to acquire
success. For that I am forever thankful

Nafasia Jones

To Whom it may concern,

Hello, my name is Tyler Crabill. I have been apart of the Delaware Academy's Community since my freshman year of high school through my Senior year. Honestly, I didn't really even know this School existed when I applied. I never wanted to come here, I wanted to go somewhere else. But I'm glad I came here. D.A.P.S.S. or the Delaware Academy, has something to offer that no other school has, we offer Public Safety. I think and I know that it is a great idea because I have learned so much that the average person will never know. I was trained and certified in first aid and CPR at the highest level you can get it at. That is one thing not many people get to do. Yes this school has a lot to fix, both academically and the level of discipline that we offer. I have been here for four years now, I have seen a lot of different staff members and a lot of different students, but this is an amazing school over all. It gives the future public

Servants a way to learn all these
tools and skills that they can use early
on. I hope that it stays open for a really
long time, I love the idea of the
school, no other school in America
offers just Public Safety as it's core
career pathway. I know this letter doesn't
say much, but I hope it stays open
long enough for someone to be able
to come when I call 9-1-1.

Sincerely,

△ Yhr Creator

Jordan Hudson 2/13/18

I would come to DaPSS because I will like to support all people, staff, teachers and principle. then I can speak my own words about how I am going to get my education and then coming back to DaPSS school and unfortunately I would like to speak to people on how I can support students then helping them out with anything that they need. the only thing I can focus on is coming back to school cause I think DaPSS is the right school I should be and stay in. after that I like to stay focus on school then doing more of the work. I wanna get to know everything and thinking about some of the community service that I can be in like if I wanted to be in EMS or being in firefighting. I think

I would like coming to
school and like to have
the community services
cause it will be a good school
to stay in too.

I believe that Dapss is a very unique school that offers a lot of things that other schools do not. The courses that Dapss specializes in are meant to educate the cadets in EMT, Firefighting, and police. The field of public safety is something the cadets at Dapss are very passionate about. We're here because we want to help people. We want to learn how we can help people and make their lives better. At this school I have learned a lot about responsibility and trust, especially through the Tacops program. The cadets in the Tacops program do their best to help each other, other cadets in the school, and the outside community. Since coming to this school I believe I have so much about so many different things. Even things I didn't expect to learn. At this school I have gotten a lot of different opportunities not offered in other places. I hope to see this school continue to grow and help other people and offer them the same opportunities I have been to help

themselves and their future be the
best that it can be.

Castaneda
2/13/18

The reason why I came to Dapss it's because ever since my sister came here she has been learning about the real jobs such as being a police officer, a fire fighter, a doctor. no other schools teaches special stuffs like this, they only teach regular stuff such as english, math, social studies they don't have the unite and special classes like Dapss does. Ever since I was a little kid I've always wanted to become a fire fighter, and yet I still have that idea. ~~when~~ ^{when} I was in the sixth grad I still had the idea of becoming a fire fighter but my parents could not find the type of school for that kind of education. then that's when we heard Dapss, when my sister graduated my parents applied her to dapss because they also wanted for my sister to have this kind of education. so when I graduated middle that's when I went to dapss I saw alot of things that no other school had. Dapss had classes for learning about police officer, classes about fire fighters, classes about public safety, and classes about being a doctor. the moment when I was assigned to my classes I said to my self this is the right school I'm in and this is the school I'm gonna stay in.

So what I want to see in the future
of Dapps is to see other kids learning
~~and~~ becoming of what they want to
do in life.

Michael C. Blanco

The reason that I came to dapss was to better myself from the life I was at. Before I came to dapss, I was at Glasgow High School. That School I didn't learn anything. That School I was at all I learned in that School was nothing but Street Knowledge.

When I came to dapss I wanted to better myself for my family and to become a better man in life.

When I first started coming to Dapss, I did not live it, I had to wear a uniform and dress appropriate and I had a lot of walls up for myself.

I didn't trust no one and always thought people was out to get me.

But the staff of dapss helped me a huge amount, they helped me not judge someone by their race or the way they looked. But to have respect for another person like you would have respect for yourself. Now I went from being a person involved in drugs and street violence to a person who wants to help others any way I can. All thanks to me coming to DAPSS.

I would like to see the future of dapss become the future Hero's. And I know dapss can make some one a better person because I was that one guy who didn't care about nothing. The Dapss staff was hard on me and they was there for me when I needed them the most. every teacher I met in dapss has had this agility and the confidence in all of their students for they can pass and succeed. Dapss in my eyes is a good school, you meet people from all sorts of places with different backgrounds. And dapss helps everyone understand we are all the same somehow.

I can see Dapss as the school for future Hero's (firefighters, EMT, police, Army, etc.) I know from my experience that Dapss made me a better person and they helped me every step of the way and now I'm proud to say that I'm a better man now because of them.

Any Questions call me

Cecily Bellemann
2/13/18

To whom it may concern,

Dapss is a one of a kind school. We are a unique group of students and administration that work hard to achieve our goals. Moving to Dapss for the eleventh and twelfth year from Howard was a great decision. If I had not moved to Dapss, I wouldn't have made it as far as I have.

During the tenth grade year at Howard, I was struggling with the students and most importantly my grades. I tried to get help but it was too hard to communicate with staff. After seeing my therapist, she told me about Dapss. It was like a dream come true. A school with only around three hundred to four hundred students, specializing in public safety. I immediately took action when I got home. I enrolled as soon as I got home and I knew I made a

good choice.

Before the new school year I had a meeting with the head of the school, Mr. Sheldon. He was and still is a very sweet man. He told me all about the school and students. I was excited to start my eleventh grade year at Dapss. I never felt so happy to go to school.

On the first day I got to meet all of the staff. They were all so friendly and caring and I felt so welcomed. Throughout the year, I was treated with so much respect it shocked me. Whether it was help with work or me and another cadet, the staff was always willing to help. I also never got help from staff at other schools. I felt like Dapss was made just for me. I enjoyed learning U.S. history with Mr. Giansanti, bless his heart and may he rest in peace. Our previous math teacher, Ms. Mullrooney,

Hello my name is Daniela Alvarez, I am a student at DAPSS Charter High School. I have been a student at the Academy since my freshman year and now up to my senior year. I am one of many Cadets that have the opportunity to be in a high school where there is staff that is willing to help you on anything and any situation that is going on and teaching you not to give up on anything. The experiences that I have and had at the Academy are plenty that I wish I could write a book about. The first experience would be my freshman year wow lets go 3 years back when I was learning CPR! I can say that learning CPR was a blessing why because you get certified in adult and infant and you can help people in case they need help outside of school. Another one would be going to the trip to NYC it was like a dream come true seeing the statue of liberty and the twin towers museum and where the twin towers were located at. But thats not all about my experience my freshman year it would also be about the GREAT staff that helped me and the words "Don't give up and keep up your dreams". For that I am thankful with each one of my teachers and administration that never gave up on us. Another great experience would be my Sophomore year when I had the opportunity to also be part of CSI with Mr. Fletcher and learning the hard Obstacles that our police officers have to go thru day by day. Also going to the Wilmington Court House and actually witnessing real life cases where people got sentenced for the bad choices they had made. Also of course if it was not for my teachers and administration I wouldn't have had that opportunity to witness cases at the court house. The other great experience that I had would be my Junior year learning about firefighting and ways to keep your house safe and making sure everything was in order. Our instructors would always made sure we passed and had everything turned in and leading up thru the Fire school days we had and I could say that even though I could not fit in the firefighter gear I still managed to pass and participate. My junior year was also full of good things like having the opportunity to learn about the toughest things that firefighters do just to save my life your life and

everybody's life to stay safe from a fire. Without the administration that we have here at the Academy I wouldn't know anything about fire school and I thank them for approving the fire school opportunity and for having us as students learn and participate in that event. Now that I am a Senior I have experienced the opportunity to be part of the EMR class here at the academy with Mr. Crumpton where you learn about every part of the human body and you learn how it works and why it's important to do the things right to take care of a human. And I thank administration for choosing great teachers to teach us about life's important concepts. These were some of my experiences here at the academy and I hope to gain more before my graduation. All I could say is that every choice you make nobody makes it for you, you make it for yourself and as Mr. Wainwright would say the choice is yours. Thank you to all administration, teachers and of course my guidance counselor at DAPSS- without you guys the Cadets and I would not be where we are right.

This school is special to me because....

I have great teachers and friends.

Mason Glanden

This school is unique because....

It's a public safety school & it can impact on your career/
help build your career - Georgia Outley

I love going to school here because...

The teachers and students are caring. The teachers makes
sure your grades are always good and that your okay. The
different programs offered here are also exceptional and will
help the students in here progress farther than expected. - Acryn
Stroble

This school is special to me because....

I have made a lot of friends and made
a lot of memories

- Jeremy P. DeLuca

This school is unique because....

it is one of the only schools in Delaware
with Public Safety.

- Miles Etter

I love going to school here because...

I have met a lot of cool people ~~and~~ here and
we all have common interests

- Joseph Tafelski

This school is special to me because....

My brother went here and I got a very good education here

Kara Smith

This school is unique because....

This school teaches about the importance of becoming a cop, fire fighter, doctor, and about the law there is no other school that is like DAPS, Martin

Castro

I love going to school here because...

It give many opportunities for the students / Eric Holmes

This school is special to me because....

This school has changed me and my attitude it has made me a better person

This school is unique because....

There is no other schools that ~~offer~~ ^{things here} the same ~~support~~ for the students who want to be first responders

I love going to school here because...

I have learned not just academics but life lessons. Unlike other schools this school has a program called Tac Ops. I have had my worst moments there and my best. ~~my~~

This school is special to me because....

I get to learn different things. Things that I would not learn any where else
Imini Booker

This school is unique because....

The different things you learn

This school is not like any other school because it is a public safety school about Law. - Sah'lick Booker

I love going to school here because...

I met people from different cultures and religion -
Monica Pena

This school is special to me because....

Of the teachers and how nice cool and fun they are. when you need help they will take time out there day to help you it makes us kids feel like family. Michael Torres

This school is unique because....

everyone knows everyone, we are like a big family.

This school has great teachers that actually always

are there for us when we need it. The school has always brought out the good in me, shows how it feels to be a part of something bigger than yourself. - Janelly Salazar

I love going to school here because...

I've made a lot of new friends and all the teacher are nice. They're always there to help us whether if it's school stuff or not. Also this is the only school that teaches us about public safety. Xinyi Xiao

This school is special to me because....

This School has changed me to be a better person.

-JD Johnson

This school is unique because....

Public Safety Classes give the full experience and feeling. You shouldn't get rid of the opportunities for future first responders & people going in the military.

I love going to school here because...

I met COOL PEOPLE

This school is special to me because....

I met good friends

This school is unique because....

It is one of the only schools that help you get your additional E.M.T certification.

I love going to school here because...

They are bringing in a new program with great benefits that I'm excited for

This school is special to me because....

The field trips are awesome
Because I learn something
different everytime I go

This school is unique because....

This School is willing to take me in as a Student When Some
Other Schools Woldn't take me in because of my Problems.

I love going to school here because...

This School gives you alot of good knowledge, helps you
prepare for an Career after you graduate, we have awesome
teachers, awesome field trips and you can get the Certification
that you want to
Succeed.

This school is special to me because....

I met A Couple people (5) that I actually like

This school is unique because....

It's no other school in Delaware that has to do
with public Safety and Security.

I love going to school here because...

Doing EIA work and public safety

This school is special to me because....

it gives you a career IN the
medical field.

This school is unique because....

it's not like Any other school
Delaware.

I love going to school here because...

it gives me a opportunity to learn
New Things IN The world,

This school is special to me because....

I wouldn't have met all the good people
I call friends now and I probably
would've never learned anything about
the public safety field.

This school is unique because....

I met my only true friends here...

also, ~~even~~ I catch up to all my ^{netflix} ~~netflix~~
^{shows} ~~shows~~ here

I love going to school here because...

The EMT/EMS

Philip Mustico

Some times the school can be a little bad because we cant keep steady teachers in class rooms. I come to this school to be a firefighter, Not a failure. And It's hard to do so because the teachers are getting expelled due to hitting other students. But this All sums up to being a bad working environment. The school Also has financial Problems, like All the Read 180 and odysseyware are down because the school cant afford it. And At lunch it looks like we are eating Jail food because of how ~~dis~~ disgusting it looks. We got water bugs, Roaches, flies. And we dont even have a proper gym, we have to share the gym with lunch and an Auditorium.

Delaware Academy of Public Safety
and Security Besides DMA What other
Schools in Delaware is like DAPSS?

No other School in Delaware is like DAPSS
They not only give us our core values such
as English, Math, Social Studies, And Science
But they give us hands on public safety classes
PS1, PS2 Criminal Justice, PS3 Fire/Fire rescue
PS4 EMT/Medical. Those public safety classes
are good for the students because it gives us a
good insight of what to do if we want to go
into that field of work. I came to DAPSS
because I want to be an EMT and Fire Fighter
And I thought this would be a great school.
I don't think it's a bad school
I see that it's more or less the students.
I say that because the teacher can give
you work, write stuff on the board all day
or try to teach you all day it's up to the
students to intake all of that knowledge
use it and apply it in real life. It's
a good school if the students would
use the untinders that are giving to
us

To who this may concern

I think the DUPSS School should stay open because all 4 years that I have been here have been amazing because the teachers here really care about their students and the teachers are very helpful and understanding especially for a student like me that has ADHD. The other students here are very nice and kind and are also very helpful. It's easy to make friends here. BUT most of all the authority here is great they always make sure all their students are safe. They are also very helpful with problems students are having. They really care about us. Especially Mr. Wainwright he's the best he really cares about us and he is always there for us student whether it's an issue we are having or when we just need someone to talk to. Whenever I had a bad day I would go talk to him because he really understands. So please let this school stay open.

from your
Follow Cadet

I came to this school freshman year because my best friend was looking into here and I was interested in what the school was about. I came to their open house and I ended up wanting to go. When I first started here it was different. The school was very strict and different from the schools I had gone to before. Overall my year went pretty well. This year was completely different. Most of my teachers have quit and I've had subs for a decent amount of the school year (about 2 marking periods). There has been multiple fights this year. The academics at this school have greatly decreased after the few years I've been here as well. Also we get in trouble for reasons such as wearing sweaters when it's too cold or when the school has not put the heat on. As some kids at this school do not have a dress job sweater they will get in trouble for wearing something that keeps them warm.

was great at handling my learning disability during class. Mr. Wainright was and still is very understanding. Mr. Fletcher was and is a very fun teacher and he's fun to learn with. I don't have enough time to explain how every single staff member is great at their job, but the point is that the staff knows what they are doing and they are magnificent at their jobs.

It is hard to write all of what I think and feel but my main point is that I would hate to see this school go. From my personal viewpoint I do believe this school should stay and make more great fire fighters, officers, paramedics, and more. This school should be able to continue being great and make more college and job ready cadets.

Love,
Cadet Bellemann

~~2-13-18~~

~~2-13-18~~

~~2-13-18~~

2-13-18

The reason I came
to dapss, because it was
a last second decision.
My Mom told me about this
school and I came here
because I couldn't go
anywhere else. My experiences
at dapss is that it
is a ok school, it
is just that it is
too small. What I would
like to see in dapss in
the future is better
food in ~~the~~ breakfast
and lunch, Also more
dress down days and to
get rid of the uniforms.

The things that concern me about dapss is the Public Safety credits. If dapss shut down the Public Safety credits won't transfer over to the new School. I want to make sure that if dapss shuts down that I will have all of my credits. Another concern I have is the teachers, teachers have been coming and going lately and I haven't really learned anything. ~~The~~ the staff have been more focused on our appearance then our teachers and how there teaching.

~~scribbles~~

This School is good because it's the only school that has Public Safety in the State of Delaware We only have one chance to be in a school like this and I wanna be a EMT so this is my chance to train for one.

2/13/18

~~Miles Etter~~
Miles Etter

I Came to Dapss trying to Learn how to Join the Law Enforcement Career Path. Although I'm Only in 9th Grade, I feel this School is Gonna Accomplish this dream. I've learned So much about Police in these 7 months then ~~in~~ ^{In} My 14 years. And I Just Imagine what more I can learn while Attending this School. Its Not Just the Public Safety Classes, It is the Friend I met here too. I met some Nice people that Care about thier Career Paths ~~as~~ ^{as} Much as I do. This School is A very educational school and If I stays up For A longer period of time, I would agree it will be Beneficial. Delaware academy of Public Safety and Security isn't a Perfect School but neither is William Penn or Del tech.

Joey maniscalco

2/13/18

Dear Delaware School board

MY experiences at DAPSS for the past 2 Years have been great. Since I've come to this school I feel as though I belong. The Amount of friend in both Staff and Student has be amazing and don't feel left out of anything in this school. I greatly enjoy the small classes do to the fact that I feel as tho I can get the help I need when I need it. The only thing I hope for in the future is a new building which is what we are getting next year.

mihael Torres

I came to dAPSS for a better future and in all honesty it has been giving me that. this school is like a second home.

these teachers treat us like family and I wouldn't wish to go to any other school. we feel wanted here. whenever I need help the teachers are always there to help.

I've learned so much from this school and without this school one of my friends would be dead right now he choked and I saved his life from what I've learned from this school. so please keep this school open I don't wanna lose this family here in dAPSS.

The reason why I came to D.A.P.S.S is to get a better education and learn about public safety and what I want for my life. The experience that I have had so far is a good time but I will not be coming back here next year. What I want to see for the future is great things a football team and a much of other sports.

Imani
C. 10.1

I believe this school should stay open
because it gives people who want to
to be a EMT or firefighter them a
change a change to do something that
they like and want to be. Just
by staying open just might help
someone parents to get there
kind of the streets and put them
into something that can help
them be a better person. Can
you guys think about what
you are doing you just might
be cutting jobs off.

Charles Scott

To Whomever it may Concern,

Delaware academy of Public Safety and Security is a great School for those who wanna be in the public Safety field. No matter what up and downs Dapss has gone through it is a great School, even if I dont wanna come everyday. The teachers are all great and are all truly caring. I dont mean not just caring about the paycheck, I mean caring about the students and what the students plan to do after school. may just be highschool or even college education. Dapss has truly helped me better myself.

Mekel Yahya

① Why I came to DapSS to
Become a cop.

② This School is fun this
School has Public Safety and
not a lot of people that
is good for me and not
a lot of fights this school
is safe.

By Mekel Yahya

When I first came to DAPSS I liked it and I still like it. Its Honestly a great school and Im Not just saying that because that what the people want to hear, No Im saying because it is and if yall close down the school look at everyone (staff) youre going to put out of a job I mean like you even care youre going to do what you want Anyway And then look at all the kids youre going to put out of a school now yes we can go to like Newark high, William Penn ect. but thats not the point I would say 90% of the kids here like it and I know our numbers are not the best but we are getting there or at least trying Mrs. Kirby works her behind off to get kids. so what ever you do just know that DAPSS a great school

Jonathan D Johnson

Jonathan D Johnson

I came to DAPSS because when I grow up, I want to be a police officer. DAPSS is the perfect school for those who want to do something in the public safety field. It is the only school that teaches public safety. This school changed me a lot. It's fun and exciting that you get to do hands-on things in public safety. We get to do some car stops in public safety 2. We get real life situations and see how we handle them and then get teach the right way of handling the situation. It was a really fun experience that I get to learn how officers handle different situations. I want DAPSS to stay because I'm sure that there are a lot of people out there who wants to get involved in public safety but doesn't know where to start. This is a perfect school for those who wants to be a police officer, firefighter, or EMT in the future.

I am here today writing because I heard that my school was under review. I do not want this school to close because I came to this school for a reason. yes I was forced to come here and I didnt like it at all until I gave it a chance. the staff is like family to everyone when you really get to talk and know them then things start to get good and yes there will be bad things as well but that is a everyday thing for every school. a lot of people need to look at this school and give it a opportunity. if d.a.p.s.s closes then I dont know where to go because now that ive been here for 2 years dapsos is my home now and yall are taking my home away if yall do this so please give this school a chance because I wanna graduate being a EAGLE not anyother school so that is basically the end I hope yall understand where I come from and why I want this school to keep itself alive.

Sincerely, Keith griffin

Auziyue Scott

I think that the school is actually a good school, it's just the kids don't have no home training. This school helped me find out what I actually have passion in. I think that it would've been way better if our teachers stayed with us instead of leaving us

de

I personally really don't want this school to close because I chose it because it offers subjects areas that I'm interested in as well as subjects that I need in life. If this school closes, I really don't know where I'm going to go because I can't deal with the disrespectful kids at all other schools which I noticed is how we hear here which is another reason why I chose this school. I can't go to a Catholic school because I think it's a waste of money and I'm not going to a public school because I can't deal with the disrespect and I can't choose another charter school that offers close to the same classes because all other schools similar to this one are entirely too far from my house and I would have to drive because a bus wouldn't pick me up and I personally have a job and with trying to pay my truck off insurance and still have enough money for gas each week is hard enough so if it goes if I have to move schools I really don't know what I'm going to do because I want to be able to afford it or be able to think about going to a school with such disrespectful kids.

I came to this School because it has a better environment than a public School this School has alot to offer to the cadets that attend Long-term by helping them get into the field of public Safety I like the teachers that is here they make sure that were on top of our School work They help us when we need they push us to be successful This School has done alot for us what i would like to see for the future is the Student to push more.

@KEMANUR.

I'm Kemanur I think DAPSS
Should stay open. I like this
School and what it does for helping
Students go into Public Safety.

Since I'm a Freshman I have public safety 1.
We have Mr. Fletcher, he is a good
teacher and tells us from his personal
COP and correctional officer life.

Right now we are leaving our corrections
unit and going into the court system.

We actually have a field trip
to the PA. Court house on Valentines

Day. We learn about law enforcement
corrections, institutions, court systems, and

its an introduction to all of our
PS2, PS3, and PS4 classes. Its a

Relatively small school and everyone
knows each other, and teachers can

interact more with a student than if it
was a public school like William Penn.

GIRARDMANMAURI

why I came to DAPSS?

I came to Dapss to further my future in nursing, so I can be able to take care of poor and less fortunate. I think its ~~not~~ reason to shut dapss down, its great memories and storys to be told here.

Joshua Colorado

I think this school should stay in position because the people that want to be a police officer, Ems, firefighter, this school a great place to go to. You ^{will} learn everything about being an officer, Ems, and firefighter. The uniforms are great because it looks like a cop uniform and also the Tac ops uniform. Tac ops is a great program for this school.

my name is, Javonae' mines

I came to dapss to become an emt
and the teachers here and the program will
^{help}
~~help~~ me become an emt they gave
me the right tools to become one.

What I would like to see in the
future is change in the uniform
like no dress code or any color
polo with Tan pants or black blue
Just not this uniform its a youth
School nobody likes the uniform

The reason I came to this school is that I thought I would find something interesting here at DapSS and I found Police work I have been learning a lot here, and the teachers are really helpful and I think I could have a bright future. I have made a lot of great friends and I have a lot of great teachers.

DAPSS

DAPSS letter, I feel As though this
School Should Stay open because its
filled with good teachers And Surrounded
By A good environment, Very safe place
to be At. I guess We learn A lot
We have good food no longer Bored
food

my experiences at daps. I can say, we grow and ~~we~~ I learned so much. Daps made me who I am today, and the reason why I say this is because over the years I had a lot to do & over come some obstacles that we had in my life plus goals. So coming to daps helped me out even more & I found way.

I like Dapss because this school
open my eye show me that
my future is important that's why
I wanna become a Cop and my
be join the air force. My 3 years
here at Dapss were the best having
great friends and teachers.
Coming to Dapss is like an
adventure I'm always ready to
learn something new here. The
teachers I had and have are the
best always push me to do
good. Dapss change my mind
set and my ways there way
different now I am not the
same person I was 3 years ago.
And I thank Dapss for that and now
look my grade's are good.

Thank you!!

BRANDON

I really love dapss because the school and administration has taught me alot. I'm going to be honest at first I didn't like the school because I had no discipline. And I didn't like the idea of people telling me what to do. But as I started to listen to everyone I realized at the end of everyday were every single best teacher and administration had the best interest for me and I love it. The school isn't as big as all the other schools but this schools love is unmatched. This school has excellent programs and staff and with a better building and better funds this school will be the absolute best school in Delaware. None of the teachers gave up on me when I deserved it. And at this moment I still don't deserve all the warm smiles I get. So I believe this school should stay open.
